

LIST OF TABLES

TABLE No.	TITLE	PAGE No.
1	Secular trends of obesity worldwide	19
2	Prevalence of obesity in urban adults by socio-economic status in India	21
3	Prevalence of abdominal obesity by grades of BMI in India	21
4	Prevalence of diabetes worldwide	23
5	Prevalence of diabetes in India	24
6	Prevalence of hypertension	26
7	Prevalence of hypertension in India	28
8	Prevalence of coronary heart disease in India	31
9	Classification of body mass index	33
10	Classification of central adiposity based on waist circumference and waist hip ratio	35
11	Etiological classification of disorders of glycemia	43
12	Classification of blood pressure	51
13	Background information of the subjects	128
14	Clinical information of the subjects	130
15	Nutrient composition of various foods supplied by the canteen	132
16	Nutrient composition of one packet of snacks provided by the canteen	133
17	Dietary intakes of males and females	134
18	Monthly sale of snack packets	142

]

Contd.....

19 a	Prevalence of overweight and obesity in an industrial population	146
19 b	Prevalence of chronic degenerative diseases in overweight and obese subjects in an industrial set-up	146
20	Prevalence of chronic degenerative diseases amongst the subjects enrolled from an industrial setup	147
21	Lipid profile of males and females	150
22	Lipid profile of the subjects in relation to age	151
23	Lipid profile of the subjects in relation to smoking habit	153
24	Analysis of variance in relation to smoking habit among normals and subjects with CDD	154
25	Lipid profile of the subjects in relation to tobacco consumption	156
26	Analysis of variance in relation to tobacco consumption among normals and subjects with CDD	157
27	Lipid profile of the subjects in relation to alcohol consumption	158
28	Analysis of variance in relation to alcohol consumption among normals and subjects with CDD	159
29	Relative risk of the subjects with respect to lipid profile among smokers, tobacco consumers and alcoholics	162
30	Fasting blood sugar and lipid profile of the study group	177 -
31	Fasting blood sugar and lipid profile of males	179
32	Fasting blood sugar and lipid profile of females	181

Contd.....

33	Fasting blood sugar and lipid profile of the study group in relation to overweight and obese condition	182
34	Fasting blood sugar and lipid profile of males in relation to overweight & obese condition	184
35	Fasting blood sugar and lipid profile of females in relation to overweight & obese condition	185
36	Lipid profile of normal and dyslipidemic males	187
37	Lipid profile of normal and dyslipidemic females	189
38	Lipid profile of overweight & obese and dyslipidemic males	191
39	Lipid profile of overweight & obese and dyslipidemic females	192
40	Lipid profile in relation to body mass index	194
41	Lipid profile of males in relation to waist hip ratio	196
42	Lipid profile of females in relation to waist hip ratio	197
43	Lipid profile of males in relation to waist circumference	198
44	Lipid profile of females in relation to waist circumference	200
45	Lipid profile of overweight & obese subjects having dyslipidemia	201
46	Relative risk in relation to atherogenic lipid parameters among subjects suffering from various chronic degenerative diseases	218
47	Correlation between various risk factors (Entire population)	220

Contd.....

48	Correlation analysis between various risk factors (Normal population)	220
49	Correlation analysis between various risk factors (Overweight & Obese population)	221
50	Correlation analysis between various risk factors (Diabetic population)	223
51	Correlation analysis between various risk factors (Hypertensive population)	223
52	Clinical information of the subjects	229
53	Dietary intakes of the subjects	230
54	Lipid profile of the normal, dyslipidemic, overweight & obese, diabetic and hypertensive subjects	231
