

LIST OF FIGURES

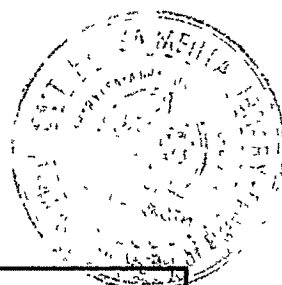

FIGURE No.	TITLE	PAGE No.
1	Projection of cardiovascular mortality	29
2	Models of NIDDM susceptibility	49
3	Mechanism showing how extracellular volume elevates arterial pressure	53
4	Renin-angiotensin vasoconstrictor mechanism for arterial pressure control	56
5	Atherosclerosis – an inflammatory disease	58
6	Clinical manifestation of human atherosclerosis	59
7	Interrelation between abdominal obesity and coronary heart disease	65
8	Interrelation between atherosclerosis and insulin resistance	70
9	Dyslipidemia of NIDDM	77
10	Experimental design (Section I & II)	115
11	Experimental design (Section III)	122
12	Frequency of consumption of non vegetarian foods	136
13	Correlation of energy with fat and carbohydrate	140
14	Prevalence of diabetes, hypertension and CHD in relation to body mass index	149

Contd....

15	Relative risk of subjects with chronic degenerative diseases in relation to various habits	161
16 a	Correlation between body mass index and waist circumference	214
16 b	Correlation between body mass index and waist hip ratio	215
17	Apolipoprotein levels of the normal, dyslipidemic, overweight & obese, diabetic and hypertensive subjects	234
18	Total antioxidant activity of the normal, dyslipidemic, overweight & obese, diabetic and hypertensive subjects	235
19	Linear regression between Non HDL-C and Apo B	240 - 241
