

Table Nos.	<u>LIST OF TABLES</u>	Page Nos.
4.1	Distribution of study sample according to the variable of age	155
4.2	Distribution of study sample according to the variable of social status	157
4.3	Distribution of study sample according to of Specialization variable	160
4.4	Distribution of study sample according to the family size variable	161
4.5	Distribution of study sample according to the variable of salary level	165
4.6	Reliability for each domain of study and the total reliability of domains	167
5.1	Mean, standard deviations and the degree of the role's effect of QOU in socio- development and empowerment of Palestinian women	171
5.2	Mean, standard deviation and the degree of the role's effect of QOU in socio- development and empowerment of Palestinian women	173
5.3	Means, standard deviations and the degree of the role of IGNOU in socio- development and empowerment of Indian women	175
5.4	Mean, standard deviation and the degree of the role of IGNOU in socio- development and empowerment of Indian women	176
5.5	t-test of the role of open learning in socio-development and empowerment of women according country variable	178
5.6	Means and standard deviation to the answers of the respondents in Palestine according to age variable	180
5.7	ANOVA-test of the role of (QOU) in socio-development and empowerment of Palestinian women according age variable	181
5.8	LSD-test of the differences and their direction for the ultimate level for Palestinian respondents according to the age variable	182
5.9	Mean and standard deviation to the answers of the respondents in India, according to age variable	184
5.10	ANOVA-test of the role of (IGNOU) in socio-development and empowerment of Indian women according age variable	185
5.11	LSD-test of differences and its direction for the ultimate level for Indian respondents according age variable	186
5.12	t-test of the role of (QOU) in socio-development and empowerment of Palestinian women according marital status variable	188
5.13	t-test of the role of (IGNOU) in socio-development and empowerment of Indian women, according marital status variable	189
5.14	Means and standard deviation to the answers of the respondents in Palestine according to place residence variable	191
5.15	ANOVA-test of the role of (QOU) in socio-development and empowerment of Palestinian women according place of residence variable	192

5.16	t-test of role of (IGNOU) in socio-development and empowerment of Indian women according place of residence variable	193
5.17	T-test of the role of (QOU) in socio-development and empowerment of Palestinian women according education variable	195
5.18	Test of the role of (IGNOU) in socio-development and empowerment of Indian women according to education variable	196
5.19	Means and standard deviation to the answers of the respondents in Palestine, according to specialization variable	198
5.20	ANOVA-test of the role of (QOU) in socio-development and empowerment of Palestinian women according specialization variable	199
5.21	Means and standard deviation to the answers of the respondents in India according to specialization variable	200
5.22	ANOVA-test of the role of (IGNOU) in socio-development and empowerment of Indian women according to specialization variable	202
5.23	Means and standard deviation to the answers of the respondents in Palestine according to family size variable	203
5.24	ANOVA-test of the role of (QOU) in socio-development and empowerment of Palestinian women according family size variable	204
5.25	t-test of the role of (IGNOU) in socio-development and empowerment of Indian women, according to family size variable	205
5.26	t-test of the role of (QOU) in socio-development and empowerment of Palestinian women according to family structure variable	207
5.27	t-test of the role of (IGNOU) in socio-development and empowerment of Indian women according to family structure variable	208
5.28	Means and standard deviation to the answers of the respondents in Palestine according to of occupation variable	209
5.29	ANOVA-test of the role of (QOU) in socio-development and empowerment of Palestinian women according to occupation variable	210
5.30	Mean and standard deviation to the answers of the respondents in India, according to occupation variable	211
5.31	ANOVA-test of the role of (IGNOU) in socio-development and empowerment of Indian women according to occupation variable	212
5.32	LSD-test of the differences and its direction for the ultimate level for Indian respondents according occupation variable	213
5.33	Mean and standard deviation to the answers of the respondents in Palestine, according to salary variable	214
5.34	ANOVA-test of the role of (QOU) in socio-development and empowerment of Palestinian women, according to salary variable	215
5.35	Mean and standard deviation to the answers of the respondents in India according to salary variable	216
5.36	ANOVA-test of the role of (IGNOU) in socio-development and empowerment of Indian women according to salary variable	217
5.37	LSD-test results to show the differences and its direction for the ultimate level for Indian respondents according to salary variable	218
