

# LIST OF FIGURES

	<u>Page No.</u>
Fig.1 Folic Acid, Methotrexate and Quinazoline Analogue	9
Fig.2 Absorption spectra of SRC-820	39
Fig.3 Comparative effect of SRC-820 and methaqualone on the growth of <u>S. faecalis</u> .	51
Fig.4 Effect of different concentrations of SRC-820 on the growth of <u>S. faecalis</u> .	53
Fig.5 Effect of SRC-820 and liver extract on the growth of <u>S. faecalis</u> .	56
Fig.6 Effect of various concentrations of glucose on <u>S. faecalis</u> respiration.	64
Fig.7 Effect of different concentrations of SRC-820·HCl on the respiration of <u>S. faecalis</u> using glucose as substrate.	66
Fig.8 Effect of Iodoacetate on the Respiration of <u>S. faecalis</u> .	68
Fig.9 Effect of SRC-820·HCl on Iodoacetate inhibition.	69
Fig.10 Effect of SRC-820·HCl and sodium fluoride on respiration of <u>S. faecalis</u> .	80
Fig.11 Effect of SRC-820 on Aldolase activity.	93
Fig.12 Effect of sodium fluoride on Aldolase activity	94
Fig.13 Effect of Iodoacetate on Glyceraldehyde-3-phosphate dehydrogenase activity.	99
Fig.14 Effect of SRC-820·HCl on Glyceraldehyde-3-phosphate dehydrogenase activity.	101
Fig.15 Effect of Iodoacetate and SRC-820·HCl on Glyceraldehyde-3-phosphate dehydrogenase	102
Fig.16 Effect of Mg <sup>2+</sup> on Phosphoenolpyruvate formation.	109

Fig.17	Effect of sodium fluoride on Enolase activity.	111
Fig.18	Comparative activities of Glucose-6-phosphate dehydrogenase in different buffers.	120
Fig.19	Effect of SRC-820 on Glucose-6-phosphate dehydrogenase	122
Fig.20	Effect of SRC-820·HCl on NADH-oxidase.	131
Fig.21	Effect of - p-Chloromercuribenzoate on NADH oxidase	132
Fig.22	Effect of pCMB and SRC-820 on NADH oxidase	133
Fig.23	Effect of L-cysteine on inhibition of NADH oxidase by pCMB.	135
