

LIST OF TABLES

<u>Table No.</u>		<u>Page</u>
2.1	: Comparative Study of Climate Types in Various Studies in CASE	.. 110
2.2 *	: Characteristics of the Sampled Schools in the City of Madras	.. 146
3.1	: Personal Characteristics of Teachers and Principals in the Sampled 100 Schools in the City of Madras	.. 152
4.1	: Percentage Distribution of the Sampled Schools in the Different Climates Types According to the Teachers' and Principals' Perception and the Perceptual Gap	.. 172
4.2	: Percentage Distribution of Secondary Schools Climatewise as revealed in some Previous Studies on Organizational Climate	.. 176
4.3	: Percentage Distribution of Schools in the Present Study compared with the Previous Studies in Tamil Nadu	.. 179
4.4	: Rank Order Presentation of Different Climate Types of Schools according to Teachers' Perception and Principals' Perception	.. 182
4.5	: Mean, S.D. and Significance of Difference Between the Mean Scores of Open and Autonomous Climates as perceived by the Teachers of Secondary Schools with respect to the Eight Dimensions of Organizational Climate	.. 184
4.6	: Mean, S.D. and Significance of Difference Between the Mean Scores of Open and Controlled Climates as perceived by the Teachers of Secondary Schools with respect to the Eight Dimensions of Organizational Climate	.. 186
4.7	: Mean, S.D. and Significance of Difference Between the Mean Scores of Open and Familiar Climates as perceived by the Teachers of Secondary Schools with respect to the Eight Dimensions of Organizational Climate	.. 188
4.8	: Mean, S.D. and Significance of Difference Between the Mean Scores of Open and Paternal Climates as perceived by the Teachers of Secondary Schools with respect to the Eight Dimensions of Organizational Climate	.. 188
* 2.2	: A Comparative Study of Leadership Behaviour Patterns in Various Studies in CASE	.. 124

Table No.		Page
4.9	: Mean, S.D. and Significance of Difference Between the Mean Scores of Open and Closed Climates as Perceived by the Teachers of Secondary Schools with respect to the Eight Dimensions of Organizational Climate	..190
4.10	: Mean, S.D. and Significance of Difference Between the Means Scores of Autonomous and Controlled Climates as perceived by the Teachers of Secondary Schools with respect to the Eight Dimensions of Organizational Climate	..190
4.11	: Mean, S.D. and Significance of Difference Between the Means Scores of Autonomous and Familiar Climates as perceived by Teachers of Secondary Schools with respect to the Eight Dimensions of Organizational Climate	..192
4.12	: Mean, S.D. and Significance of Difference Between the Means Scores of Autonomous and Paternal Climates as perceived by the Teachers of Secondary Schools with respect to the Eight Dimensions of Organizational Climate	..192
4.13	: Mean, S.D. and Significance of Difference Between the Mean Scores of Autonomous and Closed Climates as perceived by the Teachers of Secondary Schools with respect to the Eight Dimensions of Organizational Climate	..194
4.14	: Mean, S.D. and Significance of Difference Between the Mean Scores of Controlled and Familiar Climates as perceived by the Teachers of Secondary Schools with respect to Eight Dimensions of Organizational Climate	..194
4.15	: Mean, S.D. and Significance of Difference Between the Mean Scores of Controlled and Paternal Climates as perceived by the Teachers of Secondary Schools with respect to the Eight Dimensions of Organizational Climate	..196
4.16	: Mean, S.D. and Significance of Difference Between the Mean Scores of Controlled and Closed Climates as perceived by the Teachers of Secondary Schools with respect to the Eight Dimensions of Organizational Climate	..196

<u>Table No.</u>	<u>Page</u>
4.17 : Mean, S.D. and Significance of Difference Between the Mean Scores of Familiar and Paternal Climates as perceived by the Teachers of Secondary Schools with respect to the Eight Dimensions of Organizational Climate	..198
4.18 : Mean, S.D. and Significance of Difference Between the Mean Scores of Familiar and Closed Climates as perceived by the Teachers of Secondary Schools with respect to the Eight Dimensions of Organizational Climate	..198
4.19 : Mean, S.D. and Significance of Difference Between the Mean Scores of Paternal and Closed Climates as perceived by the Teachers of Secondary Schools with respect to the Eight Dimensions of Organizational Climate	..199
4.20 : Mean, S.D. and Significance of Difference Between the Mean Scores of Open and Autonomous Climates as perceived by the Principals of Secondary Schools with respect to the Eight Dimensions of Organizational Climate	..201
4.21 : Mean, S.D. and Significance of Difference Between the Mean Scores of Open and Controlled Climates as perceived by the Principals of Secondary Schools with respect to the Eight Dimensions of Organizational Climate	..202
4.22 : Mean, S.D. and Significance of Difference Between the Mean Scores of Open and Familiar Climates as perceived by the Principals of Secondary Schools with respect to the Eight Dimensions of Organizational Climate	..204
4.23 : Mean, S.D. and Significance of Difference Between the Mean Scores of Open and Paternal Climates as perceived by the Principals of Secondary Schools with respect to the Eight Dimensions of Organizational Climate	..204
4.24 : Mean, S.D. and Significance of Difference Between the Mean Scores of Open and Closed Climates as perceived by the Principals of Secondary Schools with respect to the Eight Dimensions of Organizational Climate	..205
4.25 : Mean, S.D. and Significance of Difference Between the Mean Scores of Autonomous and Controlled Climates as perceived by the Principal of Secondary Schools with respect to the Eight Dimensions of Organizational Climate	..206

<u>Table No.</u>	<u>Page</u>
4.26 : Mean, S.D. and Significance of Difference Between the Mean Scores of Autonomous and Familiar Climates as perceived by the Principals of Secondary Schools with respect to the Eight Dimensions of Organizational Climate	..207
4.27 : Mean, S.D. and Significance of Difference Between the Mean Scores of Autonomous and Paternal Climates as perceived by the Principals of Secondary Schools with respect to the Eight Dimensions of Organiza- tional Climate	..208
4.28 : Mean, S.D. and Significance of Difference Between the Mean Scores of Autonomous and Closed Climates as perceived by the Principals of Secondary Schools with respect to the Eight Dimensions of Organizational Climate	..209
4.29 : Mean, S.D. and Significance of Difference Between the Mean Scores of Controlled and Familiar Climates as perceived by the Principals of Secondary Schools with respect to the Eight Dimensions of Organizational Climate	..210
4.30 : Mean, S.D. and Significance of Difference Between the Mean Scores of Controlled and Paternal Climates as perceived by the Principals of Secondary Schools with respect to the Eight Dimensions of Organizational Climate	..210
4.31 : Mean, S.D. and Significance of Difference Between the Mean Scores of Controlled and Closed Climates as perceived by the Principals of Secondary Schools with respect to the Eight Dimensions of Organizational Climate	..211
4.32 : Mean, S.D. and Significance of Difference Between the Mean Scores of Familiar and Paternal Climates as perceived by Principals of Secondary Schools with respect to the Eight Dimensions of Organizational Climate	..212
4.33 : Mean, S.D. and Significance of Difference Between the Mean Scores of Familiar and Closed Climate as perceived by the Principals of Secondary Schools with respect to the Eight Dimensions of Organizational Climate..	213

Table No.	Page
4.34 : Mean, S.D. and Significance of Difference Between the Mean Scores of Paternal and Closed Climates as perceived by the Principals of Secondary Schools with respect to the Eight Dimensions of Organizational Climate	..214
4.35 : Mean Scores of Eight Dimensions of Organizational Climate as perceived by Teachers and Principals according to the Types of Organizational Climate in Madras City	..216
4.36 : Percentage of Schools having the four Different Patterns of Leadership Behaviours as perceived by the Principals (Ideal and Real Self) and Teachers (Ideal and Real Staff) among the Sampled 100 Schools in Madras City and the Perceptual Differences Between Them	..220
4.37 : Mean Scores of the Four Patterns of Leadership Behaviour as perceived by the Teachers (Ideal Staff) and (Real Staff) with respect to the Initiation Structure and Consideration and the Differences Between Them.	..228
4.38 : Mean Scores of the Four Patterns of Leadership Behaviour as perceived by the Principals (Ideal and Real Self) with respect to Initiation Structure and Consideration and the Differences Between Them	..230
4.39 : Mean Scores of the Four Patterns of Leadership Behaviour as perceived by the Principals (Ideal Self and Teacher Ideal Staff with respect to the Initiation Structure and and Consideration and the Differences Between them	..233
4.40 : Mean Scores of the Four Patterns of Leadership Behaviour as perceived by the Principals Real Self and Teachers Real Staff with respect to the Initiation Structure and Consideration and the Differences Between Them	..235
4.41 : Mean Scores of the Four Patterns of Leadership Behaviour as Perceived by the Teachers - Ideal Staff and Principals' - Real Staff with respect to the Initiation Structure and Consideration and the Differences Between Them	..238

Table No.	Page
4.42 : Mean Scores of the Four Patterns of Leadership Behaviour as Perceived by the Principals - Ideal Self and Teachers - Ideal Staff with respect to the Initiation Structure and Consideration and the Differences Between Them	..240
4.43 : Percentage of Schools according to the Four Patterns of Task and Person Oriented Leadership Styles as perceived by the Teachers and Principals in the Schools of Madras City and the Perceptual Differences Between Them	..242
4.44 : Number of Principals according to Low, Moderate and High Levels in the Task and Person Oriented Leadership Styles as perceived by the Principals	..245
4.45 : Range Between the Highest and Lowest Scores as perceived by the Teachers and Principals in the Task and Person Oriented Leadership Styles	..245
4.46 : Mean Scores of the Task and Person Oriented Leadership Styles according to the Perception of Teachers and Principals in the Secondary Schools in Madras City	..247
4.47 : Mean, S.D. and Significance of Difference Between the Mean Scores of Open and Autonomous Climates with respect to the Task and Person Oriented Leadership Styles as perceived by the Principals of Secondary Schools in Madras city	..249
4.48 : Mean, S.D. and Significance of Difference Between the Mean Scores of Open and Controlled Climate Types with respect to the Task and Person Oriented Leadership Styles as perceived by the Principals	..250
4.49 : Mean, S.D. and Significance of Difference Between the Mean Scores of Open and Familiar Climates with respect to the Task and Person Oriented Leadership Styles as perceived by the Principals	..251
4.50 : Mean, S.D. and Significance of Difference Between the Mean Scores of Open and Paternal Climate Types with respect to the Task and Person Oriented Leadership Styles as perceived by the Principals	..252

Table No.	Page
4.51 : Mean, S.D. and Significance of Difference Between the Mean Scores of Open and Closed Climates with respect to the Task and Person Oriented Leadership Styles as perceived by the Principals	..253
4.52 : Mean, S.D. and Significance of Difference Between the Mean Scores of Autonomous and Controlled Climates with respect to the Task and Person Oriented Leadership Styles as perceived by the Principals	..253
4.53 : Mean, S.D. and Significance of Difference Between the Mean Scores of Autonomous and Familiar Climates with respect to the Task and Person Oriented Leadership Styles as perceived by the Principals	..254
4.54 : Mean, S.D. and Significance of Difference Between the Mean Scores of Autonomous and Paternal Climates with respect to Task and Person Oriented Leadership Styles as perceived by the Principals	..255
4.55 : Mean, S.D. and Significance of Difference Between the Mean Scores of Autonomous and Closed Climate with respect to the Task and Person Oriented Leadership Styles as perceived by the Principals	..256
4.56 : Mean, S.D. and Significance of Difference Between the Mean Scores of Controlled and Familiar Climate with respect to Task and Person Oriented Leadership Styles as perceived by the Principals	..257
4.57 : Mean, S.D. and Significance of Difference Between the Mean Scores of Controlled and Paternal Climates with respect to Task and Person Oriented Leadership Styles as perceived by the Principals	..257
4.58 : Mean, S.D. and Significance of Difference Between the Mean Scores of Controlled and Closed Climates with respect to the Task and Person Oriented Leadership Styles as perceived by the Principals	..258
4.59 : Mean, S.D. and Significance of Difference Between the Mean Scores of Familiar and Paternal Climates with respect to Task and Person Oriented Leadership Styles as perceived by the Principals	..259

Table No.	Page
4.60 : Mean, S.D. and Significance of Difference Between the Mean Scores of Familiar and Closed Climates with respect to the Task and Person Oriented Leadership Styles as perceived by the Principals	..260
4.61 : Mean, S.D. and Significance of Difference Between the Mean Scores of Paternal and Closed Climates with respect to the Task and Person Oriented Leadership Styles as perceived by the Principals	..260
4.62 : Mean, S.D. and Significance of Difference Between the Mean Scores of HH and HL Patterns of Leadership Behaviour as perceived by the Principals with respect to Task and Person Oriented Leadership Styles	..264
4.63 : Mean, S.D. and Significance of Difference Between the Mean Scores of HL and LL Patterns of Leadership Behaviour with respect to Task and Person Oriented Leadership Styles	..264
4.64 : Mean Scores of the Six Different Climates with respect to Task and Person Oriented Leadership Styles as perceived by the Teachers of Secondary Schools in Madras city	..266
4.65 : Mean Scores of the Six Climates with respect to the Task and Person Oriented Leadership Styles as perceived by the Principals	..267
4.66 : Mean Scores of Different Climate Types as perceived by the Teachers and Principal and Their Perceptual Differences with respect to Task and Person Oriented Leadership Styles	..268
4.67 : Mean Scores of the Different Patterns of Leader- ship Behaviour with respect to Task and Person Oriented Leadership Styles as perceived by the Teachers of Secondary Schools in Madras City	..270
4.68 : Mean Scores of the Different Patterns of Leadership Behaviour as perceived by the Principals of Secondary Schools with respect to the Task and Person Oriented Leadership Styles	..271
4.69 : Mean Scores of the Different Patterns of Leader- ship Behaviour as perceived by the Teachers and Principals and Their Perceptual Differences with Respect to the Task and Person Oriented Leader- ship Styles	..272
