

## LIST OF FIGURES

FIGURE NO.	TITLE	PAGE
3.1	Conceptual frame work for the study	55
3.2	Causal-comparative component of the research design	70
3.3	Sampling design adopted for the study	73
4.1	Inter regional variations in the personal and household variables of the respondents	117
4.2	Inter regional variations in adoption level of technology	168
4.3	Percentage distribution of total time (24 hours) by rural women	197
4.4	Attitude scores of the respondents according to selected variables	276
5.1	Schematic representation of hypotheses formulated for the study	282
