

C O N T E N T S

<u>CHAPTER</u>	<u>PAGE</u>
I. Introduction	01
II. Introduction to HHOB approximation and the refinement applied to HHOB approximation. Application of refinement to study the elastic scattering of electrons by hydrogen, helium and lithium atom, its calculation, results and discussion.	25
III. Elastic scattering of electrons by neon atom using the HHOB approximation, results and discussion.	123
IV. Two potential formulation in the HHOB approximation and its application to study the elastic scattering of electrons by neon atom. Introduction to partial wave analysis. Method of calculation of phase shifts. Results and discussion.	158
V. Summary and conclusion.	191
Appendix	198
References.	203
