

Page No. 1

2.4.2	Previous work	19
2.4.3	Stratigraphy	30
2.4.3.1	Mesozoic Stratigraphy	30
2.4.3.1.1	Kachchh Mainland	31
2.4.3.1.2	Pachham Island	37
2.4.3.1.3	Eastern Kachchh	39
2.5	STRUCTURE AND TECTONICS	42
2.5.1	Introduction	42
2.5.2	Uplifts and Faults	44
2.5.3	Outline of Structure and Tectonic	44
CHAPTER - 3 - STRATIGRAPHY OF THE STUDY AREA		
3.1	INTRODUCTION	48
3.2	LITHOSTRATIGRAPHY	49
3.2.1	Jhurio Formation	50
3.2.2	Jumara Formation	54
CHAPTER - 4 - DESCRIPTION OF LITHOFACIES		
4.1	INTRODUCTION	59
4.2	LITHOFACIES DESCRIPTION	59
4.2.1	Limestone Lithofacies (LL)	60
4.2.1.1	Badi Limestone Subfacies (BLs)	60
4.2.1.2	Nodular white well bedded Limestone Subfacies (NWWLs)	67
4.2.2	Conglomerate Lithofacies (CL)	71
4.2.3	Calcareous Silty Shale Lithofacies (CSSL)	74
4.2.4	Oolitic Limestone Lithofacies (OLL)	76
4.2.4.1	Golden Oolite Subfacies (GOs)	76
4.2.4.2	Dhosa Oolite Subfacies (DOs)	82
4.2.5	Rippled Marked Calcareous Sandstone Shale Lithofacies (RMCSSL)	88
4.2.6	Greenish Grey Shale Lithofacies (GGSL)	93
CHAPTER - 5 - DESCRIPTION OF TRACE FOSSILS		
5.1	INTRODUCTION	95

5.2	TAXONOMY	97
5.3	DESCRIPTION OF RECURRING TRACE-FOSSILS	99
I	Burrows	99
I.1	Circular and Elliptical Structures – Circles	99
I.2	Circular and Elliptical Structures – Elliptical structure	104
I.3	Simple Structure	106
I.3.1	Vertical form	106
I.3.2	Plug shaped Form	109
I.3.3	U-shaped form	109
I.3.4	Horizontal form	110
I.4	Branched Structures	120
I.4.1	Dichotomously branched forms	120
I.4.2	Y- T shaped forms	125
I.4.3	Bundled forms	133
I.5	Meniscate form	137
I.6	Winding and Meandering structures	145
I.6.1	Meandering structures	145
I.6.2	Plaited Forms	147
I.6.3	Branched winding and meandering structures	150
I.7	Spreiten structure	151
I.7.1	U- Shaped	151
I.8	Radial Structures	166
I.8.1	Radial Forms with Vertical Shafts	166
I.9	Coiled Structures	168

CHAPTER - 6 - ICHNOANALYSIS: TRACE FOSSILS ASSEMBLAGES, ICHNOGUILDS AND FACIES

6.1	INTRODUCTION	170
6.2	ETHOLOGY	170
6.3	ICHNOASSEMBLAGES	176
6.3.1	<i>Protovirgularia</i> – <i>Lockeia</i> – <i>Thalassinoides</i> – <i>Phoebichnus</i> – <i>Cochlichnus</i> - <i>Cosmorhappe</i> assemblage	176
6.3.2	<i>Zoophycos</i> – <i>Chondrites</i> assemblage	177

6.3.3	<i>Rhizocorallium – Pilichnus – Palaeophycus – Planolites – Chondrites - Diplocraterion assemblage</i>	178
6.3.4	<i>Ophiomorpha – Arenicolites - Diplocraterion– Skolithos - Calycraterion – Parahentzscheliana – Margaritichnus - Monocraterion assemblage</i>	178
6.3.5	<i>Thalassinoides – Taenidium – keckia assemblage</i>	179
6.3.6	<i>Palaeophycus – Thalassinoides - Planolites – Phycodes assemblage</i>	180
6.4	ICHTHOGUILD	181
6.4.1	<i>Arenicolites</i> Ichnoguild	181
6.4.2	<i>Calycraterion</i> Ichnoguild	182
6.4.3	<i>Chondrites</i> Ichnoguild	182
6.4.4	<i>Diplocraterion</i> Ichnoguild	183
6.4.5	<i>Gyrochorte</i> Ichnoguild	184
6.4.6	<i>Keckia</i> Ichnoguild	185
6.4.7	<i>Margaritichnus</i> Ichnoguild	185
6.4.8	<i>Ophiomorpha</i> Ichnoguild	185
6.4.9	<i>Palaeophycus</i> Ichnoguild	186
6.4.10	<i>Parahentzscheliana</i> Ichnoguild	187
6.4.11	<i>Phoebichnus</i> Ichnoguild	187
6.4.12	<i>Planolites</i> Ichnoguild	188
6.4.13	<i>Protovirgularia</i> Ichnoguild	188
6.4.14	<i>Rhizocorallium</i> Ichnoguild	188
6.4.15	<i>Skolithos</i> Ichnoguild	189
6.4.16	<i>Taenidium</i> Ichnoguild	190
6.4.17	<i>Thalassinoides</i> Ichnoguild	190
6.4.18	<i>Zoophycos</i> Ichnoguild	191
6.5	ICHTHOFACIES	192
6.5.1	<i>Skolithos</i> Ichnofacies	194
6.5.2	<i>Cruziana</i> Ichnofacies	195
6.5.3	<i>Zoophycos</i> Ichnofacies	197

CHAPTER - 7 - SIGNIFICANCE OF TRACE-FOSSILS AND SEDIMENTARY CYCLES TO SEQUENCE STRATIGRAPHY

7.1	SEQUENCE STRATIGRAPHY: BACKGROUND INFORMATION	202
7.1.1	Definition of 'Sequence' and 'Sequence Stratigraphy'	207
7.1.2	Parasequences	207
7.1.3	Genetic types of deposits (system tracts)	207
7.1.3.1	Normal regression (NR)	208
7.1.3.2	Forced regression (FR)	208
7.1.3.3	Transgression	208
7.1.3.4	Lowstand System Tract (LST)	208
7.1.3.5	Transgressive System Tract (TST)	209
7.1.3.6	Highstand System Tract (HST)	209
7.1.3.7	Type 2 sequence	209
7.1.4	Sequence stratigraphic surfaces	210
7.1.4.1	Subaerial unconformity (SU)	210
7.1.4.2	Correlative conformity (CC)	210
7.1.4.3	Regressive surface of marine erosion	211
7.1.4.4	Maximum regressive surface (MRS)	211
7.1.4.5	Maximum flooding surface (MFS)	212
7.1.4.6	Transgressive ravinement surfaces	212
7.2	TRACE FOSSILS AND SEDIMENTARY CYCLES TO SEQUENCE STRATIGRAPHY	212
7.3	SEQUENCE STRATIGRAPHIC SURFACES OF THE STUDY AREA	213
7.3.1	Drowning unconformity	213
7.3.2	Correlative Conformity	214
7.3.3	Transgressive Surface	216
7.3.4	Regressive Surface	216
7.3.5	Flooding Surface or Transgressive ravinement surface	217
7.3.6	Maximum Regressive Surface	217
7.3.7	Transgressive Lag Deposits	218
7.3.8	Maximum Flooding Surface	218
7.4	POTENTIAL SEQUENCE BOUNDARIES	219
7.5	SYSTEM TRACTS	219

7.5.1	Transgressive System Tracts	220
7.5.2	Highstand System Tracts	222
CHAPTER - 8 - DEPOSITIONAL MODEL OF THE STUDY AREA		
8.1	INTRODUCTION	224
8.2	FACIES ASSOCIATION AND DIFFERENT DEPOSITIONAL ENVIRONMENTS	224
8.2.1	Shelfal below SWWB	226
8.2.2	Transition to Lower Shoreface	227
8.2.3	Upper Offshore to Lower Offshore	228
8.2.4	Lower Shoreface above FWWB	230
8.2.5	Lower Offshore to Shelf	230
8.2.6	Lower Shoreface to Middle Shoreface	231
8.2.7	Upper Offshore	232
8.3	ICHNO-SEDIMENTOLOGICAL MODEL	232
	CONCLUSIONS	238
	REFERENCES	241
