

List of Figures

Figure No.	Title	Page No.
1.1	Overview of components of Runoff	4
1.2	Shape of Catchment	6
3.1	Location Map of Vadodara City	31
3.2	Population Growth in study area	32
3.3	Annual Rainfall in the study area	33
3.4	Maximum Daily Rainfall from 1961 – 2018	34
3.5	Various Landsat launched in different years	35
4.1	Collection of Landsat Satellite Images by NASA/USDA	38
4.2	Flowchart for LULC detection	39
4.3	Number of bands in satellite image of a particular year	41
4.4	Layer Stacking of the satellite image	42
4.5	Study Area extraction of the Satellite Image	42
5.1	LULC for Vadodara City in 1977	66
5.2	LULC for Vadodara City in 1988	67
5.3	LULC for Vadodara City in 1993	68
5.4	LULC for Vadodara City in 1998	69
5.5	LULC for Vadodara City in 2003	70
5.6	LULC for Vadodara City in 2008	71
5.7	LULC for Vadodara City in 2013	72
5.8	LULC for Vadodara City in 2018	73
5.9	Pie chart showing distribution of classified area in different study years.	75
5.10	Decadal Change in Waterbodies	76
5.11	Decadal Change in Urban Settlement	77
5.12	Decadal Change in Natural Vegetation	77
5.13	Decadal Change in Agricultural Land	78
5.14	Decadal Change in Barren Land	78
5.15	Decadal Change in Urban Settlement and Population	79
5.16	LULC classes of study years	79
5.17	Spatio Temporal Analysis of LULC maps of Vadodara City	81
5.18	Pie Charts showing Percentage Distribution of LULC Areas of the Intermediate Years with Decades	84
5.19	Spatio Temporal Distribution of Urban Settlement in Vadodara City	90
5.19 (a)	Ward-wise growth of Vadodara City	90(b)
5.20	Annual Rainfall over Vadodara city	92
5.21	Southwest Monsoon Rainfall over Vadodara City	93
5.22	Test Z value for Vadodara	94

5.23	Percentage of Annual Rainfall in Monsoon Season	95
5.24	Decadal Average Annual Rainfall.	96
5.25	Rainfall Variability over the years 1961-2018	96
5.26	Decadal Change in Weighted CN for the study years.	101
5.27	Annual One Day Maximum Rainfall – Runoff [1977 – 2018]	101
5.28	Annual One Day Maximum Rainfall – Runoff [1977 – 1987]	102
5.29	Annual One Day Maximum Rainfall – Runoff [1988 – 1997]	102
5.30	Annual One Day Maximum Rainfall – Runoff [1998 – 2007]	103
5.31	Annual One Day Maximum Rainfall – Runoff [2008 – 2018]	103
5.32	Changes Decadal Total Rainfall and Runoff	104
5.33	Changes in Average Decadal Rainfall and Runoff	105
5.34	Changes in Runoff of different years with Base year 1977	107
5.35	Changes in Runoff of different years with Base Year 1988	108
5.36	Changes in Runoff of different years with Base Year 1998	109
5.37	Daily Runoff values for study years, Base Year 1977	110
5.38	Daily Runoff values for study years, Base Year 1988	112
5.39	Daily Runoff values for study years, Base Year 1998	113
5.40	Daily Runoff values for study years, Base Year 2008	114
5.41	Daily Runoff values for study years, Base Year 2018	115
5.42	Intensity Duration Frequency Curve by GEV Distribution	116
5.43	Rainfall Intensity Duration Frequency (IDF) curves using empirical equations	117
5.44	Intensity Duration Frequency Curve for Runoff	119
5.45	Different models obtained for Total Area Estimation	121
5.46	Graphs of prediction of Total Area by various models	122
5.47	Different models obtained for estimation of Waterbodies	123
5.48	Graphs for prediction of Waterbodies by various models	124
5.49	Different models obtained for estimation of Natural Vegetation	125
5.50	Graphs of prediction of Natural Vegetation by various models	127
5.51	Different models obtained for estimation of Urban Settlement	128
5.52	Graphs of prediction of Urban Settlement by various models	129
