

LIST OF FIGURES

Figure No.	After Page
1.1 Location map of study area.	5
1.2 Physiographic and drainage map of study area.	6
1.3 Annual isohyet map of India (After Pant and Maleikal, 1987).	9
1.4 Communication map.	11
3.1 Geomorphic map of study area.	32
3.2 Geological map of study area.	33
3.3 Physiographic divisions of study area.	33
3.4 Drainage network of study area.	40
3.5 Paleodrainage map	43
4.1 Composite exposed Quaternary succession of the study area.	51
4.2 Schematic depositional model of Quaternary sediments in Sabarmati basin.	51
4.3 Schematic cross section of exposed Quaternary sediments in Sabarmati valley.	52
4.4 Distribution of gravels within the Sabarmati basin. (After Sridhar and Chamyal, 1995).	54
4.5 Location of exposed sections and bore hole sites.	62

5.1	Tectonic trend map of western India (After Biswas, 1987).	82
5.2	Basinal cross sections.	82
5.3	Tectonic map of Cambay Basin (After O.N.G.C.)	83
5.4	Geological cross sections across Cambay Basin (After Rao, 1987).	84
5.5	Lineament map of study area.	86
5.6	Schematic cross section showing tilting of fault bound blocks from Nal Sarovar to Sanchor.	91
6.1	Plots of standard deviation versus skewness and mean size.	100
7.1	Variation of selected elements in the soils.	111
8.1	Climatic curves (Middle Pleistocene to Recent).	122
