

TABLE OF CONTENTS.

CHAPTER.		PAGE.
I.	INTRODUCTION.	1
	Definition of terms. Controversial findings & issues. The sociological point of view on sex role Development.	
II.	HYPOTHESIS	27
	Theories of sex-role development. Role learning through modeling. Role learning through cognitive concept development. Role learning through interaction.	
III.	REVIEW OF LITERATURE.	43
IV.	METHOD AND PROCEDURE.	98
	Research Design. Pilot Project. Design of the present study - IT Scale. Draw-a-man test. Vocabulary items from Stanford Binet test of intelligence. Scoring: IT Scale Procedure. Scoring: Vocabulary Test Statistical analysis.	
V.	RESULTS.	123
	Differences between the performances of the sexes on the ITSC.	
	Differences in performances of children from the three socio-economic classes.	
	Differences in performances of children from the three socio-economic classes on vocabulary test.	
	Differences in performances of children from the 3 socio-economic classes on Draw-a-man test.	

CHAPTER.

PAGE.

VI. DISCUSSION.

161

1. Sex role identification in boys and girls, on ITSC.
2. Sex-role identification of boys and girls from three socio-economic levels and their performance on -
(a) Vocabulary test -
(b) Draw-a-man test.
3. Sex-role identification differences for boys and girls from three different socio-economic levels.

VII. IMPLICATIONS OF THIS RESEARCH STUDY.

185

Theoretical implications.
Implications for parents.
Implications for future research.

VIII. SUMMARY.

193

BIBLIOGRAPHY.

198

APPENDICES -

Appendix I. IT Scale.

213
214

Appendix II. Scoring sheets for the instruments used in this study.

219

Appendix III. Statistical processing.
