

ACKNOWLEDGEMENT

Words fail to acknowledge the inspiring guidance and invaluable contribution received from the late Dr. R.N. Ram, Reader chemistry department, faculty of science, M.S. University of Baroda for the present endeavor. I am greatly indebted to him for introducing me to this interesting field of catalysis. I take this opportunity to express my deep sense of gratitude for simulative instruction, constructive criticism and continuous encouragement received from him throughout the course of this work.

Dr. R.N. Ram was a composite and resourceful personality with deep knowledge of chemistry. He was polite, co-operative and helpful. The untimely and sudden death of Dr. R.N. Ram had created lull in my project. I pray almighty to rest his soul in peace.

I am indebted to Prof. A. K. Rakshit, head, chemistry department, M. S. University of Baroda for providing suggestions and encouragement. He took deep interest and ample support to submit my thesis.

I am greatly thankful to Prof P. K. Bhattacharya for the suggestions and encouragement received from him. I am greatly thankful to Dr. B. V. Kamath for the fruitful discussion. I am grateful to Dr. Neelima Kulkarni for helpful discussion and guidance. I am thankful to Dr. S. S. Madhavrao for encouragement and elemental analysis. I am thankful to Mr. H. R. Raval for TGA, UV-Visible spectra.

I am thankful to Prof. M. R. Yadav of pharmacy department, at M.S. University of Baroda for I.R. spectra. I am thankful to Dr. A. L. Tambe and Mr. Robin Anthony of IPCL, Baroda for providing facilities like FTIR and surface area.

I am personally thankful to my colleagues Dr. Mahesh K. Dalal, Dr. Dilip Patel, Vaibhav Balotkar, Hemant Soni, teaching staff and non-teaching staff and research students of chemistry department for their ample support and co-operation.

Finally, I am at a loss of words to express my humble heartfelt thanks and obligation to my parents, sister, wife and son for their encouragement, understanding and support.

KAMLESH B. GAULI
