

## List of Tables

5.1 $\gamma$ transition energy ( $E_\gamma$ ) in keV, excitation energy ( $E_x$ ) in keV, relative $\gamma$ -ray intensities ( $I_\gamma$ ), Multipolarity, initial and final spins for the transitions belonging to $^{36}\text{Cl}$ .....	106
5.2 List of contaminants observed in the given spectra from various neighbouring nuclei.....	108
5.3 Table presents a qualitative comparison of present polarization ( $\Delta_{IPDCO}$ ) values to that of the ones reported by Toulemonde <i>et al.</i> [39].....	119
5.4 $\gamma$ transition energy ( $E_\gamma$ ) in keV, excitation energy ( $E_x$ ) in keV, DCO ratios ( $R_{DCO}$ ), IPDCO ratios ( $\Delta_{IPDCO}$ ), relative $\gamma$ -ray intensities ( $I_\gamma$ ), Multipolarity, initial and final spins for the transitions belonging to $^{54}\text{Mn}$ .....	121
6.1. $\gamma$ transition energy ( $E_\gamma$ ) in keV, excitation energy ( $E_x$ ) in keV, DCO ratios ( $R_{DCO}$ ), IPDCO ratios ( $\Delta_{IPDCO}$ ), Multipolarity, initial and final spins for the transitions belonging to $^{195}\text{Tl}$ .....	142
