

LIST OF TABLES

<u>Table</u>		<u>Page</u>
Table 3.1	Basin-wise Surface Water Resource Potential of India in km ³	066
Table 3.2	India's Projected Water Requirement for Irrigation in Year 2050	068
Table 3.3	Projected Water Requirement (in Km ³) for Domestic and Municipal Use	068
Table 3.4	Basin-wise Storage Capacity Created and Under Construction	073
Table 3.5	Projects Taken-up and Completed During Eight five-year-plan Periods	105
Table 3.6	Impact of Price Escalation on the Final Project Cost	107
Table 3.7	Impact of Construction Delays on the Final Project Cost	109
Table 3.8	Plan-wise Expenditure on Irrigation as Percentage of All Sectors	110
Table 3.9	Impact of Funding Gap on the Balance Project Cost	111
Table 3.10	Pressure of Population Growth on Land	122
Table 3.11	Waterlogged and Salt-affected Areas	123
Table 3.12	Identified Sources of Water for Major Cities	124
Table 3.13	Blocks With Over Exploitation of Groundwater	124
Table 3.14	Dynamics of India's Population Growth	125
Table 4.1	Investment (Rs. Crore) on Water Resource Projects	135
Table 4.2	The Surface and Ground Water Irrigation Development in India	141
Table 4.3	Development of Drinking Water and Sanitation Facilities	142
Table 4.4	Indian Population Below Poverty line	158
Table 4.5	Development of Irrigation Potential (Cumulative) During Plan Periods	158
Table 4.6	India's Groundwater Resource Development	159
Table 5.1	Apportionment of Narmada Water Amongst Party States	168
Table 5.2	Construction Components of the Sardar Sarovar Project	170
Table 5.3	Salient Features of Sardar Sarovar Dam	171
Table 5.4	State-wise Details of Land (in Hectares) Submerged by SSP	171
Table 5.5	Villages, Families and Population Affected by Project Submergence	180
Table 5.6	Contentions of Madhya Pradesh and the Decisions of NWDT	183
Table 5.7	NCA's Action Plan for R&R Works and Dam Construction	188
Table 5.8	Estimated Costs of SSP at Different Price Levels	191
Table 5.9	Allocation of Sharable Common expenditure (Group-V)	192
Table 5.10	Percentage Allocation of Expenditures to Party States	193
Table 5.11	Disputed and Undisputed Project Expenditures till June 2003	196
Table 5.12	Share-cost Position on Undisputed Booked Expenditures till June 2003	197
Table 5.13	Increase in the Dam and Powerhouse Costs	199
Table 5.14	District-wise Detail of Cultivable Command Area	214
Table 5.15	Urban and Rural Areas Covered Under Drinking Water Schemes	217
Table 5.16	Estimated Cost of Power Project at 2000-2001 Price Level	219
Table 5.17	Financial Indicators of the Power Project	219
Table 5.18	Categories of Project Affected Families	223
Table 5.19	Caste-wise Categories of Project Affected Population	223
Table 6.1	Population and Per-capita Water Availability	310
