

LIST OF TABLES

S.No.	Contents	Page No
1.	Working Parameters Selected for Atomic Absorption Spectrophotometric Studies	54
2.	Protocol for Effects on Normal Serum Parameters	59
3.	Protocol for Determination of SGPT and SGOT	61
4.	Calibration curve for SGPT and SGOT	62
5.	Protocol for Estimation of TBil and DBil	64
6.	Calibration Curve for Ascorbic Acid	66
7.	Calibration Curve for Cholesterol	67
8.	Protocol for CCl ₄ Induced Hepatotoxicity	69
9.	Protocol for Paracetamol Induced Hepatotoxicity	70
10.	Protocol for Rifampicin Induced Hepatotoxicity	71
11.	Composition of Calcium-free HEPES Buffer	78
12.	Protocol for <u>In vitro</u> Hepatoprotective Activity Testing	81
13.	Calibration Curve for Total Proteins	84
14.	Proximate Analysis of Selected Plant Drugs	95
15.	Estimation of Different Inorganic Metal Ions Present in Selected Plant Drugs	97
16.	Preliminary Phytochemical Screening of Selected Plant Drugs	100
17.	Thin Layer Chromatographic Pattern of Different Extracts of Selected Plant Drugs	103

18.	Effect of <u>C. orchiodes</u> Rhizomes on Carrageenan Induced Paw Oedema	109
19.	Effect of <u>F. indica</u> Whole Plant on Carrageenan Induced Paw Oedema	111
20.	Effect of <u>I. racemosa</u> Roots on Carrageenan Induced Paw Oedema.	113
21.	Effect of Different Organs of <u>M. pterygosperma</u> Carrageenan Induced Paw Oedema	115
22.	Effect of Different Organs of Various Species of <u>Sida</u> on Carrageenan Induced Paw Oedema	117
23.	Effect of <u>C. orchiodes</u> Rhizomes on Normal Hepatic Functions.	119
24.	Effect of <u>F. indica</u> whole plant on Normal Hepatic Functions.	120
25.	Effect of <u>I. racemosa</u> Roots on Normal Hepatic Functions.	121
26.	Effect of Different Organs of <u>M. pterygosperma</u> on Normal Hepatic Functions	122
27.	Effect of Different Organs of various species of <u>Sida</u> on Normal Hepatic Functions	123
28.	Effect of <u>C. orchiodes</u> Rhizomes on CCl ₄ Induced Hepatotoxicity	127
29.	Effect of <u>F. indica</u> Whole Plant on CCl ₄ Induced Hepatotoxicity	129
30.	Effect of <u>I. racemosa</u> Roots on CCl ₄ Induced Hepatotoxicity	131
31.	Effect of Different Organs of <u>M. pterygosperma</u>	133

	on CCl ₄ Induced Hepatotoxicity	
32.	Effect of Different Organs of Various Species of <u>Sida</u> on CCl ₄ Induced Hepatotoxicity	136
33.	Effect of <u>C. orchoides</u> Rhizomes on Paracetamol Induced Hepatotoxicity	141
34.	Effect of <u>F. indica</u> Whole Plant on Paracetamol Induced Hepatotoxicity	143
35.	Effect of <u>I. racemosa</u> Roots on Paracetamol Induced Hepatotoxicity	145
36.	Effect of Different Organs of <u>M. pterygosperma</u> on Paracetamol Induced Hepatotoxicity	147
37.	Effect of Different Organs of Various Species of <u>Sida</u> on Paracetamol Induced Hepatotoxicity	150
38.	Effect of <u>C. orchoides</u> Rhizomes on Rifampicin Induced Hepatotoxicity	154
39.	Effect of <u>F. indica</u> Whole Plant on Rifampicin Induced Hepatotoxicity	156
40.	Effect of <u>I. racemosa</u> Roots on Rifampicin Induced Hepatotoxicity	158
41.	Effect of Different Organs of <u>M. pterygosperma</u> on Rifampicin Induced Hepatotoxicity	160
42.	Effect of Different Organs of Various species of <u>Sida</u> on Rifampicin Induced Hepatotoxicity	162
43.	Comparative Account of the Extracts of the Selected Plant Durgs with Maximum Biological Activities	164
44.	Effect of Different Isolated Compounds on	178

	viability of Normal Isolated Rat Hepatocytes	
45.	Effect of Different Isolated Compounds on Viability of Galactosamine Induced Hepatic cytotoxicity	180
46.	Effect of Different Isolated Compounds on Viability of Thioacetamide Induced Hepatic Cytotoxicity	182
47.	Effect of Different Isolated Compounds on Normal And Intoxicated Hepatic Functions	185
48.	Effect of Different Isolated Compounds on Carrageenan Induced Paw Oedema.	187
49.	Effect of Different Marketed Preparations of the Selected Plant Drugs on Normal Hepatic Functions.	190
50.	Effect of Different Marketed Preparations of the Selected Plant Drugs on CCl ₄ Induced Hepatotoxicity.	191
51.	Effect of Different Marketed Preparations of the Selected Plant Drugs on Paracetamol Induced Hepato-toxicity	193
52.	Effect of Different Marketed Preparations of the Selected Plant Drugs on Rifampicin Induced Induced Hepatotoxicity	195 195
53.	Effect of Different Marketed Preparations of the Selected Plant Drugs on Carrageenan Induced Paw Oedema.	197
