

TABLES LIST

CHAPTER I

Table 1.1	World Primary Energy Consumption	4
Table 1.2	Per Capita Energy Consumption in 1992	5
Table 1.3	Consumption of Petroleum in 1992	6

CHAPTER II

Table 2.1	India's Ranking in the World	21
Table 2.2	Major Economic Profile of India 1950-51 to 1994-95	22
Table 2.3	GDP and it's Sectoral Composition	24
Table 2.4	Estimated Primary Energy Reserves	28
Table 2.5	Energy Balance Table for the Year 1994-95	30
Table 2.6	Trends in Energy Production in India 1950-51 to 1994-95	32
Table 2.7	Percentage Share of Different Commercial Fuels in Final Energy Consumption	38
Table 2.8	Sales/Consumption (in a thousand tones) of Petroleum Products : 1970-71 to 1994-95	39
Table 2.9	Percentage Shares in Final Energy Consumption by Different Sectors	40
Table 2.10	Elasticities of Consumption of Commercial Energy with Reference to GDP	45

CHAPTER IV

Table 4.1	Input-Output Transactions Matrix	89
-----------	----------------------------------	----

CHAPTER V

5.1	Input-Output Coefficients in the Indian Economy (1989-90)	100
5.2	Sectoral Energy coefficients by Types of Fuel	109
5.3	Energy use Corresponding to Final Demand Categories 1989-90 (MTOE)	116
5.4	Intensity of Energy as inputs in Various Industries (1984-85=100)	120

CHAPTER VI

6.1	Sectorwise and Total Gross Output Under Different Scenarios (Rs.million at 1989-90 prices)	131
6.2	Sectorwise Energy Requirement for Different Scenarios (Rs.million at 1989-90 prices)	134

6.3A	Fuelwise Energy Forecast for Different Sectors for 2005 Low (MTOE)	135
6.3B	Fuelwise Energy Forecast for Different Sectors for 2005 Normal (MTOE)	136
6.3C	Fuelwise Energy Forecast for Different Sectors for 2005 High (MTOE)	137
6.3D	Fuelwise Energy Forecast for Different Sectors for 2010 Low (MTOE)	138
6.3E	Fuelwise Energy Forecast for Different Sectors for 2010 Normal (MTOE)	139
6.3F	Fuelwise Energy Forecast for Different Sectors for 2010 High (MTOE)	140
6.4	Total Energy Forecast Fuelwise for Different Scenarios (Economy) (MTOE)	141
6.5	Total Energy Forecast for Aggregate Sectors for Different Scenarios (MTOE)	142
6.6	Estimated Gross Output for Different Scenarios by Industrial Group (L-P approach)	143

APPENDIX

Appendix I	Technology Matrix
Appendix II	Conversion Factors for Various Energy fuels to Mtoe
Appendix III	Common Units of Heat Content for Various Energy Sources
Appendix IV	Energy Related Data for India 1954-1994
