

LIST OF FIGURES

Figure No.	Title	Page No.
1.1	Skin cancer and skin of colour	5
2.1	Electromagnetic spectrum	23
2.2	Types of ultraviolet radiation	23
2.3	India UV-index on 22 Aug 2009	25
2.4	Various factors that affect the ultraviolet radiation	26
2.5	Depletion of Ozone Layer	28
2.6	Cross section of a piece of skin	28
2.7	The depth of penetration of the skin by UV radiation of different wavelengths	30
2.8	Process of light transmission through fabric	34
2.9	Leaves of Acacia Catechu (<i>katha</i>)	41
2.10	Contact angles of a liquid on a solid surface.	44
2.11	Soiling in hydrophobic textiles	45
2.12	Relation of soiling to moisture regain of various natural and synthetic fibres	46
2.13	Mechanism for particulate soil	51
2.14	In vivo 'on skin' test with collimated ultraviolet (UV) radiation	61
2.15	In vivo 'off skin' test with collimated ultraviolet (UV) radiation	62
3.1	Structure of Catechin	101
3.2	Incident UV Light on Textile Material	115
3.3	Schematic diagram of fabricated Instrument for testing percent UVR transmission	115
