## · CONTENTS

		Page No.
1.	Introduction.	1 - 24
2.	Equilibrium studies of cinchona	
	alkaloid sulfates with sulfonic	
	acid resins in different ionic forms.	25 <b>- 5</b> 1
3•	Ultraviolet absorption studies	
	of cinchona alkaloids.	<b>52 -</b> 84
4•	Studies on the uptake of circhona	
	alkaloid bases by sulfonic acid	
	cation exchange resins from	
	aliphatic alcohols.	85 -106
5.	Column studies with quinidire and	
	cinchonine sulfates.	107 -136
6.	Extraction of the alkaloids from	
	cinchona febrifuge and totaquina.	137 -150
7•	Column studies of quinidine and	
	cinchonine with carboxylic acid	
	cation exchange resin.	151 <b>-</b> 154
8.	Summary.	<b>155 -15</b> 9
