

## C O N T E N T S

	<u>Page</u>
General Introduction                    ...                    .	1
<u>Chapter I</u>	
Bromination of some alkyl coumarins with N-bromosuccinimide	
Theoretical                                ...                    .	25
Experimental                              ...                    .	52
<u>Chapter II</u>	
Chloromethylation of some alkyl coumarins	
Theoretical                                ...                    .	72
Experimental                              ...                    .	88
<u>Chapter III</u>	
Synthesis of some furocoumarins and some coumarino- $\alpha$ - and - $\gamma$ -pyrones	
Theoretical                                ...                    .	99
Experimental                              ...                    .	135
<u>Appendix I</u>	
Cyanoethylation of some xylenols	
Theoretical                                ...                    .	146
Experimental                              ...                    .	152
<u>Summary</u> ...                    .	156
