

## LIST OF FIGURES

<u>FIGURE</u>	<u>PAGE</u>
1. Influence of varying finishes in fabrics on transfer printing ability of dye I for different fabrics .. .. .	111
2. Influence of varying synthetic polymer emulsions in paste on the transfer printing ability of dye I for different fabrics .. .. .	116
3. Influence of finish (Acrylic) on fabric and varying synthetic polymer emulsions in paste on transfer printing ability of dye I for different fabrics .. .. .	115
4. Influence of finish (P V Acetate) on fabric and varying synthetic polymer emulsions in paste on transfer printing ability of dye I for different fabrics .. .. .	127
5. Influence of finish (P V Alcohol) on fabric and varying synthetic polymer emulsions in paste on transfer printing ability of dye I for different fabrics .. .. .	133
6. Durability of the transfer printed samples to mild soap washing fir dye I .. .. .	136
7. Influence of varying finishes in fabrics on transfer printing ability of dye II for different fabrics .. .. .	140
8. Influence of varying synthetic polymer emulsions in paste on the transfer printing ability of dye II for different fabrics .. .. .	143
9. Influence of finish (Acrylic) on fabric and varying synthetic polymer emulsions in paste on transfer printing ability of dye II for different fabrics .. .. .	150
10. Influence of finish (P V Acetate) on fabrics and varying synthetic polymer emulsions in paste on transfer printing ability of dye II for different fabrics .. .. .	153
11. Influence of finish (P V Alcohol) on fabrics and varying synthetic polymer emulsions in paste on transfer printing ability of dye II for different fabrics .. .. .	159

<u>FIGURE</u>		<u>PAGE</u>
12.	Durability of the transfer printed samples to mild soap washing for dye II ..	..... 162
13.	Influence of varying finishes in fabrics on transfer printing ability of dye III for different fabrics ..	..... 165
14.	Influence of varying synthetic polymer emulsion on paste on the transfer printing ability of dye III for different fabrics ..	..... 168
15.	Influence of finish (Acrylic) on fabric and varying synthetic polymer emulsions in paste on transfer printing ability of dye III for different fabrics ..	..... 175
16.	Influence of finish (P V acetate) on fabrics and varying synthetic polymer emulsions in paste on transfer printing ability of dye III for different fabrics ..	..... 177
17.	Influence of finish (P V alcohol) on fabrics and varying synthetic polymer emulsions in paste on transfer printing ability of dye III for different fabrics ..	..... 183
18.	Durability of the transfer printed samples to mild soap washing for dye III ..	..... 186
