

ACKNOWLEDGEMENTS

We live in deeds and thoughts, not years,
He most lives,
Who thinks most, feels the noblest, acts the best.

- Most apt it is of Dr.N.H.Shah, Reader in Chemistry, when I recapitulate my pleasant memories having worked under his supervision. His marvellous revelations in colourful organic chemistry and valuable guidance remain evergreen in my heart.

I deem it an honour to give expression to my sense of gratitude to Prof.S.M.Sethna, Pro-Vice Chancellor, M.S.University of Baroda and Dr.Y.K.Agrawal, Reader in Analytical Chemistry, Pharmacy Department, for their sustained interest in the execution of this work and for their invaluable criticism, advice and constant encouragement at every stage.

I express my thanks to Prof.S.M.Sen, Dean, Faculty of Technology and Engineering and Prof.A.M. Talati, Head, Applied Chemistry Department, for providing the necessary facilities and Dr.J.M.Lohar, Reader in Chemistry, for taking keen interest in my work.

I am grateful to Prof.K.N.Trivedi, Head, Chemistry Department for the generous provision of UV and IR spectrophotometers.

I consider it a duty to inscribe my gratitude to my colleagues, Mr.B.K.Patel and Mr.N.D.Jadav for their valuable suggestions and very stimulating and useful discussions.

I am indebted to University Grants Commission for award of research fellowship.

Finally I thank all my fellow workers and members of the staff for their kind cooperation and help they have willingly rendered from time to time.

C. B. Upasani
