

ACKNOWLEDGEMENTS

It is with a profound sense of indebtedness that I wish to express my sense of gratitude to Prof.K.N.Trivedi, who not only suggested the problem but also provided meticulous and ever inspiring guidance at every stage of this endeavour.

It is my pleasant duty to express my grateful and sincere thanks to Dr.F.M.Dean, Department of Organic Chemistry, Robert Robinson Laboratories, University of Liverpool, Liverpool, England, for NMR and Mass Spectra of majority of the compounds, and also for the helpful suggestions and comments.

Thanks are due to Prof.P.K.Bhattacharya, Head of the Chemistry Department, M.S.University of Baroda, for providing facilities.

Thanks are also due to Dr.R.T.Pardasani, Department of Chemistry, University of Manchester for Mass Spectra.

The Author is also indebted to Dr.S.S.Lele, Reader in Analytical Chemistry and Shri S.S.Madhava Rao of this department for the micro analysis of the compounds.

I thank the University Grants Commission, New Delhi for the award of a Junior Research Fellowship.

I thank all my fellow-workers and members of the staff for their kind co-operation and help during the course of this work.

G.N.PATEL
