

LIST OF FIGURES

FIG. NO.	TITLE	PAGE NO.
1.1	The univalent reduction of oxygen	4
1.2	Relation among initiation, propagation and termination reactions in CCl ₄ -induced lipid peroxidation.	47
4.1.	Scavenger effect of methanolic extract of DHC-1 (0.1, 0.2, 0.4, 0.6, 0.8 and 1.0 mg/ml) on the stable DPPH radical.	155
4.2.	Scavenger effect of methanolic extract of Activit (0.1, 0.2, 0.4, 0.6, 0.8 and 1.0 mg/ml) on the stable DPPH radical.	155
4.3.	Scavenger effect of methanolic extract of Pepticare (0.1, 0.2, 0.4, 0.6, 0.8 and 1.0 mg/ml) on the stable DPPH radical.	157
4.4.	Scavenger effect of methanolic extract of Normacid (0.5, 1.0, 2.0, 3.0 and 4.0 mg/ml) on the stable DPPH radical.	157
4.5.	Scavenger effect of methanolic extract of DHC-1 (0.1, 0.2, 0.4, 0.6, 0.8 and 1.0 mg/ml) on superoxide production generated in riboflavin-light-NBT system.	160
4.6.	Scavenger effect of methanolic extract of Activit (0.1, 0.2, 0.4, 0.6, 0.8 and 1.0 mg/ml) on superoxide production generated in riboflavin-light-NBT system.	160
4.7.	Scavenger effect of methanolic extract of Pepticare (0.25, 0.50, 0.75, 1.0, 1.25 and 1.50 mg/ml) on superoxide production generated in riboflavin-light-NBT system.	162
4.8	Scavenger effect of methanolic extract of Normacid (0.5, 1.0, 2.0, 3.0, 4.0 and 5.0 mg/ml) on superoxide production generated in riboflavin-light-NBT system.	162
4.9.	Effect of DHC-1 on the ulcer index and total acidity of gastric fluid of pylorus-ligated rats.	168
4.10.	Effect of DHC-1 on the volume and pH of gastric fluid of pylorus-ligated rats.	168
4.11.	Effect of Activit on the ulcer index and total acidity of gastric fluid of pylorus-ligated rats.	170
4.12.	Effect of Activit on the volume and pH of gastric fluid of pylorus-ligated rats.	170
4.13	Effect of Pepticare on the ulcer index and total acidity of gastric fluid of pylorus-ligated rats.	172
4.14	Effect of Pepticare on the volume and pH of gastric fluid of pylorus-ligated rats.	172
4.15	Effect of Normacid on the ulcer index and total acidity of gastric fluid of pylorus-ligated rats.	174

4.16	Effect of Normacid on the volume and pH of gastric fluid of pylorus-ligated rats.	174
4.17	Photographs showing effect of DHC-1 on the stomach of pylorus-ligated rats.	176
4.18	Photographs showing effect of Activit on the stomach of pylorus-ligated rats.	178
4.19	Photographs showing effect of Pepticare on the stomach of pylorus-ligated rats.	180
4.20	Photographs showing effect of Normacid on the stomach of pylorus-ligated rats.	182
4.21	Effect of DHC-1 on the ulcer index of ethanol-treated rats.	197
4.22	Effect of Activit on the ulcer index of ethanol-treated rats.	197
4.23	Effect of Pepticare on the ulcer index of ethanol-treated rats.	199
4.24	Effect of Normacid on the ulcer index of ethanol-treated rats.	199
4.25	Photographs showing effect of DHC-1 on the stomach of ethanol-treated rats.	201
4.26	Photographs showing effect of Activit on the stomach of ethanol-treated rats.	203
4.27	Photographs showing effect of Pepticare on the stomach of ethanol-treated rats.	205
4.28	Photographs showing effect of Normacid on the stomach of ethanol-treated rats.	207
4.29	Effect of DHC-1 on the serum levels of creatine kinase (CK) and Lactate dehydrogenase (LDH) in isoproterenol-induced myocardial infarction in rats.	225
4.30	Effect of DHC-1 on the serum levels of uric acid and GOT in isoproterenol-induced myocardial infarction in rats.	225
4.31	Effect of Activit on the serum levels of creatine kinase (CK) and Lactate dehydrogenase (LDH) in isoproterenol-induced myocardial infarction in rats.	227
4.32	Effect of Activit on the serum levels of uric acid and GOT in isoproterenol-induced myocardial infarction in rats.	227
4.33	Effect of Pepticare on the serum levels of creatine kinase (CK) and Lactate dehydrogenase (LDH) in isoproterenol-induced myocardial infarction in rats.	229
4.34	Effect of Pepticare on the serum levels of uric acid and GOT in isoproterenol-induced myocardial infarction in rats.	229
4.35	Effect of Normacid on the serum levels of creatine kinase (CK) and Lactate dehydrogenase (LDH) in isoproterenol-induced myocardial infarction in rats.	231

4.36	Effect of Normacid on the serum levels of uric acid and GOT in isoproterenol-induced myocardial infarction in rats.	231
4.37	Photomicrographs showing effect of DHC-1 on the heart of isoproterenol-treated rats.	247
4.38	Photomicrographs showing effect of Activit on the heart of isoproterenol-treated rats.	249
4.39	Photomicrographs showing effect of Pepticare on the heart of isoproterenol-treated rats.	251
4.40	Photomicrographs showing effect of Normacid on the heart of isoproterenol-treated rats.	253
4.41	Effect of DHC-1 on the serum levels of creatinine and uric acid in cisplatin-induced nephrotoxicity (acute model) in rats.	258
4.42	Effect of DHC-1 on the serum levels of urea and BUN in cisplatin-induced nephrotoxicity (acute model) in rats.	258
4.43	Effect of Activit on the serum levels of creatinine and uric acid in cisplatin-induced nephrotoxicity (acute model) in rats.	260
4.44	Effect of Activit on the serum levels of urea and BUN in cisplatin-induced nephrotoxicity (acute model) in rats.	260
4.45	Effect of Pepticare on the serum levels of creatinine and uric acid in cisplatin-induced nephrotoxicity (acute model) in rats.	262
4 46	Effect of Pepticare on the serum levels of urea and BUN in cisplatin-induced nephrotoxicity (acute model) in rats.	262
4.47	Effect of Normacid on the serum levels of creatinine and uric acid in cisplatin-induced nephrotoxicity (acute model) in rats.	264
4.48.	Effect of Normacid on the serum levels of urea and BUN in cisplatin-induced nephrotoxicity (acute model) in rats.	264
4 49.	Effect of DHC-1 on the serum levels of creatinine and uric acid in cisplatin-induced nephrotoxicity (chronic model) in rats.	283
4.50.	Effect of DHC-1 on the serum levels of urea and BUN in cisplatin-induced nephrotoxicity (chronic model) in rats.	283
4.51.	Effect of Activit on the serum levels of creatinine and uric acid in cisplatin-induced nephrotoxicity (chronic model) in rats.	285
4.52.	Effect of Activit on the serum levels of urea and BUN in cisplatin-induced nephrotoxicity (chronic model) in rats.	285
4.53.	Effect of Pepticare on the serum levels of creatinine and uric acid in cisplatin-induced nephrotoxicity (chronic model) in rats.	287

4.54.	Effect of Pepticare on the serum levels of urea and BUN in cisplatin-induced nephrotoxicity (chronic model) in rats.	287
4.55.	Effect of Normacid on the serum levels of creatinine and uric acid in cisplatin-induced nephrotoxicity (chronic model) in rats.	289
4.56.	Effect of Normacid on the serum levels of urea and BUN in cisplatin-induced nephrotoxicity (chronic model) in rats.	289
4.57.	Photomicrographs showing effect of DHC-1 on the kidney of cisplatin-treated rats (chronic model).	308
4.58.	Photomicrographs showing effect of Activit on the kidney of cisplatin-treated rats (chronic model).	310
4.59.	Photomicrographs showing effect of Pepticare on the kidney of cisplatin-treated rats (chronic model).	312
4.60.	Photomicrographs showing effect of Normacid on the kidney of cisplatin-treated rats (chronic model).	314
4.61.	Effect of DHC-1 on the serum levels of SGPT, SGOT and alkaline phosphatase in CCl ₄ -induced liver damage in rats	319
4.62.	Effect of DHC-1 on the serum levels of total bilirubin in CCl ₄ -induced liver damage in rats	319
4.63.	Effect of Activit on the serum levels of SGPT, SGOT and alkaline phosphatase in CCl ₄ -induced liver damage in rats.	321
4.64.	Effect of Activit on the serum levels of total bilirubin in CCl ₄ -induced liver damage in rats	321
4.65.	Effect of Pepticare on the serum levels of SGPT, SGOT and alkaline phosphatase in CCl ₄ -induced liver damage in rats.	323
4.66.	Effect of Pepticare on the serum levels of total bilirubin in CCl ₄ -induced liver damage in rats.	323
4.67.	Effect of Normacid on the serum levels of SGPT, SGOT and alkaline phosphatase in CCl ₄ -induced liver damage in rats.	325
4.68.	Effect of Normacid on the serum levels of total bilirubin in CCl ₄ -induced liver damage in rats.	325
4.69.	Photomicrographs showing effect of DHC-1 on the liver of CCl ₄ -treated rats.	341
4.70.	Photomicrographs showing effect of Activit on the liver of CCl ₄ -treated rats.	343
4.71.	Photomicrographs showing effect of Pepticare on the liver of CCl ₄ -treated rats.	345
4.72.	Photomicrographs showing effect of Normacid on the liver of CCl ₄ -treated rats.	347
4.73.	Effect of Drug X on serum total cholesterol (Chol.), triglyceride (TGL) and phospholipids (PL) in rabbits fed with standard laboratory diet (SLD) or hypercholesterolemic diet (HCD).	352

4.74.	Effect of Drug X on serum total lipid (TL) in rabbits fed with standard laboratory diet (SLD) or hypercholesterolemic diet (HCD).	352
4.75.	Effect of Drug X on serum HDL, VLDL and LDL in rabbits fed with standard laboratory diet (SLD) or hypercholesterolemic diet (HCD)	354
4.76	Effect of Drug X on total cholesterol (Chol.), triglyceride (TGL), phospholipids (PL) and total lipid (TL) in heart of rabbits fed with standard laboratory diet (SLD) or hypercholesterolemic diet (HCD).	358
4.77	Effect of Drug X on total cholesterol (Chol), triglyceride (TGL), phospholipids (PL) and total lipid (TL) in liver of rabbits fed with standard laboratory diet (SLD) or hypercholesterolemic diet (HCD).	358
