

ACKNOWLEDGEMENT

I take this opportunity to express my deep sense of gratitude towards my revered Prof. O. D. Gulati, a distinguished savant in Pharmacology for his valuable guidance with thoughtful and scholarly suggestions during the course of study and in preparing the manuscript. His unfailing encouragement and sympathetic attitude made my task lighter and simple. I am also highly thankful to him for helping me in getting scholarship for the study.

I also acknowledge my sincere thanks to our new Head of the Department of Pharmacology, Dr.B.R.Sainath, for guidance, encouragement and constant supervision through most part of the study.

I am also highly grateful to Dr.K.G.Hemavathi, Associate Professor of Pharmacology, for suggesting this problem, offering pertinent advice, inspired training and encouragement during the course of this work.

Thanks are due to other teachers of the department, specially Dr.J.D.Bhatt, Dr.A.P.Rajani, Mr.R.Balraman and Dr.D.C.Pandya for solving several problems during the course of the work and kind cooperation.
