

## CONTENTS

Introduction	
1. Characterisation of the <u>pectoralis major</u> muscle of birds	1
2. Structure of the <u>pectoralis major</u> of the pigeon	15
3. Structure of the <u>pectoralis major</u> muscle of the pigeon in disuse atrophy	31
4. Observations on the fibre architecture of the <u>pectoralis major</u> of the pigeon	44
5. Variation in the diameter of the muscle fibres in the <u>pectoralis major</u> and its relation to muscle size and mode of flight	57
6. Some histological and histochemical observations on the structure of the <u>pectoralis major</u> muscle of birds	65
7. Structure of the <u>pectoralis</u> of a flying mammal (bat) for comparison	78
8. Some general considerations	84
9. Summary and conclusions	96
Bibliography	98
