3	Introduction	1
4	Chapter 1: Rearing and Host Preference of <i>Callosobruchus chinensis</i> (Coleoptera: Bruchidae) in the laboratory conditions	23
	1.1 Introduction	23
	1.2 Material and Methodology	28
	1.3 Results	32
	1.4 Discussion	42
	1.5 Conclusion	45
5	Chapter 2: Deltamethrin induced toxic transgenerational effects on the development and repellency of <i>Callosobruchus chinensis</i>	46
	2.1 Introduction	46
	2.2 Material and Methodology	52
	2.3 Results	57
	2.4 Discussion	67
	2.5 Conclusion	71
6	Chapter 3: Understanding the mechanism of insecticide resistance in <i>Callosobruchus chinensis</i> via transcriptomic approach	72
	3.1 Introduction	72
	3.2 Material and Methodology	80
	3.3 Results	90
	3.4 Discussion	144
	3.5 Conclusion	156
8	General Consideration	157
9	Bibliography	175
10	Publication	217
11	Conferences certificates	234

List of Table

Table no.	Title	Page No.
Table 1.1	Total egg count, egg laying %, total hatch and hatching % of <i>C. chinensis</i> on different host	36
Table 1.2	Egg incubation, Larval + pupa period and total development period of <i>C. chinensis</i> on different host	39
Table 1.3	Adult longevity of <i>C. chinensis</i> on different host	40
Table 1.4	Quantity (weight loss) and Quality losses (protein and carbohydrate loss) by <i>C. chinensis</i> on different hosts	41
Table 2.1	Insecticide (Source: PPDB)	50
Table 2.2	Probit Mortality obtained after 96 hours of exposure to Deltamethrin	57
Table 2.3	LC ₅₀ value obtained and the sub-lethal concentrations selected for further studies	58
Table 2.4	Total eggs count, hatched eggs and hatching % of <i>C. chinensis</i> in various generations	59
Table 2.5	Total Development Period (Days) in various generations of <i>C. chinensis</i>	61
Table 2.6	Adult Longevity (Days) in various generations of <i>C. chinensis</i>	63
Table 2.7	Transgenerational alteration in the Susceptibility index of <i>C. chinensis</i>	64
Table 2.8	Percent repellency of deltamethrin against <i>C. chinensis</i> on L _{Lc50} exposure	65
Table 2.9	Percent repellency of deltamethrin against <i>C. chinensis</i> on H _{Lc50} exposure	65
Table 2.10	Repellent Index (RI) of deltamethrin against <i>C. chinensis</i> on L _{Lc50} exposure	66
Table 2.11	Repellent Index (RI) of deltamethrin against <i>C. chinensis</i> on H _{Lc50} exposure	66
Table 3.1	Reaction mix for cDNA synthesis	87
Table 3.2	Reverse transcription cycling program for cDNA synthesis	87
Table 3.3	Real Time PCR Reaction mix	88
Table 3.4	Real Time PCR condition	88
Table 3.5	Real time PCR primer sequences of selected genes.	88
Table 3.6	Transcript (Pooled) summary	92
Table 3.7	Validated unigenes (Pooled) summary	92
Table 3.8	Length distribution statistics of the validated unigenes (Pooled)	92

Table 3.9	CDS (Pooled) Statistics	93
Table 3.10	Length distribution statistics of CDS (Pooled)	93
Table 3.11	BlastX Data Distribution Statistics	94
Table 3.12	Sample-wise CDS summary	95
Table 3.13	GO category distribution of CDS	95
Table 3.14	Biological Process GO term distribution	96
Table 3.15	Cellular Component GO term distribution	97
Table 3.16	Molecular Function GO term distribution	98
Table 3.17	KEGG Pathway annotation summary of CDS	100
Table 3.18	Statistics of differentially expressed Genes	100
Table 3.19	Gene counts which are involved in different metabolic pathways.	106
Table 3.20	Gene counts involved in Amino Acid Metabolism: Pathway analysis	107
Table 3.21	Gene count involved in Carbohydrate Metabolism: Pathway analysis	108
Table 3.22	Gene count involved in Energy Metabolism: Pathway analysis	109
Table 3.23	Gene count involved in Lipid Metabolism: Pathway analysis	109
Table 3.24	Gene count involved in Nucleotide Metabolism: Pathway analysis	110
Table 3.25	Gene count involved in Metabolism of terpenoids and polyketides: Pathway analysis	111
Table 3.26	Gene count involved in Xenobiotics biodegradation and metabolism: Pathway analysis	112
Table 3.27	Gene counts which are involved in genetic processing information	114
Table 3.28	Gene counts involved in Transcription: Pathway analysis	114
Table 3.29	Gene count involved in Translation: Pathway analysis	115
Table 3.30	Gene count involved in Replication and repair: Pathway analysis	116
Table 3.31	Gene count involved in Folding, sorting and degradation: Pathway analysis	116
Table 3.32	Gene count involved in the Environmental Information Processing	119
Table 3.33	Gene count involved in Membrane transport: Pathway analysis	119

Table 3. 34	Gene count involved in Signal transduction: Pathway analysis	120
Table 3. 35	Gene count involved in Signalling molecules and interaction: Pathway analysis	122
Table 3. 36	Gene count involved in Cellular processes	124
Table 3. 37	Gene count involved in Cell organelle process: Pathway analysis	124
Table 3. 38	Gene count involved in Cell division and senescence: Pathway analysis	125
Table 3. 39	Gene count involved in Cell Communications: Pathway analysis	126
Table 3.40	Gene count involved in Cell motility: Pathway analysis	127
Table 3.41	Gene count involved in the different Organismal system	130
Table 3.42	Gene count involved in Circulatory system: Pathway analysis	131
Table 3.43	Gene count involved in Development and regeneration: Pathway analysis	132
Table 3.44	Gene count involved in Digestive system: Pathway analysis	132
Table 3.45	Gene count involved in Endocrine system: Pathway analysis	133
Table 3.46	Gene count involved in Excretory system: Pathway analysis	134
Table 3.47	Gene count involved in Immune system: Pathway analysis	135
Table 3.48	Gene count involved in Nervous system: Pathway analysis	136
Table 3.49	Gene count involved in Sensory system: Pathway analysis	137
Table 3.50	Gene count involved in Environmental adaptation: Pathway analysis	138
Table 3.51	Phase I gene expression	139
Table 3.52	Phase II gene expression	139
Table 3.53	Phase I and II downregulated gene expression	140
Table 3.54	Phase III gene expression	141
Table 3.55	Cuticle penetration genes expression	141
Table 3.56	Summary of the few important differentially expressed genes (DEGs) involved in different pathways	142

List of Figures

Figure No.	Title	Page No.
Figure I	Grain production scenario: Global and India (Statista 2023)	1
Figure II	Pulse production scenario: Global and India (Statista 2023)	2
Figure III	Various methods to control Insect pest (cropwalk)	8
Figure IV	Pesticide use pattern: Worldwide and India (Nayak and Solanki, 2021)	9
Figure V	Transgenerational effect (Brevik et al., 2018)	10
Figure VI	Insecticide induced alteration (Dara, 2017)	12
Figure VII	Mechanisms of insecticide resistance (Siddiqui et al., 2023)	15
Figure 1.1	Collection and Maintenance of <i>C. chinensis</i>	28
Figure 1.2	The infestation of the host by <i>C. chinensis</i>	30
Figure 1.3	Morphological characters of <i>C. chinensis</i>	33
Figure 1.4	Life cycle stages of <i>C. chinensis</i>	33
Figure 1.5	Results of Agarose Gel Electrophoresis. A. Genomic DNA B. PCR Product 1. Base pair size 2. PCR product of COI	35
Figure 1.6	Barcode of the sequence	36
Figure 1.7	Total egg count of <i>C. chinensis</i> on different host. Significant level *(p<0.05); **(p<0.01)	37
Figure 1.8	Total hatched eggs of <i>C. chinensis</i> on different host. Significant level *(p<0.05); **(p<0.01)	37
Figure 1.9	Egg laying % and hatching % of <i>C. chinensis</i> on different host	38
Figure 1.10	Total development period of <i>C. chinensis</i> on different host. Significant level *(p<0.05); **(p<0.01)	39
Figure 1.11	Adult longevity of <i>C. chinensis</i> on different host. Significant level *(p<0.05); **(p<0.01)	40
Figure 1.12	Quantity and Quality losses by <i>C. chinensis</i> on different host (Grain Weight loss, Carbohydrate loss, Protein loss). Significant level *(p<0.05); **(p<0.01)	41
Figure 2.1	Over the time resistance is developed in beetle due to exposure of insecticide	47
Figure 2.2	Experimental setup for obtaining LC ₅₀	52
Figure 2.3	Dose response curve for the LC ₅₀	57
Figure 2.4	Transgenerational effect of deltamethrin on the total egg count of <i>C. chinensis</i> . Significant level *(p<0.05); **(p<0.01)	59

Figure 2.5	Transgenerational effect of deltamethrin on the total hatching of <i>C. chinensis</i> . Significant level *(p<0.05); **(p<0.01)	60
Figure 2.6	Transgenerational effect of deltamethrin on the hatching% of <i>C. chinensis</i> . Significant level *(p<0.05); **(p<0.01)	60
Figure 2.7	Transgenerational effect of deltamethrin on the total development period of <i>C. chinensis</i> . Significant level *(p<0.05); **(p<0.01)	62
Figure 2.8	Transgenerational effect of deltamethrin on the adult longevity of <i>C. chinensis</i> . Significant level *(p<0.05); **(p<0.01)	63
