

Acknowledgements

First and foremost, I would like to extend my heartfelt gratitude to my thesis supervisor Dr. Debjani Bagchi. Throughout my PhD she has been a constant source of support, motivation and inspiration for me. She has introduced me to the field of Soft Condensed Matter and her constant guidance, creative suggestions and constructive criticism has helped me throughout the completion of this work.

I would further like to acknowledge Department of Science and Technology (DST) - Scientific and Engineering Research Board (SERB) for the project grant (EMR/2016/003910). The major part of the thesis have been carried out using the funding provided by the above grant. I would also like to acknowledge DST-PURSE grant to Faculty of Science, The Maharaja Sayajirao University of Baroda for Micro Raman Spectrometer which has been a major tool in the present study. I would also like to thank Dr. Feroz Mushtafa, CCAMP, NCBS, Bangalore for Confocal Microscopy Experiments, Sophisticated Analytical Instrument Facility (SAIF) - IIT Bombay and Raja Ramanna Center for Advanced Technology (RRCAT) for Small Angle X-ray Scattering (SAXS) experiments and Department of Textile Engineering, Faculty of Technology, The Maharaja Sayajirao University of Baroda and Micro and Nano Characterization Facility (MNCF), Indian Institute of Science (IISc) for Tensile Testing experiments.

I would like to thank The Dean, Faculty of Science and The Head, Department of Physics, The Maharaja Sayajirao University of Baroda, for providing all the necessary facilities to carry out the present work. I would further extend my gratitude towards all the teaching and non teaching staff members of the Department of Physics and Faculty of Science who have helped me knowingly or unknowingly during the entire duration of my PhD. I would also like to thank my lab mates and other research scholars of the department for constantly encouraging me.

Finally, I would like to pour my heart out to my family, my parents - Mr.

Rajesh Kumar Bhatt and Mrs. Sangita Bhatt, my siblings - Ms. Gargi Bhatt and Mr. Kulish Bhatt, my in-laws - Dr. Rajendraprasad Pathak and Mrs. Swarika Pathak, my sister-in-law Mrs. Maitri Shukla, my brother-in-law Hari Shukla and my beloved husband Dr. Jay Pathak for their immense support, guidance, encouragement and blessings throughout my life. A special thanks to my uncle Dr. Hitesh R. Bhatt who has been my mentor and inspiration for pursuing PhD. I would also like to thank all my friends for their immense support and faith in me.

Last but not the least, I would like to thank God Almighty who showered his blessings upon me and gave the strength and determination to complete this thesis work.
