LIST OF TABLES

Table No.	TITLE OF TABLES	Page No.
CHAPTER 4		
Part A		
SECTION I	**PERSONAL & OCCUPATIONAL DETAILS**	-
1.1	Age group of the Respondents	76
1.2	Gender of the Respondents	77
1.3	Marital Status of the Respondents	78
1.4	Educational Qualification of the Respondents	79
1.5	Respondents' Total Years of Experience	80
1.6	Respondents' Total Years of Experience at Present Organization	**81**
81.7	Respondents' Industry	82
SECTION II	**GENERAL INFORMATION ABOUT VIRTUAL CONNECTIVITY**	
2.1	Responses regarding the use of virtual mediums to connect based on how formal or informal the medium is.	83
2.2	Responses on choosing virtual medium based on fast response.	84
2.3	Responses on change of working mode by organization to online or hybrid during COVID-19 wave.	85
2.4	Responses on permanent change of working mode to online or hybrid post-COVID-19.	86
2.5	Responses on flexi timings of their job.	87
2.6	Responses on their job offering WFH (Work from Home) facility.	88
SECTION III	**PERCEPTION OF VIRTUAL CONNECTIVITY (BENEFITS & DRAWBACKS)**	-
3.1	Responses on being forced by virtual connectivity to work much faster	89
3.2	Responses on being forced by virtual connectivity to do more work than they can handle	90
3.3	Responses on being forced by virtual connectivity to work with very tight time schedules.	91
3.4	Responses on being forced to change their work habits to adapt to new technology	92
3.5	**Master Table showing Techno Overload**	**93**
3.6	Responses on always facing connectivity pressure with easy access to virtual media	94
3.7	Responses on increased response expectations to work calls/mails	95
3.8	Responses on constant accountability of working even on odd hours	96

Table No.	TITLE OF TABLES	Page No.
3.9	Responses on increased virtual meetings/ training after working hours	97
3.10	**Master Table showing Responses on Wok Overload**	**98**
3.11	Responses on using virtual connectivity blurring boundaries between my out-of-home and my home life	99
3.12	Responses on feeling their personal life is being interrupted by virtual connectivity	100
3.13	Responses on feeling uncomfortable that with virtual connectivity their work can be easily monitored	101
3.14	Responses on bothering them that the information created by current technology be traced even years from now	102
3.15	Responses on feeling that the use of virtual connectivity makes it easier to invade their privacy	103
3.16	Responses work routine being disturbed by internet/network disturbance	104
3.17	Responses on social media are a distraction while working virtually	105
3.18	Responses to advertisements and instant popups are a distraction while working virtually	106
3.19	Responses on instantly accessing their work	107
3.20	**Master Table showing Responses on interruption of work**	**108**
3.21	Responses on accessing their work outside of regular work hours	109
3.22	Responses on having remote access to information	110
3.23	Responses on having ease of flexibility to reschedule work meetings	111
3.24	**Master Table showing Responses on Accessibility and Flexibility**	**112**
3.25	Responses on having coworkers/team members connecting after work hours	113
3.26	Responses on being easy to interact with work team/coworkers with virtual connectivity	114
3.27	Responses on managing information flow with virtual connectivity	115
3.28	Responses on having no geographical boundary when connecting virtually	116
3.29	Responses on lack of informal discussion and advice	117
3.30	**Master Table showing Responses on Communication & Coordination**	**118**
3.31	Responses on virtual connectivity improving quality of work	119
3.32	Responses on virtual connectivity improving accuracy of work	120

Table No.	TITLE OF TABLES	Page No.
3.33	Responses on quite time for uninterrupted work with virtual connectivity	121
3.34	**Master Table showing Responses on Productivity**	**122**
3.35	**Master Table showing Benefits and Drawbacks of virtual connectivity**	**123**
SECTION IV	**IMPACT OF VIRTUAL CONNECTIVITY ON WORK-LIFE BALANCE**	
4.1	Responses on managing the balance between work, personal & family life with the usage of Virtual Connectivity	124
4.2	Responses on openly discussing challenges and concerns of using Virtual Connectivity with immediate manager	125
4.3	Responses on creating an environment by the immediate manager where mental health can be discussed	126
4.4	Responses on the more favorable model for work-life balance	127
4.5	Responses to family worries and problems distracting them from work	128
4.6	Responses on Family activities stopping them from getting the amount of sleep needed to do their job well	129
4.7	Responses on Family obligations reducing the time they need to relax or be by themselves	130
4.8	**Master table on Responses to Family Work Conflict**	131
4.9	Responses on Work demand of WFH or while working virtually often put issues in personal life "on hold"	132
4.10	Responses on thoughts of work with WFH/Virtual connectivity making them Unable to enjoy other non-work related activities	133
4.11	Responses on the Problem of Virtual work making them irritable at home	134
4.12	Responses on Finding it difficult to schedule vacation time with WFH/ Virtual connectivity	135
4.13	Responses on constantly feeling too tired after work to engage in non-work activities with WFH/ Virtual connectivity	136
4.14	**A master table on Responses to Work-family conflict**	137
4.15	Responses on easily taking short breaks with Virtual work	138
4.16	Responses on spending more time planning things than doing things while working Virtually /Flexi timings/WFH	139

Table No.	TITLE OF TABLES	Page No.
4.17	Responses on more time for recreational activities while working Virtual	140
4.18	Responses on trouble scheduling meetings within flexible starting and quitting time	141
4.19	Responses on Multitasking official and home duties with ease with Virtual work /Flexi timings/WFH	142
4.20	Responses on Flexi timing/ Virtual connectivity/WFH improved Job satisfaction	143
4.21	Responses on reduction of Travelling/ commuting time to a great impact with Virtual work /Flexi timings/WFH	144
4.22	Responses on Comfortable clothing while attending virtual meetings or WFH	145
SECTION V	**IMPACT OF VIRTUAL CONNECTIVITY ON HEALTH AND WELL BEING**	
5.1	Responses on virtual connectivity hampering sleeping schedule	146
5.2	Responses on virtual connectivity changing appetite/diet pattern	147
5.3	Responses on virtual connectivity making them procrastinators	148
5.4	Responses on virtual connectivity increasing mood swings	149
5.5	Responses regarding virtual connectivity making their life sedentary	150
5.6	**Master table on Health and wellbeing –Lifestyle**	151
5.7	Responses on working virtually frustrate them	152
5.8	Responses on tiring because of virtual connectivity	153
5.9	Responses on getting physically exhausted because of working virtually	154
5.10	Responses on getting emotionally exhausted because of working virtually	155
5.11	Responses on feeling worn out because of working virtually	156
5.12	Responses on feeling burn out because of working virtually	157
5.13	**The master table on burnout**	**158**
5.14	Responses on using any app or a feature by their organization that forces them to take breaks during working hours	159
5.15	Responses on setting a time limit for social media screen time during working hours by their organizations	160
5.16	Responses on following set working hours for Virtual Connectivity	161
5.17	Responses on encouraging them to enforce gadget-free meal time by their organization	162

Table No.	TITLE OF TABLES	Page No.
5.18	Responses on putting their phone on "Do Not Disturb" mode while sleeping	163
5.19	Responses on conducting digital wellbeing workshops by their organization	164
5.20	**Master Table on Digital Wellbeing**	**165**
5.21	**Responses on Health Problems caused by Virtual Connectivity**	**166**
	Part B- STATISTICAL TESTS	
6.1	HYPOTHESIS(H1)- Relation between Virtual Connectivity and Health & Well being	169
6.2	HYPOTHESIS(H2)- Association between Virtual Connectivity and Work-life balance	170-171
	ASSOCIATION BETWEEN VARIABLES	
7.1	Association between Techno Overload and Personal Variables	172
7.2	Association between Work Overload and Personal variables	174
7.3	Association between Privacy Invasion & Monitoring and Personal Variables	176
7.4	Association between Interruption of Work and Personal Variable	178
7.5	Association between Accessibility & Flexibility and Personal variables	180
7.6	Association between Communication & Coordination and Personal Variables	182
7.7	Association between Productivity and Personal Variables	184
7.8	Association between Lifestyle and Personal Variables	186
7.9	Association between Burn Out and Personal Variables	188
7.10	Association between Digital wellbeing and Personal Variables	190
