

Application of HR Scorecard in Higher Educational Institutions in India: A Study of a Selected University

Abstract

Committees and Commissions formed on higher education since independence talked about the structural changes in higher education but a very few of them talked about incorporating Human Resource Management practices in higher education. In education system the human resource is the most important aspect for its growth and sustenance, but it is quite surprising that various committees and commissions focussed on education through structural changes without considering improvement in teachers' quality through human resource management interventions. In an era of strategic human resource management, it is inevitable to focus on teachers, who are responsible for teaching, research, and development in higher education, to be managed professionally. Professional management of human resource, i.e. teachers and other staff members, has become essential due to students' reliability on teachers and staff for building them personally and professionally to make them future-ready. Thus, the present study tries to introduce HR Scorecard in higher education system as managing human resource improves performance of employees is well documented through research (Cunningham & Kempling, 2011). The Balanced scorecard is a management measurement tool in general and HR Scorecard is a measurement tool of the HR function in specific. There is a dearth of research on studies on HR Scorecard in India, specifically and its influence on higher education in Indian universities, institutions and/or colleges.

Keywords: Higher education in India, Committees and Commissions on higher education, HRM practices in higher education, HR Scorecard in higher education.

Data Analysis and Interpretation	52
Data analysis	52
Descriptive statistics	52
Normality of data	52
Validity and reliability of the instrument	52
Parametric and non-parametric tests	53
Respondents' Demographic Profile	53
Awareness about grade of the university	54
Awareness about rank of the university	54
Total students per faculty per Annual Report 2019-2020	55
Explanation of Demographic Profile of Respondents	55
Age profile of respondents	55
Gender profile of respondents	55
Previous medium of instruction profile of respondents	56
Name of the faculty to which respondents belong to	56
Program/ course the respondents are currently pursuing	56
Awareness level about grading of The M.S. University	56
Relationship between awareness of ranking/grading and various categories of respondents	57
Perception of students towards 'Teachers' and 'Curriculum'	64
Factor Analysis for 2 components 'CA' and 'TPT'	65
KMO and Bartlett's test of sphericity	65
Anti-image matrix and communalities table	65
Components extracted based on Factor Analysis	66

Rotated component matrix table	66
Extraction Method: Principal Component Analysis	67
Analysis of Tech-pro teachers and Curriculum appropriateness	68
Perception of students towards Teachers' Various Traits	95
Students Perception about Traits of Teachers Based on Components – 'Soft Skills' and 'Technical Skills'	97
Analysis of 'Soft Skills' and 'Technical Skills' of teachers	99
Perception of Students towards 'Pedagogy' of teachers and 'Teacher Engagement' with students	127
Analysis of 'Pedagogy' of teachers and 'Teacher engagement' with students	128
Perception of students on Leadership Qualities of Teachers' (LQT)	153
Analysis of Leadership Quality of Teachers	154
Improvement in 'Perception of teachers' from the current position among various areas	168
Perception of students towards Abilities' enhancing tools: Curriculum, Teaching Methods, and Assessment Methods	183
Perception of students towards 'Soft Skills of Staff'	190
Analysis of Soft Skills of Staff	191
Best practices of universities across India: MSU vs other universities	196
A comparative analysis of The Maharaja Sayajirao University of Baroda and other universities	196
Current Employment Structure at universities	196
Guidelines followed for recruitment of teachers	197
Areas of Training for newly appointed teachers	198
Training provided to Teaching and Non-teaching Staff	199
Sources of Funds for Faculty Development Programs (FDPs)	201
HR Practices in Universities	202
Development Centres for Orientation programs and Refresher courses	205
Maintaining Teacher-student ratios	206
Developing competencies of teachers through various methods	206
Developing competencies of Teachers: Other universities vs MSU	207
Factors contributing to ROI of universities	208

Factors Measuring Teachers' Performance	209
Analysis of the Expert Interview with the Registrar of The Maharaja Sayajirao University of Baroda	211
CHAPTER 5	
Discussion and Findings of the Study	212
Biographical Data	212
Awareness about Ranking among students	212
Awareness about Grading among students	212
Perception towards 'Curriculum Appropriateness' (CA) and 'Tech-pro teachers' (TPT) among students	212
Perception towards 'Soft skills' and 'Technical skills' of teachers	213
Perception towards 'Pedagogy' (P) of 'Teacher Engagement' with students	214
For Leadership Qualities of Teachers (LQT)	214
Improvement in 'Perception of teachers' from the current position among various faculties	215
Ability enhancing tools: Curriculum, Teaching methods (TM), and Assessment methods (AM) for enhancing abilities of students	215
Soft Skills of Staff (SSS)	216
Current Employment Structure at universities	216
Guidelines followed for recruitment of Teachers	217
Training to newly appointed Teachers	217
Training to teaching and non-teaching staff in other universities	218
Sources of funds for Faculty Development Programs	219

Model of the HR Scorecard for HEIs	37
------------------------------------	----

List of Abbreviations

AM	Assessment Methods
BSC	Balanced Scorecard
CA	Curriculum Appropriateness
HEI	Higher Educational Institutions
HRM	Human Resource Management
HRDSC	Human Resource Development Scorecard
HRSC	Human Resource Scorecard
L&D	Learning and Development
LQT	Leadership Quality of Teachers
NAAC	National Assessment and Accreditation Council
NIRF	National Institutional Ranking Framework
SERVQUAL	Service Quality
TQM	Total Quality Management
WSC	Workforce Scorecard
POA	Programme of Action
UGC	University Grants Commission
CABE	Central Advisory Board of Education
NPE	National Policy on Education
CA	Curriculum Appropriateness
TPT	Tech-Pro Teachers
SS	Soft Skills
TS	Technical Skills
P	Pedagogy
TE	Teacher Engagement
SSS	Soft Skills of Staff
TM	Teaching Methods
AM	Assessment Methods
C	Curriculum
HEDPERF	Higher Education Performance
Arts	FoA
Commerce	FoC

Education and Psychology	FoE&P
Engineering and Technology	E&T
Family and Community	
Science	F&CS
Fine Arts	FoFA

Social Work	FoSW

Statistical symbols used in data analysis

EFA	Exploratory Factor Analysis
PCA	Principal Factor Analysis
M	Mean
SD	Standard Deviation
f	Value of t-test statistic
n	Number of Observations

Acknowledgement

Embarking on this PhD journey has been akin to navigating a labyrinth; thrilling yet challenging, and I could not have reached the end without my guiding lights. At the forefront is Dr. Sunita Upendra Sharma, my guide, whose unwavering support, and mentorship illuminated my path. Her belief in me not only fuelled my aspirations but also taught me the essence of academic rigor. Dr. Sunita Sharma, your guidance was the beacon that led me through the intricacies of this voyage, and for that, I am eternally grateful. I am also in your debt for the confidence you showed in me and for holding my hand through the entirety of my Ph.D.

Additionally, I extend my heartfelt thanks to Dr. C. J. Panchal, Dr. B.S. Ratanpal, Prof. (Dr.) Niti A. Chopra, Dr. Nidhi Shendurnikar, Mr. Debraj Goswami, Ms. Swati Dhruv, and Dr. Hemantkumar K. Valand. Your assistance during my data collection across the diverse faculties of the M. S. University was invaluable. Each of you, in your unique capacity, contributed to my research, adding colour and depth beyond measure.

I would also like to thank Dr. Sunita Sharma for recommending my name for the UGC Scholarship. My academic journey was further bolstered by this generous scholarship. The financial support over three years, coupled with the annual contingency grant, was not just a monetary relief but a testament to the faith vested in my research.

On the home front, the support I received was nothing short of extraordinary. To my husband, my best friend, who has been my rock who supported my decision of pursuing PhD and held my hand throughout the journey, shouldered me in the toughest of times and encouraged me to keep moving despite all the hardships. To my entire family, whose understanding and continuous support were the calm in the storm of this gruelling journey, I owe a huge debt of gratitude. A special mention to Mrs. Ila Kanagat and Mr. Rohit Kanagat, my mother- and father-in-law for their unwavering support in caring for my son, allowing me to focus on my research with a clear mind. To my own parents, Dr. Ashok Sharma and Mrs. Neena Sharma, your constant moral support has been the silent force behind my every stride.

Gathering data from the 13 faculties under MSU was a herculean task, akin to scaling the academic equivalent of Everest. This six-month odyssey, marked by daily faculty visits, was as challenging as it was enlightening. The data collection odyssey extended beyond MSU, taking me across various states to meet with Vice Chancellors, an endeavour that tested both my resolve and my travel planning skills.

In this context, I must express my profound gratitude to Dr. Rahul Kanagat. Your unparalleled support in liaising with Registrars and VCs across India was a lifeline. Dr. S. B. Medhi, your exceptional assistance in securing data from top universities in Assam was invaluable. At over 75, your zeal and commitment to aiding my research were inspiring and played a pivotal role in the fruition of my work.

This thesis stands as a testament to the collective effort and belief of many. From Dr. Sunita Sharma, who shepherded me through the Ph.D. journey to the administrative and library staff at the Faculty of Management Studies, each of you played a unique part in this academic voyage. May our paths cross again in the corridors of academia or perhaps, more whimsically, in the less daunting aisles of a supermarket!

In the end, I want to dedicate this to my loving son and my supportive husband. The unwavering support and love from the two of you has enabled me to tread this path without the fear of missing out. To Ayaan, my son, I owe the greatest deal of debt to you. In the entirety of the Ph.D., you made it easy for me. Your love, support, and understanding have been much beyond your years, and I promise to make up on all the time that we missed out on.

Vartika Kanagat

31/01/2024

*I dedicate this thesis to Ayaan (my son) and Abhinav (my husband)
without whose support this would not have been possible.*
