

# List of Tables

1.1	Masses and radii of some observed compact stars. . . . .	16
2.1	Estimated values of physical parameters based on the observational data . . . . .	30
3.1	The numerical values of the strong energy condition at centre as well as surface, Gravitational Redshift at surface, and Adiabatic Index at the surface for the compact star PSR J1903+327. . . . .	44
3.2	The numerical values of the $\frac{dp_r}{d\rho}$ at centre as well as a surface and $\frac{dp_\perp}{d\rho}$ at centre as well as surface for the compact star PSR J1903+327. . .	45
3.3	The values of the curvature parameter R for the compact star PSR J1903+327 whose observed mass and radius is given by $1.66^{+0.021}_{-0.021}M_\odot$ and $9.438^{+0.03}_{-0.03}km$ respectively . . . . .	45
4.1	Values of strong energy condition at centre as well as surface for $\alpha = 0.1$ . . . . .	65
4.2	Values of gravitational redshift and Adiabatic Index . . . . .	69
4.3	Values of Mass radius ratio and Buchdahl ratio. . . . .	69
4.4	The numerical values of the $\frac{dp_r}{d\rho}$ at centre as well as surface and $\frac{dp_\perp}{d\rho}$ at centre as well as surface. . . . .	70
5.1	Fulfillment of the strong energy condition and values of the gravitational redshift at the center as well as at the surface and adiabatic index at the surface where we have used the data for the pulsar 4U1820 – 30. . . . .	88
5.2	Values of $\frac{d\rho}{dr}$ , $\frac{dp_r}{dr}$ and $\frac{dp_\perp}{dr}$ at center as well as surface. . . . .	89
5.3	Values of $\frac{dp_r}{d\rho}$ and $\frac{dp_\perp}{d\rho}$ at the center as well as at the surface and at center. . . . .	90
6.1	The numerical values of the $\tau, \eta, \omega$ and constant(a) for the compact star 4U 1820-30. . . . .	110

---

6.2	The numerical values of the strong energy condition and redshift at the centre as well as surface, and adiabatic index at the surface for the compact star 4U 1820-30. . . . .	110
6.3	The numerical values of the $\frac{d\rho}{dr}$ , $\frac{dp_r}{dr}$ and $\frac{dp_\perp}{dr}$ at centre as well as surface for the compact star 4U 1820-30. . . . .	111
6.4	The numerical values of the $\frac{dp_r}{d\rho}$ at centre as well as surface and $\frac{dp_\perp}{d\rho}$ at centre as well as surface for the compact star 4U 1820-30. . . . .	111
