

CONTENTS

Chapters /S N.	Particulars	Page No.
1	Declaration.	I
2	Certificate.	II
3	Acknowledgement.	III-IV
4	Contents.	V-VII
5	List of Tables.	VIII-X
6	List of figure, map and graphs.	XI-XII
I	CONCEPTUAL FRAMEWORK	1-43
1.0	Introduction.	1-2
1.1	Meaning and definition of science.	2-3
1.2	Importance of science education.	3-4
1.3	Aims of science education.	4-5
1.4	Recommendations of various commissions on science education.	5-9
1.5	Status of science teaching in India.	9-11
1.6	Domains of science education.	11-13
1.7	Understanding of scientific concepts.	13-16
1.8	Meaning and definitions of science education.	16-17
1.9	How misconceptions are created in children.	17-18
1.10	Misconceptions in science.	18-20
1.11	Causes of misconceptions in science.	20-26
1.12	Tools to identify and measure misconceptions in science.	26-29
1.13	Some of the common misconceptions in science.	29-37
1.14	Rationale.	37-40
1.14.1	Research questions.	41
1.14.2	Statement of the problem.	41
1.14.3	Objectives of the study.	41
1.14.4	Hypothesis.	41-42
1.14.5	Explanation of the term.	42
1.14.6	Operationalization of the term.	42-43
1.14.7	Delimitation of the study.	43
II	REVIEW OF RELATED LITERATURE	44-94
2.0	Introduction.	44-45
2.1	Studies related to misconceptions in Physics.	45-59
2.1.1	Observations on the literature reviewed (Physics).	59
2.2	Studies related to misconceptions in Chemistry.	59-68
2.2.1	Observations on the literature reviewed (Chemistry).	68
2.3	Studies related to misconceptions in Biology.	68-81
2.3.1	Observations on the literature reviewed (Biology).	81
2.4	Studies related to misconceptions in other areas.	81-86
2.4.1	Observations on the literature reviewed (other areas).	86
2.5	Studies related to misconceptions in science among teachers.	86-90
2.5.1	Observations on the literature reviewed (teachers).	90
2.6	Observations on the Literature reviewed.	91-93

2.7	Implications of the reviewed literature on the present study.	93-94
III	RESEARCH METHODOLOGY	95-114
3.0	Introduction.	95
3.1	Design of the study.	95
3.2	Population.	95-96
3.3	Sample and sampling technique.	96-97
3.4	Sources of data.	97
3.5	Tools used for data collection.	98
3.6	Construction of Three-Tiered multiple choice science misconception test (TTMCSMT).	98
3.6.1	Content analysis of science and technology textbook of Jharkhand state Board.	98-100
3.6.1.1	Findings of the textbook analysis.	101-102
3.6.1.2	Physics.	102
3.6.1.3	Chemistry.	102
3.6.1.4	Biology.	103
3.6.2	Semi structured interview of school teachers.	103
3.6.2.1	Physics.	103
3.6.2.2	Chemistry.	103
3.6.2.3	Biology.	103-104
3.6.3	Final selection of chapters.	104
3.6.3.1	Physics.	104
3.6.3.2	Chemistry.	104
3.6.3.3	Biology.	104
3.6.4	Principles followed while constructing TTMCSMT.	104-105
3.6.5	Three-tiered multiple choice science misconception test.	105-106
3.6.6	Expert's validation.	106-107
3.6.7	Pilot testing.	107-111
3.7	Information schedule for school teachers.	111
3.8	Observation schedule for availability of teaching learning material.	111
3.9	Observation schedule for availability of science laboratory.	112
3.10	Design of the study.	112
3.11	Procedure for data collection.	112-113
3.12	Data analysis techniques.	113-114
IV	DATA ANALYSIS AND INTERPRETATION	115-277
4.0	Introduction.	115
4.1	Analysis of data.	115
4.1.1	To identify and measure misconceptions in science among students of standard VIII.	115-118
4.1.2	To study the reasons and sources of misconceptions in science among students of standard VIII.	118-273
4.1.3	To study misconceptions with respect to gender, availability of teaching learning materials, , availability of science laboratory, educational qualification of teachers, professional qualification of teachers, experience of teachers, educational qualification of parents.	273-279
V	SUMMARY, FINDINGS, DISCUSSION,	280-301

	IMPLICATION AND RECOMMENDATIONS	
5.0	Introduction.	280-281
5.1	Statement of the problem.	281
5.2	Objectives of the study.	281
5.3	Hypothesis.	282
5.4	Explanation of the term.	282-283
5.5	Operationalization of the term.	283
5.6	Delimitation of the study.	283
5.7	Methodology of the study.	283
5.7.1	Population.	284
5.7.2	Sample and sampling technique.	284
5.7.3	Tools used for data collection.	284
5.7.3.1	Content analysis of science and technology textbook.	284-285
5.7.3.2	Semi-structured interview of school teachers.	285
5.7.3.3	Principles followed while constructing Three-Tiered multiple Choice Science Misconception Test.	285
5.7.3.4	Three-Tiered multiple Choice Science Misconception Test.	285-286
5.7.3.5	Expert's Validation.	286
5.7.3.6	Pilot testing.	286-287
5.7.3.7	Information schedule for school teachers.	287
5.7.3.8	Observation schedule for availability of teaching learning materials.	287
5.7.3.9	Observation schedule for availability of science laboratory.	287
5.8	Procedure for data collection.	288
5.9	Data analysis techniques.	288-289
5.10	Major Findings.	289-291
5.11	Discussion.	292-296
5.12	Implications of the present study.	296-297
5.13	Suggestions for further research.	298
5.14	Recommendations.	299-301
	BIBLIOGRAPHY	302-325
	APPENDICES	I-CLVI
