The repository of Devi Saraswati is Vidya (Pure knowledge) when a person shares that knowledge with others without doership it increases and when one keeps it within oneself due to ego it leads to the downfall of the person in the long run.

Shrimant Maharaja Sayajirao Gaekwad III

"It is the youth, which has had the benefit of education, to show the world what true democracy is. There will be a real democracy where every man, woman and child in a state, is filled with an irrepressible desire to do everything possible to make that community better, stronger and free. And this ideal cannot be achieved without an educated people – educated not in letters but educated in those deep and moral truths which are implied in the service of the community."-

During the year, as part of the G-20 initiative, the University had organized Youth-20 India Summit 2023, International Conference on "Climate Change and Disaster Risk Reduction: Making Sustainability a Way of Life." The event was hosted with the support of the Ministry of Youth Affairs and Sports, Government of India gathering renowned influencers and sustainability experts to foster meaningful dialogue and insights into combating climate change, and reducing disaster risks. The University celebrated the 150th Birth Anniversary of Sri Aurobindo, a momentous occasion commemorating the life and contributions of the revered figure, where Hon'ble Governor Shri of Gujarat Acharya Devvrat, honored the occasion with his presence. The university held a memorable 71st Convocation graced by the esteemed presence of Shri Amit Shah, Hon'ble Home Minister of India as the Chief Guest, demonstrating university's commitment to prepare youth for nation building. These events and many others organised during the year underscore the university's dedication to fostering an agenda of national significance and needs of the time.

Furthermore, the university has witnessed growth in its scholarly output with 958 publications, 824 papers presented in national & international conferences, and 147 collaborations highlighting its robust research ecosystem. With 423 expert talks, 329 PhD supervisors, and an impressive number of 1153 registered PhD students, the institution remains at the forefront of nurturing intellectual talent. The collaborative spirit among all have been instrumental in taking the university forward towards achieving its goals. Whether it was in the realm of academics, research, outreach, or administration, the commitment to excellence displayed by every member of the MSUB community is truly worth appreciating.

My heartfelt gratitude for his trust and giving me this opportunity.

I sincerely acknowledge and appreciate the ever standing unconditional support received from Offg. Registrar of the University Dr. K. M. Chudasama. His positive and kind disposition makes all the tasks assigned a very pleasant experience.

I would also like to thank in-charge Development Officer, GCU Section, Ms. Hinal Trivedi, Staff of the GCU section, all Faculty level coordinators and University officials. Without them, this report would not have been possible.

2	Seminar on "Oral Traditions of Indian Arts, Culture and Literature - An Analytic View"	India engrosses an important place in the world due to its rich art and cultural heritage. India is a diverse country having unity in diversity; this land has assimilated its culture, art, customs, festivals and religious rituals. This country has been a guide to the world for centuries, a lighthouse to people from all over the world that come here to seek guidance in the relevant tradition and enlightening practices the proof of which is obtained from the study of the history of ancient Indian universities like Takshashila, Nalanda, Vikramashila, Vallabhi, etc. In all these ancient universities, study, teaching and research were done on many subjects like literature, art, music, architecture, yoga, science, mathematics, geography, economics, aesthetics, philosophy, etc. Distinct education of all subjects	February 16, 2023	Concert Hall, Faculty of Performing Arts

		was done according to the Indian traditional teaching method i.e. "Guru Shishya Parampara". In this mode of learning, oral tradition of teaching was a special method of education in which there is importance of "Sina - Basina Talim' which is still existent today. In the Indian Gurukul tradition, the method of teaching and learning of scriptures was done through the oral tradition. Indian classical art and folk arts are preserved in the form of oral teaching traditional method. Even at present, the ancient Gurukul education system is being continuously followed. The oral methodology in the field of art, culture and literature is intensely effective, disciplinarian as desired. Taking this sequence forward, exhaustive efforts are being made through this session and such seminars to highlight the contribution of our tradition of oral education in modern education.

1 INTRODUCTION

The Faculty Of Technology And Engineering As Its Stands Today Was Formed Along With The Establishment Of The Maharaja Sayajirao University In 1949. It Is An Outgrowth Of What Was Popularly Known As The Kala Bhavan Technical Institute (Kbti) Established In June 1890 By Late His Highness The Maharaja Sayajirao Gaekwad Iii Of Baroda State. Initially The Idea Was To Teach Drawing, Bleaching, Dyeing, Calico Printing And Carpentry, Thus Starting The School Of Weaving In The Year 1897 Which Subsequently Expanded To A Course On Dyeing. Prof. T. K. Gajjar Was The First Principle Of Kbti Who Built It With Passion.

Post Indian Independence, Since 1949, The Continued Academic Growth Resulted In The Creation Of 14 Departments, A Huge Workshop, A Library And Several Buildings Which Were Possible Due To The Financial Support From Various Government Organizations Like Ugc, Mhrd, Dst, Aicte And Financial Aid From Undp, Usaid, Etc. And Due To The Dedicated Efforts By The University, Deans And Teachers Of The University. Located On An Area Of 17 Acres, The Faculty Of Technology & Engineering Boasts Of A Heritage Structure, Spacious Class Rooms And Modern State Of Art Laboratories. The Total Number Of Academic Programes Across The 14 Departments Is 45 Including The Undergraduate (Be), Post Graduate (Me) & Applied Science (Msc). The Be Program Is Among The Most Sought After In The State Of Gujarat. Apart From These Degree Programs, All Departments Offer Phd Degrees With Guiding Faculty From Reputed Institutes Of India. Recognizing The Teaching And The Academic Standards Of The Faculty, Various Private Industries And Also Government Of Gujarat Have Instituted Centres Of Excellence In The Faculty. These Are The Siemens Centre For Industrial Automation, Anchor Institute For Textile Engineering, Centre Of Excellence In Polymers And Centre Of Excellence In Industrial Mathematics.

The Training And Placement Office Of The Faculty Facilitates The Employment Of The Graduates And Post Graduates Of The Faculty. Apart From Pursuing Academics The Students Of The Faculty Are Active In Other Spheres Of Human Life. 'Footprints'' Is The Largest Technical Extravaganza Of Gujarat And Is Organized Every Year Since More Than A Decade. This Technical Event Is Entirely Organized By The Budding Engineers Encouraging Them To Think Beyond The Closed Classroom Teaching. On The Other Hand "Paramarsh" Is The Largest Non-Technical Event In The State Of Gujarat. "Paramarsh" Aims At Installing Qualities Like "Leadership", 'Spirit Of Adventure', 'Team Spirit" Among Other Qualities Essential To Build An All Round Personality Of The Students. One Of The Unique Events Organized By The Students Is 'Prerna" , A Social Event Organized At The National Level To Showcase The Abilities Of The Differently Abled Students.

1	Amrit Sarovar Mission - Internship	Mission Amrit Sarovar – Jal Dharohar Sanrakshan". Honorable Prime Minister, as part of the commemorative celebration of the 75th anniversary of our independence, envisioned protecting traditional water bodies for ensuring water security of cities by involving youth and the community. Bearing this vision in mind, the Government of India has launched 'Mission Amrit Sarovar – Jal Dharohar Sanrakshan'. In this process, we got the opportunity to participate in "Mission Amrit Sarovar – Jal Dharohar Sanrakshan". We have studied the allocated waterbody known as SURSAGAR in Vadodara, Gujarat. We are a group of urban planning, urban designing, architecture, and engineering students, and a faculty member as Institute Nodal Officer(INO). The team of 15 students and an INO (Institutional Nodal Officer) mapped a culturally and historically significant water body known as SURSAGAR located in Vadodara. 2	REFLECTION 2023, The human mind enables us to feel a whirlwind of emotions and each emotion is felt and expressed in its own special way. As we magnify this journey of expression, there exists a stage full of chaos consisting of valuable emotions, imaginations and thoughts. They are a representation of possibilities that explore the past and imagine the future. Imaginations when tinted with such emotions remain the foundation of marvelous outcomes for a designer. They might be contrasting, confusing or even deranged. Therefore, refining them, defining them and shaping them with an outline of practicality is a process of utmost importance. Contouring these precious imaginations with all the sensitivity one possesses for an impactful outcome, is what we wish to inculcate, achieve and address this year. 25 B. Computer Centre

INTRODUCTION

The Computer Centre was established at The Maharaja Sayajirao University of Baroda in the year 1979. Computer Centre became a central facility with the assistance from the University Grant Commission (UGC), New Delhi and installation of IBM/360 system was made initially. During early years, research students and teachers were using the University Computer Centre for research data processing work. Further on, Computer Centre had started to undertake job works for different industries like Oil & Natural Gas Corporation (ONGC), Gujarat Electricity Board (GEB), and Indian Petrochemicals Corporation Limited (IPCL) etc. In 1999, the activities of the Computer Centre underwent a major reorganization with the establishment of a branch in the University Office premises for the purpose of administrative convenience, which was meant to take care of the automation of various university operations of Exams, Accounts and Administration. The original premises at the D. N. Hall embarked upon a major developmental agenda involving the establishment of network facilities, providing internet connectivity, deployment of web-based services and training of manpower and as facilitator for international academic interactions. In September 1999, a central facility for internet surfing SURFLAND was started at Computer Centre. During the past years, with the development in technology, the Computer Centre had upgraded hardware and software from the grants received from the UGC and different Five-Year Plan grants from the state government and other government funding agencies.The Computer Centre had widened its scope of activities and started to computerized university applications like Examination Result Processing System, Payroll System, and Provident Fund Accounting System and many more for smooth and digitized administration and functioning of the University.

Since 2021, Computer Centre has implemented its in-house developed ERP software MSU-IS as service for students, faculty and staff covering entire student life cycle at University. The in-house developed MSU-IS is designed according to University rules and ordinances. Moreover, it has flexible design which can be blended to adapt any future requirement to make system ready for NEP 2020. Along with this Computer Centre also developed Annual Report Management System(ARMS) that provides every minute academic related reports. The Audit and Account Management System (AMS) is another key important software that manages financial administration of the University. For examinations management and renumeration processing Computer Centre has developed MSU Exam Portal (MEP).

The Computer Centre has been the hub of the computer related activities of the University since its inception. The Computer Centre has been managing and administrating entire network of the University using both wired and wireless connections and makes sure that campus is connected 24 by 7 for its students, staff and all other stake holders.

BEST ACTIVITIES

1. STUDENT LIFE CYCLE MANAGEMENT SYSTEM (MSU-IS & MULYANKAN)

A. MSU-IS: It is a single integrated system that provides complete student life cycle for university students. MSU-IS integrates more than twenty systems that includes application process, admission process, profile management, academics, examination, audit, fees payment, ID card generation, certificate request, result processing and many more. The major advantage of this system is that since it is developed inhouse it is fully customizable as per university

requirements. The system is secured and uses AWS services to ensure 24 X 7 availability for its students, staff, and all other stake holders. MSU-IS is considered as one pf the best practice of the university to become digitally self-reliable.

B. **Mulyankan:** A software project for exam event configuration, examination management, marks entry portal, result processing, tabulation sheet generation, marks-sheet generation, degree certificate generation and various statistical reports of the students at the university.

2. ePraman Patra (online document requesting system)

In the present academic year ePraman Patra online portal was developed as per the advice and guidance of HonourableVice Chancellor to facilitate current and passed out students to receive various academic documents through online request mode. The students can apply for various documents like transcript, medium of instruction certificate, passing certificate, rank certificate etc online through this portal. On successful request concerned Faculty/Section will issue the required certificate. This certificate can be availed at any corner of the world through postal service and students can also physically collect the same as per their required choice. The ePraman Patra facility is available for all students since date of inception of the University.

3. ANNUAL REPORT MANAGEMENT SYSTEM (ARMS)

Thissoftware project provides quick access to university data on a single platform, saving a lot of tedious paper works and provides various types of reports like Annual Report of the University, Annual Quality Assurance Report (AQAR), NAAC Report, Teachers Biodata/CV, QS Ranking, Times Higher Education Ranking, National Institutional Ranking Framework etc. Currently more than 1957 profiles of university teachers are maintained in ARMS, and the profiles are also directly linked to MSU main website. For the current academic year at university level ARMS reported statistic of total 361 events, 65 faculty awards, 32 extension activities carried out, 17 patents, 81 research projects, 41 scholarship awarded, 88 books published,765 articles published,332 paper presented and 286 invited talks. There are total of 42 different categories for which data are preserved academic year wise and can be easily obtained whenever required.
In the present year functionality of Qualitative Matrix at faculty level was developed to gather NAAC related qualitative information at faculty level. This functionality and its reports were very much helpful in gathering all the required data on single click at this online platform.

4. AUDITAND ACCOUNT MANAGEMENT SYSTEM (AMS)

The software provides effective automation of old manual billing process and keeps complete track of the budget and bill generation along with budget distribution under various budget heads over entire university. It also restricts overspending of budget, generates various reports required at different levels and fastens the complete bill processing task. In the current academic year more than 5907 regular bills and 1892 higher payment program bills were processed using this system. All the bills are stored digitally and can be viewed at any point of time in future for audit.

5. MSU EXAMINATION PORTAL (MEP)

This portal manages examiner appointments, paper checking record and calculation of examination remuneration of respective teachers for theory as well as practical/viva/project examinations, including various reports in required formats.

6. INTERNET AND INTRANET CONNECTIVITY

Computer Centre manages internet and intranet connectivity through wired and wireless networks. For internet connectivity,bandwidth received from NKN is distributed through wired and wireless networks of the University. Intranet is used for internal software's of the University. The connectivity is made available to entire campus of the University, which includes faculties, colleges, institutions, centres, sections and hostels.

जनजाति समाज और स्वतंत्रता संग्राम

भारत का जनजाति समाज अपनी आध्यात्मिक परम्पराओं विशिष्ट संस्कृति और श्रेष्ठ जीवन मूल्यों के साथ सदैव से भारतीय सभ्यता और संस्कृति का अभिन्न अंग रहा है। जब जब देश की सुरक्षा पर संकट आया जनजाति समाज ने अपने शौर्य और बलिदान से राष्ट्र की रक्षा में अपना महत्वपूर्ण योगदान दिया है।

जब अंग्रेज़ी शासन ने भारत में अपने साम्राज्य का विस्तार करना प्रारम्भ किया तो उन्हें सबसे प्रारम्भिक और सशक्त चुनौती वनवासी अंचलों से ही मिलना प्रारम्भ हुई। जनजाति समाज ने कभी भी अंग्रेजों की दासता को स्वीकार नहीं किया और समय समय पर सशस्त्र विद्रोह और संघर्ष किया।

चाहे तिलका माँझी के नेतृत्व में पहाड़िया आंदोलन हो, कोया जनजाति का विद्रोह हो, कोल जनजाति द्वारा सशस्त्र संघर्ष हो भगवान बिरसा मुंडा के नेतृत्व में संघर्ष हो, सिद्धू-कान्हू के नेतृत्व में संथाल आंदोलन हो, भीलों के विभिन्न आंदोलन हों, मानगढ़ का बलिदान हो, रानी गाइदिन्ल्यू के नेतृत्व में नागा आंदोलन हो अंग्रेजों के विरुद्ध जनजाति समाज के संघर्ष और बलिदान की एक समृद्ध परम्परा रही है।

संगठित आंदोलनों और विद्रोहों के अतिरिक्त जनजाति समाज द्वारा वैयक्तिक बलिदानों की भी एक लम्बी श्रृंखला रही है। हज़ारों नाम तो ऐसे हैं जिनका बलिदान इतिहास के पन्नों में दर्ज ही नहीं हो पाया। आज भी जनजाति समाज में ऐसे अनेक लोकगीत और कथाएँ प्रचलित हैं जो अंग्रेजों के साथ हुए समाज के संघर्ष को रेखांकित करते हैं।

राष्ट्रप्रेम से ओतप्रोत जनजाति समाज द्वारा किए गए संघर्ष और बलिदान को शत् शत् नमन।

प्रिय छात्रों,

अत्यंत हर्ष का विषय है कि हम सब इस वर्ष आज़ादी का अमृत महोत्सव मना रहे हैं। यह एक स्वर्णिम अवसर है जब हम स्वतंत्रता प्राप्ति के लिए हुए संघर्षों और बलिदानों को याद करें। उन वीरगाथाओं का पुनर्पाठ करें।

हम सब जानते हैं कि स्वतंत्रता संग्राम में जनजाति समाज का अविस्मरणीय योगदान रहा है। संगठित विद्रोहों के अलावा भी हज़ारों वैयक्तिक बलिदान हुए हैं।

स्वतंत्रता संग्राम में जनजाति समाज के योगदान और जनजाति नायकों के बलिदानों को जनजाति समाज की युवा पीढ़ी के साथ साझा करने के लिए देश भर में 100 से अधिक विश्वविद्यालयों में **"स्वतंत्रता संग्राम में जनजाति नायकों का योगदान"** विषय पर कार्यक्रम आयोजित हो रहे हैं।

आइए अपने विश्वविद्यालय में होने वाले इस महत्वपूर्ण कार्यक्रम में अपनी सहभागिता सुनिश्चित करें। अपने पूर्वजों की वीरगाथाओं को सुनें, उनके बलिदानों को जानें और स्वयं में अपने समाज के प्रति गौरव का भाव जागृत करें।

साथ ही यह एक अवसर भी है जब हम अपने पूर्वजों की परम्परा का निर्वहन करते हुए राष्ट्र की रक्षा, उन्नति और विकास में स्वयं की भूमिका का संकल्प लें।

4. Chapter on Maharaja Sayajirao Gaekwad-III to be included in GSHSEB Syllabus.

Shri Sayaji Pratishthan has prepared a chapter on Maharaja sayajirao Gaekwad-III which we are trying to send it to Gujarat Education Board. This chapter is prepared in such a way that, Students from 6^{th}-9^{th} standard can understand. Our main motive is to spread awreness about the public work carried by our Maharaja Sayajirao Gaekwad-III.

Maharaja Sayajirao Gaekwad III

- Dr. Anita Shukla
Department of Hindi,
The Maharaja Sayajirao University of Baroda, Vadodara

Maharaja Sayajirao Gaekwad (III) was a plausible king. He was born on 11th March 1863 to Mr. Kashirao and Umabai Gaikwad and was named - Gopalrao. Gopalrao's elder brother's name was Anandrao and younger's name was Sampatrao. Mr. Kashirao Gaikwad lived in Kavalana, a small village near Malegaon in Nashik district with his wife and a family of three children and supported himself and his family by doing agriculture and animal husbandry.

It is said that in 1817, Bhikaji, the grandson of Kaloji, had bought a small piece of land, a house and the *Patelai* of the village Kavalana and settled there permanently. Bhikaji had five sons – Gabajirao, Baburao, Kashirao, Ukhajirao and Sakharamrao. The third son of Bhikaji, Kashirao Gaekwad was the father of Shrimant Maharaja Sayajirao Gaekwad (III).

After the dethroning of Maharaja Malharrao, when RajmataJamnabai started searching for a child to adopt, it was found that the Royal family of Baroda and the Gaekwad branch of Kavalana are closely related. Rajmata immediately called three teenagers from Kavalana – Dadasaheb, Gopalrao and Sampatrao to Baroda. Gopalrao was selected for adoption through a special interview process and on May 27, 1875, in a grand ceremony, he was declared the heir to the Baroda State and according to tradition, the young Gopalrao was renamed Yuvraj Sayajirao (III).

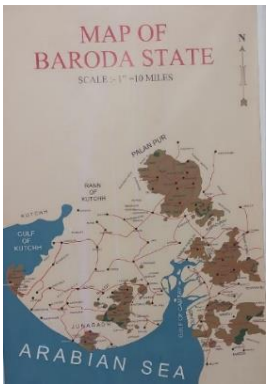

Rajmata Jamnabai arranged for the education of Yuvraj Sayajirao by consulting Sir T. Madhavrao, the then *Dewan* of Baroda State. Yuvraj's early education was arranged in *Juna Rajwada* and the responsibility of imparting him the knowledge of Marathi and Gujarati was entrusted to Mr. Keshavlal Pandit, Mr. Venkatesh Joshi and Ratanram Master. Later, an independent school building was constructed in Motibagh Palace and Mr. F. A. H. Elliot was appointed as the headmaster. After teaching language, literature, policy education to the crown prince till 1880, he was given administrative training for one year. In this way, Rajmata Jamnabai and Sir T. Madhavrao will always be remembered for the overall education of Yuvraj and the development of his multifaceted personality.

Yuvraj Sayajirao was diligent, disciplinarian, dutiful and kindhearted. His favorite subject was History. He was always eager to know the political, industrial, and scientific developments of the country and abroad. He used to put his heart and soul in every work and was determined, thoughtful and prudent by nature. These characteristics of his nature later made him a popular king and plausible *Samrat*.

After the completion of administrative training, in December 1881, Yuvraj Sayajirao was enthroned in a grand ceremony at the tender age of 19 years. This was the time when the consciousness of Indian society was taking a new shape. Movements for cultural awakening were started by many social-reformers and great men in the country. The struggle for independence was at its peak. A new consciousness was arising in the entire nation. It was also a period of renaissance for the state of Baroda.

Meanwhile, in the year 1880, he got married to Ku. Lakshmibai, the daughter of Sardar Haibatrao Narayanrao Mohite of Thanjavur, and after marriage Maharani was named Chimnabai, popularly known as Chimnabai I. In August 1883, Maharaja & Maharani were blessed with a son, who was named Fateh Singh Rao. Two years after the birth of their son, the Queen fell prey to tuberculosis and died in May 1885. This was an unexpected blow for the Maharaja engaged in state work. On December 28, 1885, Maharaja's second marriage took place with Gajrabai, daughter of Sardar Bajirao Ghadge of Dewas. After marriage, she was also named Chimnabai. She is known as Chimnabai II. Maharani Chimnabai II gave birth to three sons and a

daughter, whose names were Jaisinghrao, Shivajirao and Dhairyasheelrao respectively and the daughter was named Indiraraje. His descendants are still living in Baroda.

As soon as he took the reins of the state's power in his hand, the king first tried to know the real life and problems of his subjects by traveling across the state. By his benevolent behavior, he established a relationship of mutual trust and intimacy between the king and the subjects. He made many reforms related to religion, society, education, and administration during his reign. He traveled abroad and left no stone unturned to implement whatever he liked during his travels in his state. He deeply studied the scientific-industrial progress of the west andmade continuous reforms in his state for the welfare and progress of his subjects.

For the upliftment of the untouchables, he opened schools and hostels, provided them with necessary facilities related to education, organized feasts for them and gave scholarships to talented children and sent them abroad to study. The Maharaja took upon himself the responsibility of higher education of Babasaheb Bhimrao Ambedkar and sent him to study at Columbia University in the United States by providing him a generous scholarship and paved the way for his progress.

The Maharaja invited many scholars from India and abroad to his state, including Sri Aurobindo Ghosh, GS Sardesai, Bihari Lal Gupta, Pandit Atmaram Amritsari and RC Dutt to name a few. Impressed by the talent of Aurobindo Ghosh, who returned after studying in England, Maharaja Sayajirao Gaekwad III appointed him as an educationist in his princely state. He worked as a professor and later Vice-Principal in Baroda College and during this time made thousands of student’s characterful patriots. He also served as the private secretary to the Maharaja. The Maharaja encouraged various arts and artists as well, among whom the names of Bal Gandharva, Raja Ravi Verma, UstadFaiyaz Khan, Vishnu Narayan Bhatkhande and Vishnu Digambar Paluskar are notable. Raja Ravi Varma was a painter from the princely state of Travancore and became the royal painter to the Gaekwad family for a few years. He achieved most recognition for his depictions of scenes from the epics Mahabharata and Ramayana.

During his reign the Maharaja carried out several notable reforms; like- widow-marriage law (1901), ban on child-marriage (1904), legalizing sub-caste intermarriages, religious freedom law, compulsory education scheme etc. He had a firm belief that the solution to the sorrows and problems of the people lies in their proper education. The Maharaja was a strong supporter of women's education, and he implemented this idea from his own house by arranging for the education of Maharani Chimnabai. He established libraries in every village and arranged libraries on the go. In 1890, he established 'Kala Bhavan' in Baroda, in which the medium of education of technical subjects used to be the regional language. He understood the importance of mother tongue and that is why he emphasized on making mother tongue the medium of education at the primary level and set the language of administration as 'Gujarati' for his subjects. He made teaching of Hindi language compulsory at primary and secondary levels. To establish unity among the people of India, he understood the importance of an all-India language and considered Hindi suitable for this. Apart from Baroda, he had linked industry with education by opening similar technical schools in Amreli, Navsari, Petlad and Patan. He established Baroda College in 1881. This Baroda College was later established as The Maharaja Sayajirao University of Baroda on 30th April 1949. After this, he established *'Prachya Vidya Mandir*' to preserve manuscripts and established Music College and Government Sanskrit *Pathshala*. The Maharaja took special care of women's education. He believed that when we educate a man, we educate a person, but when we educate a woman, we educate the whole family. That's why he made female education compulsory and free in his state. He gave financial assistance to Banaras Hindu University and supported many other educational institutions. He was the second Chancellor of Banaras Hindu University, when Pandit Madan Mohan Malaviya was the Vice Chancellor.

The Maharaja had made many important administrative reforms during his reign, due to which he gained immense popularity. In these, adoption of land-related *Raiyat* system, separation of jurisdiction of judiciary and executive, revival of village-panchayat system, establishment of Rajya Dharasabha and giving Gujarati language the status of official language of the state can be considered major reforms. Regarding his administrative reforms, Dr. Babasaheb Ambedkar writes that the administrative rules during the Maharaja's time were better than the United States and European countries. Sir T. Madhavrao's book 'Minor Hints' focused on administrative techniques is still used as a guide by administrative officers.

The Maharaja also paid a lot of attention to the development of the state's infrastructure during his reign. He established the Baroda-Bombay and Central-India Railways. In 1892, the water supply system for Baroda was constructed in Ajwa. Even today this dam is the main source of drinking water supply for a large part of Baroda city. For irrigation and drinking water supply, the Maharaja got such dams constructed in his entire Baroda State. He developed industries for trade and economic prosperity. He also founded the 'Bank of Baroda', which has made a distinct identity as India's international bank.

Maharaja Sayajirao Gaekwad III was a great nationalist ruler. He also played an important role in the freedom movement of the nation. The British kept a close watch on him, but regardless of this he kept in touch with leaders like Gopal Krishna Gokhale, Bal Gangadhar Tilak, Dadabhai Naoroji, Madan Mohan Malviya, Mahatma Gandhi and Sardar Patel and shared his thoughts with them. He always talked about a strong and united India. He also kept in touch with the revolutionaries and used to give them moral and financial support.

The Maharaja left for heavenly abode on 6th February 1939, leaving a rich legacy to the Baroda State.

We are attaching a chapter prepared a chapter on Maharaja Sayajirao Gaekwad-III in three different language Hindi, Gujarati and English send it to the Education Department, Education secretary and syllabus committee from University side.

EVENT HIGHLIGHTS :

The four day lecture series on Sankhyayog Darshan was organized by the Centre for Theoretical Studies and Institute of Governance and Leadership of Sayajirao University.

Prof. Markandey Nath Tiwari, Sankhya Yog Department, Shri lal Bahadur Shastri Kendriya Sanskrit Vidyapeeth, New Delhi, was keynote speaker of this lecture series. With his interesting and factual statement he explained meaning important and relevance of Sankhyayog Darshan. He further explained The Sankhyas are dualists in that they believe in two eternal realities, purusha (the Self) and prakriti (matter or the primal creative force). The Sankhyas believe that beings are trapped in the recreation cycle, or samsara, because they do not understand the transforming nature of prakriti as separate from purusha. Liberation from samsara is achieved with the help of a guru when the yogi learns to let go of attachment.

He further said that Sankhya teaches us about the components of the body, mind, and spirit, from the gross elements that make up the physical body to the more delicate elements of the mind and consciousness.

COASTAL SECURITY IN THE SAURASHTRA REGION OF GUJARAT: MAJOR ENVIRONMENTAL CHALLENGES AND ISSUES

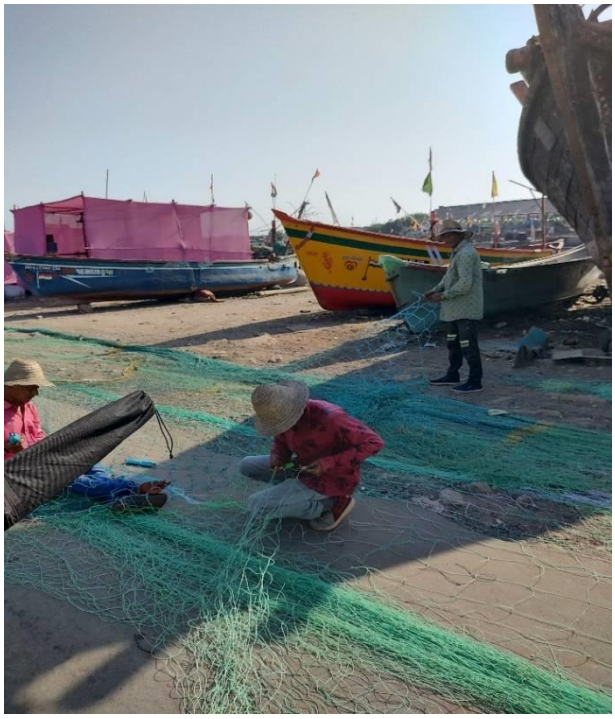

I. Project Background:

Gujarat, located on the western coast of India, possesses the longest coastline among all Indian states, measuring nearly 1600 km. The Arabian Sea surrounds the coastline. In the era of economic interdependence and globalization, Gujarat has emerged as an important linking node of the existing Sea Line of the Communication (SLOC) across the seas. It is near the outlet to regions of West Asia, Africa, and Europe on its western flank. Gujarat has one major port at Kandla (Deendayal Port), while it also possesses 48 non-major ports, including a ship recycling yard at Alang and another at Sachana. Based on the coastal region's wetland and landform, the Gujarat coast is fundamentally divided into three parts: the Rann of Kutch, the Saurashtra coast, and the Southern Gujarat coast. The Saurashtra region constitutes the largest section of the Gujarat Coast. The Saurashtra region consists of 11 districts: Amreli, Bhavnagar, Botad, Devbhoomi Dwarka, Gir Somnath, Jamnagar, Junagadh, Morbi, Porbandar, Rajkot and Surendra Nagar. Out of these, Jamnagar, Devbhoomi Dwarka, Porbandar, Junagadh, Gir Somnath, Amreli and Bhavnagar are the coastal districts. The Saurashtra region is bounded on the north by the Rann of Kutch's great wetland, on the northwest by the Gulf of Kutch, west and south by the Arabian Sea, and the south-east and eastern side of Gulf of Khambhat.

Gujarat has emerged as a leading torch-bearer of India's economic growth during the last three decades. Gujarat ranks first in terms of cargo throughput, in which non-major ports/private port operators play a significant role. The state has the highest number of operational and commercial cargo ports. Gujarat state ports have seen a phenomenal rise in traffic and capacity of port trends in the last 15 years. The share of Gujarat among the traffic handled by non-major ports in India increased to nearly 71 percent in the year 2017-18, whereas among the total Indian port traffic, Gujarat's ports commanded more than 40 percent of the share in the year 2017-18, including the major port Kandla (Deendayal Port). Gujarat is home to Mundra Port, India's leading private port in terms of traffic handled, installed capacity, and Kandla (Deendayal Port), which is the leading Central Government port in terms of traffic handled.

The Saurashtra region is host to a range of economic activities due to its proximity to the Arabian Sea, including noteworthy strides in the areas of agriculture, manufacturing, port-related activities, mining and quarrying, salt production, fishing and aquaculture tourism. Gujarat government's port-led infrastructure development policy has provided the further value-added impetus to attract investment in infrastructure development and allied regional connectivity projects. Despite their positive impact on Saurashtra's regional economy, these economic developmental activities also produced some environmental and ecological challenges to the health of the region's coastal areas. In addition to such pressure, the climate-related changes and their negative impact on the coastal areas, such as sea-level rise, tropical cyclones, drought, flood, coastal erosion, and so on have emerged as potential challenges to the physical environment as well as coastal communities. Therefore, it needs focused efforts to explore and understand the nature and sources of environmental challenges and issues of disaster management in the Saurashtra region and their implications and impact on the coastal and community security in the region.

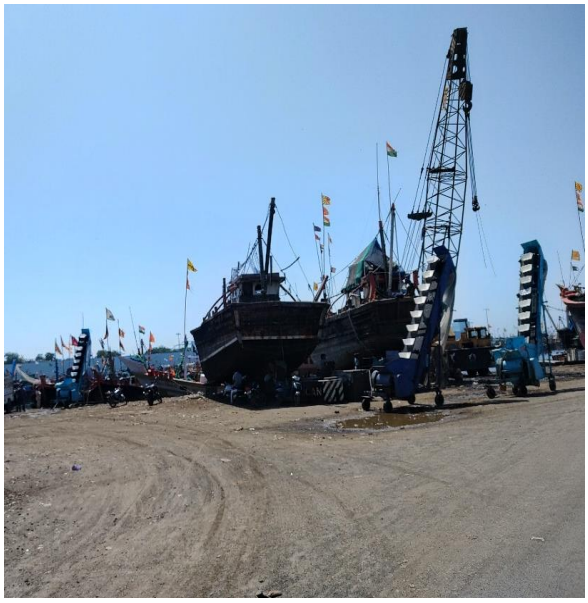

Several human and economic activities have also led to the emergence of coastal issues and potential threats to the environmental security of the Saurashtra region. These economic activities include illegal mining, dredging, reclamation of seaward side, effluent discharge into estuary areas, coastal erosion, heavy construction activities relating to ports, oil terminals, chemical industries, pipelines, oil refineries and oil spilling due to offshore and onshore oil exploration, etc. These economic activities pose challenges to the very survival of different species of fish as well as their availability along the coast. Thus, it is important to approach the environment and disaster management issues through the perspective of coastal security. It is also equally important to promote sensitization, awareness and capacity building of the various stakeholders and develop the corrective measures to promote sustainable development along the Saurashtra coast of Gujarat.

On the national security front, the Saurashtra region has always been vulnerable to sub-conventional threats. Over the years, the coast has witnessed different kinds and scales of threats like the smuggling of gold, narcotics substances, and infiltration. The existing threats and challenges have further intensified the Gujarat Coast's vulnerability due to a host of factors. The topographical composition, geographical location, strategic installation and maritime economic activity are prime factors that have influenced the overall state of coastal security and vulnerability of the Gujarat coast. Various security agencies from the central and state government have been involved in countering these sea-borne threats. However, the 26/11 terror attack on Mumbai exposed the existing loopholes in the coastal security mechanism. Since then, the coastal community's role and importance, especially the fishing community, have been considered central to India's coastal security approach. Different operational agencies of the government have recognized the fishing community as 'eyes and ears' of coastal security. As a result, various security agencies, especially the Indian Navy, Indian Coast Guard and Gujarat Marine Policy have undertaken various measures to sensitize fishermen, build their capacity and integrate them into the mechanism and processes

of coastal security. Initially, conventional coastal security was the prime motivating factor for strengthening the bond between the various stakeholders of the coastal areas and the security agencies. However, the scope of this bond has further expanded in the wake of climate change and man-driven ecological challenges to the coast. It includes a series of measures undertaken to improve the surveillance and crisis response capability of various security agencies in the coastal areas, it includes installing a three-tier security arrangement, creating marine police stations and surveillance infrastructure under the Coastal Security Scheme (CSS), commissioning a chain of radar systems along the coastline and establishing a Joint Operation Centre (JOC) and installation of Automatic Identification Systems. The Government of India has substantially improved the coastal security architecture to deal with the conventional and sub-conventional security threats. However, issues related to environmental security, including various disasters like oil spills have not received much attention.

III. Key Objectives of the Project:

1) Collection and analysis of qualitative and quantitative data relating to the major environmental issues and challenges facing the coastal Saurashtra region in the context of the conceptual framework of coastal security
2) Sensitization, awareness and capacity-building of different stakeholders regarding major issues of environmental security, including the pertinent aspects of conventional security, in the coastal Saurashtra region.
3) Deliberation and consultation with experts, practitioners, civil society representatives, officials of the concerned security agencies, etc. on the identified threats, challenges and issues relating to the environmental and coastal security in the Saurashtra region and formulation of policy-relevant and actionable recommendations.
4) Dissemination of the data collected and analyzed, outcomes of the deliberations held, and policy-relevant recommendations to the multi-stakeholder community.

5) Preparation of a digital app for aiding the fishing activity in the coastal region of Saurashtra with respect to non-conventional security challenges.

IV. Project Activities and Methodology:

The above-mentioned central objectives of the proposed project will be met through various methods, activities and tools. The project's activities will be based on a blend of field-based qualitative and quantitative methods. Due to the very nature of the core theme, all activities relating to the project would adopt an interdisciplinary framework.

1. Collection and analysis of qualitative and quantitative data relating to the major environmental issues and challenges facing the coastal Saurashtra region within the conceptual framework of coastal security

2.Sensitization, awareness and capacity-building of different stakeholders on major issues of environmental security, including the pertinent aspects of conventional security, in the coastal Saurashtra region

3. Deliberation and consultation with experts, practitioners, civil society representatives, officials of the concerned security agencies, etc. on the identified threats, challenges and issues relating to the environmental and coastal security in the Saurashtra region and formulation of policy-relevant and actionable recommendations.

4. Dissemination of the data collected and analyzed, outcomes of deliberations held and policy-relevant recommendations to the multi-stakeholder community.

V. FIELD WORK IN SAURASHTRA

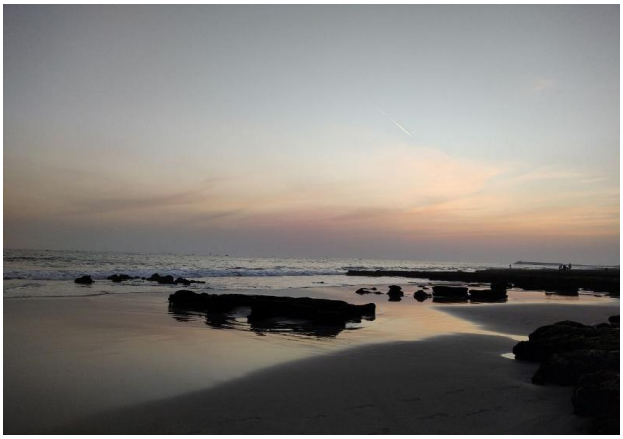

The field work for the Coastal Security Project was undertaken with the purpose of collecting primary and secondary data from the districts spread across coastal Saurashtra. Data collection in the form of interviewing the government officials and major stakeholders who

were relevant to the project in that particular district, Focus Group discussions with major stakeholders, visit to sites and places which were important in order to verify the facts in the project and conduction of sensitization and Capacity building programs with Fishermen in the particular districts was done. SENSITIZATION AND CAPACITY BUILDING PROGRAM IN VERAVAL, GIR SOMNATH:

A capacity building, sensitization and awareness program was held with the local fishermen of Veraval, Gir Somnath. The interactive sensitization program was held in the port area in Veraval, whereby, we interacted with around 25-30 fishermen. In the capacity building program, we began by introducing the project and the deliverables of the project. Thereafter, we conducted an interactive session whereby we tried to understand the challenges faced by the local fishermen on their coast, both conventional challenges as well as non-conventional challenges. We tried to keep the discussion as interactive as possible in order to gather information for the project as well. There was a positive response

on part of the fishermen in the session. The fishermen were open to new ideas and possibilities and the lengthy session ended on a positive note of positive exchanges of new thoughts, ideas and vision. They were sensitized about the environmental challenges in the coming years, mainly with respect to climate change at large. They were introduced to alternatives employment opportunities and jobs in the districts, based on our discussion with other experts in the past.

The speakers in the program were **Ami Merwana, Research Associate**, Atal Bihari Vajpayee Institute of Policy Research and International Studies, Maharaja Sayajirao University of Baroda (AIPRIS, MSUand **Vijayasree Vishwanath, Project Fellow**, Rastriya Raksha University (RRU).

SENSITIZATION AND CAPACITY BUILDING PROGRAM IN PORBANDAR TALUKA, PORBANDAR:

A capacity building, sensitization and awareness program was held with the local fishermen of Porbandar taluka, Porbandar on the Port/Bandar Area. The interactive sensitization program was held in the port area, whereby, we interacted with around 20 fishermen. In the capacity building program, we also conducted an interactive session whereby we tried to understand the challenges faced by the local fishermen on their coast, both conventional challenges as well as non-conventional challenges. We got to know that every coast of the district had different challenges. The discussion was kept as interactive as possible in order to gather information

for the project as well. During the sensitization program, we realized, that the challenges faced by the Fishermen in Porbandar were very different as compared to challenges faced by Fishermen in Veraval and Okha. This it made us realize that there is a need for a more customized approach when it comes to the recommendations to be included in the final project report. The fishermen were open to new ideas and possibilities and the lengthy session ended on a positive note of positive exchanges of new thoughts, ideas and vision.

The speakers in the program were **Ami Merwana, Research Associate**, Atal Bihari Vajpayee Institute of Policy Research and International Studies, Maharaja Sayajirao University of Baroda (AIPRIS, MSUand **Vijayasree Vishwanath, Project Fellow**, Rastriya Raksha University (RRU).

VI. Significance and Benefits of the Project:

- Data generated through fieldwork in the region and their analysis will help develop an evidence-based understanding of the major environmental challenges in the region. The results will be of interest to a diverse set of academic professionals, policymakers and members of the fishing community. This exercise will also help develop the research capability of the postgraduate and research students concerning the methodology of data collection and analysis.
- Insights and specific recommendations emerging out of the project activities would help policymakers prepare the short and long-term roadmap for tackling the environmental and coastal security challenges in the Saurashtra region.
- Participation of and consultation with the officials of the security agencies like the Indian Coast Guard and the Marine Police would help generate insights that are useful both for the security agencies as well as for other stakeholders of the coastal security regime in the Saurashtra region.
- Awareness, sensitization and capacity-building of the fishing communities concerning the major environmental challenges in the coastal Saurashtra will have potential short and long-term implications for their

food security and survival and also enable them to practice sustainable fishing practices and methods.

- As the focus area of the project lies at the interface of different disciplines, spanning the fields of environmental studies, zoology, geography and social sciences, the project would help reorient academic studies towards the much-needed unconventional interdisciplinary direction.
- The development of a digital app will be a long-term deliverable of the project and will help the fishing community in the coastal areas of Gujarat in meeting some of the non-conventional security threats and have safe fishing activities.

Role of Women in Community Policing in the Selected Tribal Areas of Gujarat

The tribal areas constitute about 18 percent of Gujarat's geographical space while the tribal communities make up 15 percent (about 1 crore) of the state's population. Due to a variety of reasons, the tribal areas have not kept pace with other parts of Gujarat in terms of economic, social and educational development. These areas lag behind the rest of the state on most socio-economic parameters like poverty, literacy, infant mortality, health, nutrition, etc. Women in tribal areas in Gujarat also lag far behind men with respect to socio-economic parameters. They face several challenges in the domestic, social, economic and political spheres.

Tribal women are victims of a range of social, economic, and political problems like child marriage, branding and torturing women as witches, human trafficking, high infant mortality, maternal health issues, illiteracy, malnourishment, loss of livelihood sources, lower representation in decision-making bodies, etc. Gujarat's tribal areas have a relatively high rate of gender-based crimes like rape, domestic violence, human trafficking, torture of women in the name of witch-branding, infanticide, homicide, etc.

Community policing has been applied as one of the strategies of addressing the gender gaps in conventional policing and reducing crime against women. The idea of community policing has

emerged out of the human security paradigm. It is a strategy of promoting partnerships between the police force and common people with the fundamental objective of prevention and reduction of crimes. It adopts a problem-solving approach to prevent crime rather than the traditional reactive approach after the crime has occurred. It proactively addresses the immediate conditions that give rise to crime and social disorder by collaborating with the communities through individuals as well as through NGOs and civil society organizations. Community policing envisages that the police force becomes more inclusive and equity-driven. Hence, recruiting women in the police force in substantial numbers and giving them key roles and functions within the police organization is an important component of community policing models. The role of women in community policing has gained momentum in recent decades.

This project is aimed at examining the relevance and strategies of community policing for controlling and reducing gender-based crimes in the tribal areas of Gujarat. It would adopt evidence-based analysis to formulate policy-relevant and actionable recommendations. The project is conceived both as a research-based academic study and as a practical intervention aimed at cultivating sensitization and awareness about prevention and containment of gender- based violence against women in the state's tribal areas through a set of appropriate community policing strategies. The project would consider all three components

that constitute the core of community policing, i.e., organizational transformation, community participation and shared problem-solving. The data and deliberations forming a part of the project would be based on the idea of community policing more as a philosophy than as a government programme.

The key objectives of the project are:

- Collection and analysis of qualitative and quantitative data relating to crimes against women in the select tribal areas of Gujarat, the status of community policing in these areas and formal participation of tribal women in the police force
- Sensitization, awareness and capacity-building of different stakeholders regarding major issues relating to the role of community policing in the prevention and control of crime against women in the state's tribal areas
- Deliberation and consultation with experts, practitioners, civil society representatives, officials of the concerned state agencies, etc. on the role of community policing in the prevention and control of crime against women in the tribal areas of Gujarat and formulation of policy-relevant and actionable recommendations in this regard
- Dissemination of the data collected and analysed, outcomes of the deliberations held, and policy-relevant recommendations to the multi-stakeholder community
- Preparation of a digital app for assisting the civilian population in implementing the community policing strategies for reducing gender-based crimes in the tribal areas

The field work for the Community Policing Project was undertaken with the purpose of collecting primary and secondary data from the districts spread across the selected tribal areas of Gujarat. Data collection in the form of interviewing the government officials and major stakeholders who were relevant to the project in that particular district, Focused Group discussions with major stakeholders, visit to sites and places which were important in order to verify the facts in the project and conduction of sensitization and Capacity building programs with tribal women, girls and the community in

SENSITIZATION AND AWARENESS PROGRAMS IN NARMADA DISTRICT

On Tuesday, 8th August 2022, the Research Team of Rashtriya Raksha University (Institute of National Importance under the Home Ministry) and the Atal Bihari Vajpayee Institute of Policy Research and International Studies, MSU conducted a one-day Sensitization Program on ***'Crime against Women and Community Policing'*** in the Narmada District of Gujarat. The program was conducted under the joint project 'Role of Women in Community Policing in the Selected Tribal Areas of Gujarat', in collaboration with **Shroff Foundation.**

Around 20 young tribal women and men took active part in our program. The Shroff Foundation Centre at Dediyapada, Narmada district is a skill development center for tribal women, whereby skills related to stitching and knitting are imparted in them for their financial independence and empowerment.

The objective of the program was to disseminate information regarding types of crimes against women, gender-based crimes against women, major crimes against women in Gujarat, safety of women and girls, importance of education and employment, community-police relationship, existing community policing strategies by the Government of Gujarat, the importance of role of women in community policing, and encouraging young women to join police force.

Keeping in view the set objectives, the program was divided into three technical themes: short film screening, open discussion, and interactive sensitization session. The film screening involved three short films on types of violence against women, good touch bad touch and awareness on one of the Gujarat's successful community policing strategies as Abhayam 181.

With the interactive session the awareness of the participants was understood and the importance of the role of the youth was discussed. The participants raised their concerns over increase in domestic violence over the past few years and highlighted the positive relationship of the community with the police. The highlight of the program was successful.

SCADR organised Video Making Competition on ADR in collaboration with Nirmaan. Participants submitted videos on various themes of ADR. Submitted videos were evaluated by Ms. Neena Khare and Dr. Suman Kalani.

SCDAR with a view to provide Clinical Education to the students of First Year LL.B, had organized a field trip to the 'Family Court' and 'Mediation Centre'. It is necessary for student to understand the functionality of the family courts while studying the subject Family Law. Also, with an objective that students understand the nature of the dispute that prevails between the parties in family disputes that majorly founded on emotions and sentiments, which could be possibly resolve through Mediation.

27 H. Dr. Vikram Sarabhai Institute of Cell and Molecular Biology

The institute of cell and molecular biology is the youngest and yet the most happening department. We have the advantage of having small but highly motivated group of students. We had over 200 applications for an intake of 41 seats. Of the admitted we have students who are eligible for SHE and the prestigious INSPIRE fellowship. Nearly 100% students went for summer internships to research labs across the country. A student, Smit Kanojia, presented work done in his summer internship at an international conference and won 2nd prize. We have 29 students in our semester 9 all have been accepted for their dissertation in leading institutions. 2 students have gone to Scripps institute USA, 1 to University of Southern California, 2 to University of Tennesse, 1 to Bhabha Atomic Research Center, 1 at Defence Research and Development Organisation, 6 in industry with 4 being at Sun pharmaceuticals, 2 to Center for Cellular and Molecular Biology, Hyderabad; 5 to Indian Institute of Science; 5 to InStem, Bangalore, 1 to University of Delhi; 1 to IIT Gandhinagar and 2 at our own university. The student doing internship at university of Southern California presented her dissertation work at a conference and will soon have a paper in nature communication. She also receives a fellowship of $3200 per month. We arrange talks by many visiting scientists. Dr. Manojkumar Bhat, director NCCS Pune was the chief guest at foundation day September 2022. Dr. Amitava Das, Sr. Scientist IICT Hyderabad, Dr. Srini Subramanium from, Scripps Institute USA, Dr. Kaustubh Sawant, Shomeek Choudhry, Dhairya rajguru were others who gave talks through the year.

The high end research facility housed in our institute continues to generate revenue by charging nominal fee. Of the outsiders using it are scientists from Sun Pharmaceuticals and Navrachana university. Dr. Mayur Sahani of CMB has been granted Rs. 42 lakhs grant for his project from DST. Dr. Mayur and Dr. Prranshu have been selected as mentors for the ECBC program of GSBTM, an initiative to help students test their start up ideas. They got several applications and after thorough screening they have identified 3 candidates who are Mervin Mathew a 5th Semester student from our department, a PhD student from Biochemistry department and a farmer with a great start up idea. Rs. 10 lakhs grant has been received for this initiative.

Our students have done well in extracurricular activities also. In the events held during science faculty student's week our students participated in all events and won many awards. In sports we have students who are on university team; namely; Pooja Rathod in volley ball, Hiya Thakkar in basketball, Swara Shah in chess. 2 of our students Zishan Sheikh and Pooja Joshi are active NCC cadets. Our students also participate in events outside our faculty. Ms. Pooja Joshi won the first prize for judge a book by its cover competition held by faculty of Journalism. Ms. Hemali kahar was judged the best dancer at the Laksmi vilas garba competition.

Overall at our institute teaching, learning and overall growth of students go hand in hand.
