Acknowledgement

First and foremost, my profound gratitude goes to Almighty God for giving me the strength and understanding to complete this work.

I would like to express my sincere gratitude to my Guide Prof. V. O. Thomas for his technical guidance, motivation and moral support throughout this research. His support and inspiration have always helped me a lot in accomplishing this work. Without his supervision the research would not have been completed successfully.

I am deeply indebted to Prof. H. R. Kataria, Vice Dean, Faculty of Science and Head, Department of Mathematics, The M. S. University of Baroda for his continuous support during the research and facilities given in the department. I would also like to thank Dean, Faculty of Science, The M. S. University, Baroda for giving permission to pursue my higher degree from the university and all support to fulfill my documentation requirements. I would like to thank all faculty members of the Department of Mathematics, Faculty of Science, The M. S. University for providing me homely environment to complete my research.

My sincere thanks goes to Prof. R. K. Sharma, Department of Aerospace Engineering, Karunya University, Coimbatore, India for his technical support and sharing his valuable knowledge when and where required in my work. I want to address my sincere thank to Mrs. Pooja Dutt, Applied Mathematics Division, Vikram Sarabhai Space Centre (ISRO), Thiruvananthapuram, India who has provided me the outstanding help during my research work. She has supported me through fruitful technical discussion about the various topics involved in my work. During the course of my work a number of people have provided tremendous help and support, for which I am very grateful. I would like to give my thanks to Dr. Elbaz I. Abouelmagd, Celestial Mechanics Unit, Astronomy Department, National Research Institute of Astronomy and Geophysics (NRIAG). Helwan , 11421, Cairo, Egypt for increasing the quality of my work through fruitful discussions, encouragement, and motivation to pursue my own ideas into the research.

I also deliver my thanks to Dr. Jignesh Pandya, Department of Applied Physics, The M. S. University, Dr. Bharat Ratanpal, Department of Applied Mathematics, The M. S. University, and Mr. Dishant Pandya, Department of Mathematics, PDPU,

Gandhinagar for their support in my thesis writing.

I am also very thankful to Prof. H.M. Desai, Vice-chancellor, Dharmsinh Desai University and Prof. D.G.Panchal, Dean, F.O.T, Dharmsinh Desai University for giving me permission to pursue my research by providing relaxation of work in the department. I would like to express my sincere appreciation to Prof. M. S. Rao, Head, Chemical Engineering Department, Dharmsinh Desai University for assisting me in technical thesis writing. I want to give thanks to my colleague Nirav J. Bhavsar for his continued moral support and encouragement in my efforts of finishing this work with positivism. I am also thankful to Prof. K. N. Sheth, Head, Civil Engineering Department, Dharmsinh Desai University for their support during my research work.

Lastly, I express my sincere gratitude to my parents and sister for their love, patience, and encouragement for inspiring me to pursue my dreams and happiness.

Pathak Niraj Markandbhai
