

LIST OF TABLES

<u>Table No.</u>		<u>Page</u>
2.1	Selected Variables of Climate	80-83
2.2	Significant Relationships between Climate Dimensions and Personality - Value Factors	87-88
2.3	Highest and Lowest Median Scores on OCDQ Sub-Tests Associated with Personality Types of Principals.	91
2.4	Pairs of Personality Types Associated with Significantly Different Median Sub-Test Scores on the OCDQ	92
2.5	Personality Factors of Teachers and Their Perception of School Organizational Climate.	96
3.1	Number of Items in Each Dimension of the OCDQ (Baroda Version)	158
3.2	Range of Person Product-Moment Coefficient of Correlation Between Dimension Total Score and Individual Items Selected for the Final Form of the OCDQ (Baroda Version)	160
3.3	Distribution of Items of the OCDQ - Dimension-wise	161
3.4	Capsule Description of the Sixteen Personality Factors.	164-170
3.5	Test-Retest Reliabilities of the 16 Factors	171
3.6	Comparison Between High and Low Dogmatic Groups on Dogmatism.	177

<u>Table No.</u>	<u>Page</u>
3.7 Region-wise Break-up of the Randomly Selected Sample	179
3.8 Size-wise Break-up of the Sample.	180
3.9 Three Category Division of the Sample	183
3.10 Personal Data Regarding the Teachers	185
4.1 Prototypic Profiles for Identifying Organizational Climate	200
4.2 Illustration of How the School Stanine Score of the School No.1 is obtained	202
4.3 Climate Classifications of the 128 Schools in the Gujarat Sample.	204
4.4 Chi-Square Value of Organizational Climate Types of 128 Sampled Schools	205
4.5 Percentage Distribution of Secondary Schools Climate-wise as Revealed in Some Previous Studies on Organizational Climate of Secondary Schools in Gujarat	207
4.6 Mean Differences in Scores on OCDQ Dimensions (Baroda Version) in respect of Open and Closed Climate Schools	210
4.7 Results of Tests of No Mean Differences in Scores on OCDQ (Baroda Version) Dimensions for Teachers and Principals.	214
4.8 Chi-Square Value for the Organizational Climate of Schools Located in Different Regions	219
4.9 Testing of Significance of Relationship between School size and School Climate Typology	222

<u>Table No.</u>	<u>Page</u>
4.10 Relationship between Categories of Secondary Schools and Climate	230
4.11(a) Testing of Significance of Relationship Between Sex of the Teachers and School Climate Typology	234
4.11(b) Testing of Significance of Relationship between Age of the Teachers and School Climate Typology	237
4.11(c) Chi-Square Value for the Perception of School Climate by Teachers bearing Different Qualifications	242
4.11(d) Chi-Square Value for the School Climate of Teachers with Different Teaching Experiences	246
4.11(e) Distribution of Teachers of Different SES According to Their Perceptions of School Climate	249
4.12 Comparison of Scores on the 16 Personality Factors of Teachers of Schools Categorized as Open, Inter- mediate and Closed	254-256
4.13 Personality Characteristics of Teachers Associa- ted with Open Climate and Closed Climate Schools	258
4.14 Significant Correlations Between High School OCDQ Dimensions and Teachers' Personality Factors	260
4.15 Significant Relationship Between Climate Dimensions and Personality Factors	266
4.16 T-Test values for Testing Significance of Relation- ship Between Organizational Climate of Schools and Pupil Control Ideology of Teachers	271
4.17 Correlations Between PCI Scores and OCDQ (Baroda Version) sub-test Scores	273

<u>Table No.</u>	<u>Page</u>
4.18 Comparison of Dogmatism Scores of Teachers of Open, Intermediate and Closed Types of Schools.	277
4.19 Correlations Between Dogmatism Scores and OCDQ Sub-Test Scores	278
4.20 The Analysis of Variance Data for the Relationship Between the Categories of the Schools and Persona- lity Factors of Their Teachers	283
4.21 Test of Significance for Pairs of Means on Factors C, Q <sub>2</sub> and Q <sub>3</sub> of Teachers of Different Categories of Schools using the Scheffe' Test	284
4.22 Analysis of Variance Data for the Influence of Categories of School on Pupil Control Ideology	290
4.23 Significance of 'Coveted', 'Middle Quality' and 'Just so so' Categories of Schools Using Scheffe' Test	291
4.24 Mean Pupil Control Ideology Scores of Male and Female Teachers.	294
4.25 Comparison of Pupil Control Ideology of Teachers of Various Age Groups	295
4.26(A) Means and S.D. of PCI Scores of Teachers Repre- senting Different Experience Groups	297
4.26(B) Critical Ratios of the Differences Between Means of PCI Scores of Teachers Belonging to Different Experience Groups	297
4.27 Qualifications of the Teachers and PCI Scores	299

<u>Table No.</u>		<u>Page</u>
4.28	Mean PCI by the SES Categories of Teachers	301
4.29	Summary Data and Analysis of Variance for Dogmatism Scores of Teachers of Three Different Categories of Schools	303
4.30	Summary of the Analysis of Variance on 16 Personality Factors for Teachers of Large Sized Schools, Average Sized Schools and Small Sized Schools	306
4.31	Analysis of Variance Data for the Relationship Between Size of Schools and Pupil Control Ideology of Teachers	308
4.32	Comparison of the Differences of Means of the PCI Scores of Teachers of Three Different Pairs ('Large-Average', Average-Small, and Large-Small) using the Scheffe'.	309
4.33	Summary Data and Analysis of Variance for Dogmatism Score of Teachers of the Three Different Sizes of Schools	311
4.34	Correlations Between the PCI Scores and Teachers' Personality Factors	314
4.35	Significant Relationships Between Pupil Control Ideology and Personality Factors.	319
4.36	Significance of Difference Between the Means of the Dogmatism Scores of the Male and the Female Teachers	321
4.37	A Comparison of Dogmatism Scores of Teachers of Various Age Group	322
4.38	Mean Dogmatism Scores of Five Experience Groups and their Critical Ratios	324

<u>Table No.</u>	<u>Page</u>
4.39(A) Means and S.D. of Dogmatism Scores for Different Qualifications Groups	326
4.39(B) T-Values Between Means of Dogmatism Scores for Different Qualification Groups	326
4.40 Comparisons of Significance of Differences Between Means on Dogmatism Scale of Teachers Classified on the Basis of Their SES	327
4.41 Multiple R and Regression Equation for 'Climate Score'	329
5.1 Inter-Correlation Matrix (12x12)	335
5.2 Original Principal Component Factor Matrix (12x4)	338
5.3 Rotated Factor Matrix (12x4)	342
5.4 Varimax Factor I	343
5.5 Varimax Factor II	344
5.6 Varimax Factor III	345
5.7 Varimax Factor IV	346
5.8 The Comprehensive Correlation Matrix (30x30)	349-351
5.9 Original Principal Component Factor Matrix(30x11)	352
5.10 Rotated Factor Matrix (30x11)	354
5.11 The Varimax Factor I	353
5.12 The Varimax Factor II	355
5.13 The Varimax Factor III	356
5.14 The Varimax Factor IV	357

<u>Table No.</u>	<u>Page</u>
5.15 The Varimax Factor V	358
5.16 The Varimax Factor VI	359
5.17 The Varimax Factor VII	360
5.18 The Varimax Factor VIII	361
5.19 The Varimax Factor IX	362
5.20 The Varimax Factor X	363
5.21 The Varimax Factor XI	364
