

LIST OF TABLES

TABLE NO.	PARTICULARS	PAGE NO.
1.	Size and nature of the sample	74
2.	Frequency distribution of the subject, according to their age groups	75
3.	Frequency distribution of the subjects, according to their experience (in years) in the Bank	76
4.	Frequency distribution of the subjects, according to their experience as officers in the Bank	77
5.	Frequency distribution of sampled subjects, according to their educational qualifications	78
6.	Means and standard deviations of the scores on Executive Initiative Scale (EIS) items	98
7.	Inter - correlations of EIS items	99
8.	Factor loadings of EIS items	100
9.	Percentile norms of Executive initiative Scale (EIS)	102
10.	Performance appraisal forms in the Bank	110
11.	Means (\bar{X}) and Standard Deviations (SD) of predictor and criterion variables' scores for different executive categories	115

TABLE NO.	PARTICULARS	PAGE NO.
12.	Correlations (r) values between predictor variables and performance of all executives	117
13.	Correlation (r) values between predictor variables and performance for executives belonging to Scales - II, III and IV	119
14.	Matrix of Inter - correlation between predictor variables for all executives	123
15.	Matrix of Inter - correlations between predictor variables for Scale - II executives	125
16.	Matrix of Inter - correlations between predictor variables for Scale - III executives	128
17.	Matrix of Inter - correlations between predictor variables for Scale - IV executives	130
18.	Eigen values of factors and the percentage of variance explained by the factors	132
19.	Matrix of factor loading after varimax rotation	133
20.	Communalities of variables	135
21.	Matrix of Inter - correlations between Independent Variables (IV) and the criterion for all executives	137
22.	Matrix of Inter-correlations between Independent Variables (IV) and criterion for Scale - II executives	139

TABLE NO.	PARTICULARS	PAGE NO.
23.	Matrix of Inter-correlations between Independent Variables for Scale - III executives	140
24.	Matrix of Inter-correlations between Independent Variables (IV) and criterion for Scale - IV executives	141
25.	Partial regression coefficient in step-wise multiple regression for all executives	143
26.	Results of step-wise multiple regression for all executives	144
27.	Partial regression coefficient in step-wise multiple regression for Scale - II executives	146
28.	Results of step-wise multiple regression for Scale - II executives	147
29.	Partial regression coefficients (B) in step-wise multiple regression for Scale - III executives	148
30.	Results of step-wise multiple regression for Scale - III executives	149
31.	Partial regression coefficients in step-wise multiple regression for Scale - IV executives	151
32.	Results of step-wise multiple regression for Scale - IV executives	152

TABLE NO.	PARTICULARS	PAGE NO.
33.	Step-wise multiple regression analysis results for all categories of executives	153
34.	Chi - square test for influence of age on predictors	157
35.	Chi - square test for influence of education on predictors	158
36.	Chi - square test for influence of length of experience in the bank (in years) on predictors	159
37.	Chi-square test for influence of length of experience as officer in the bank (in years) on predictors	160
