

List of Tables

| Sr. No. | Table No. | Title of the Table | Page No. |
|----------------|------------------|--|-----------------|
| 1. | 1 | Changes in identified parameters | 58 |
| 2. | 2 | Sample of Pilot study | 60 |
| 3. | 3 | Factors with factor loading and Chronbach alpha | 62 |
| 4. | 4 | Research Design | 68 |
| 5. | 5 | Factors with Eigen values, factor loading and Chronbach alpha | 83 |
| 6. | 6 | Stable factors with factor loading, Eigen values, factor variance, weightage and Chronbach Alpha | 87 |
| 7. | 7 | Score of total sample and two age groups at 75, 90 and 95 percentiles | 93 |
| 8. | 8 | Scores to identify mild, moderate and severe Internet overuse | 93 |
| 9. | 9 | Percentile norms of each actor for 15-25 years | 94 |
| 10. | 10 | Percentile norms of each actor for 26-50 years | 96 |
| 11. | 11 | Correlation of internet overuse scale with loneliness scale and self-esteem scale | 100 |
| 12. | 12 | Mean difference in the scores of internet overuse factors between Male and Female groups | 102 |
| 13. | 13 | Mean difference in the scores of internet overuse factors between different groups of age | 104 |
| 14. | 14 | Mean difference in the scores of internet overuse factors between different groups of occupation | 107 |
| 15. | 15 | Mean difference in the scores of internet overuse factors between different groups of education | 109 |
| 16. | 16 | Mean difference in the scores of internet overuse factors between different groups of marital status | 111 |
| 17. | 17 | Mean difference in the scores of internet overuse factors between the use of different equipment | 113 |

Understanding the nature of internet overuse.....

| | | | |
|-----|----|--|-----|
| 18. | 18 | Mean difference in the scores of internet overuse factors between different groups spending time on internet in terms of hours/day | 115 |
| 19. | 19 | Mean difference in the scores of internet overuse factors between different groups using internet for different purposes | 117 |
| 20. | 20 | Mean difference in the scores of internet overuse factors between the groups using different websites | 120 |
| 21. | 21 | Results of Regression co-efficient for Self-esteem and Loneliness predicting all factors of Internet Overuse | 123 |
