

LIST OF TABLES =====

TABLE NO.		PAGE NO.
4.1	Showing the distribution of schools selected in the sample	130
4.2	Analysis of various tools to measure adaptability	145
4.3	List of innovations along with frequency of suggestions	149
4.4	The final scale to measure adaptability	158
4.5	t-test data for validation of the scale	162
4.6	Reliability of the three tools	173
5.1	Distribution of adaptability scores of seventy schools	177
5.2	Descriptive statistics of the distribution of adaptability scores	178
5.3	Classification of schools in five categories	180
5.4	High and low adaptable schools and their range of scores	181
5.5	Means and of adaptability scores of high and low groups	181
5.6	Means and standard deviations of the scores of independent variable	183
5.7	't' value for variable No. 1	188
5.8	't' value for variable No. 2	190
5.9	't' value for variable No. 3	192
5.10	't' value for variable No. 4	194
5.11	't' value for variable No. 5	195

5.13	't' value for variable No. 7	199
5.14	't' value for variable No. 8	200
5.15	't' value for variable No. 9	202
5.16	't' value for variable No.10	203
5.17	't' value for variable No.11	205
5.18	't' value for variable No.12	207
5.19	't' value for variable No.13	208
5.20	't' value for variables No.14 and 15	210
5.21	't' value for variables No.16 and 17	213
5.22	't' value for variables No.18 and 19	214
5.23	't' value for variable No.20	216
5.24	't' value for variable No.21	217
5.25	't' value for variable No.22	218
5.26	't' value for variable No.23	220
5.27	't' value for variable No.24	221
5.28	't' value for variable No.25	222
5.29	't' value for variable No.26	225
5.30	't' value for variable No.27	227
5.31	't' value for variable No.28	228
5.32	't' value for variable No.29	230
5.33	't' value for variable No.30	233
5.34	't' value for variable No.31	234
5.35	't' value for variable No.32	235
5.36	't' value for variable No.33	237
