

LIST OF TABLES

TABLE	DESCRIPTION	PAGE NO.
Table 01	Task oriented leadership studies	142
Table 02	Comparison of Enneagram types, Millions classification and MBTI scores	151
Table 03	Distribution of MBTI Types on nine Enneazones by Richards, Flautt, Baron and Fudjack, Dinkelakar	154
Table 04	Associated MBTI types according to Flautt, Riso, Fudjack / Dinkelakar, Geldart and Gabbard	156
Table 05	Shows number of items on each dimension of Enneagram	176
Table 06	Shows number of items in nine dimensions retained after the experts opinion	177
Table 07	Shows the particulars of subjects selected for item analysis	178
Table 08	Shows the correlations values of 138 retained items for final questionnaire	179
Table 09	Shows the dimensionwise numbers of items selected after the item analysis	185
Table 10	Shows the particulars of respondents used to find the reliability of the test	185
Table 11	Shows the reliability values of nine dimensions of Enneagram	187
Table 12	Shows the reliability values of nine dimensions of Enneagram obtained from different methods	188
Table 13	Shows Guilford's validity values for nine dimensions	189
Table 14	Shows the serial number of items and a values for four dimensions of MBTI	193
Table 15	Shows the item numbers, serial number items in the scale and a values for the four dimensions of MBTI	194
Table 16	Shows sample distribution from four organisations used in the study	196
Table 17	Shows frequencies of respondents falling in sixteen MBTI dimensions corresponding to nine Enneagram points	204
Table 18	Shows the obtained MBTI preferences on the nine Enneagram types	206
Table 19	Shows the obtained MBTI preferences on the nine Enneagram types in percentage	207
Table 20	Shows correlations between Enneagram and MBTI scores	209
Table 21	Shows regression values for Introversion and nine Enneagram types	211
Table 22	Shows regression values for Thinking and nine Enneagram types	211
Table 23	Shows regression values for Judging and nine Enneagram types	212
Table 24	Shows regression values for Feeling and nine Enneagram types	212
Table 25	Shows regression values for Extraversion and nine Enneagram types	213
Table 26	Shows regression values for Perceiving and nine Enneagram types	213

LIST OF TABLES

TABLE	DESCRIPTION	PAGE NO.
Table 27	Shows correlation between Enneagram types and Task oriented leadership style scores	214
Table 28	Shows correlation between Enneagram types and Authoritative leadership style.	215
Table 29	Shows correlation between Enneagram types and Participative leadership style	215
Table 30	Shows correlation between Enneagram types and A, p + N leadership style	216
Table 31	Shows regression value for A, p + N leadership style and nine Enneagram types	217
Table 32	Shows regression value for Participative leadership style and nine Enneagram types	217
Table 33	Shows regression value for Authoritative leadership style and nine Enneagram types	218
Table 34	Shows regression value for Task-oriented leadership style and nine Enneagram types	218
Table 35	Shows correlations between Extraversion-Introversion and leadership style	219
Table 36	Shows correlations between 6 preferences of MBTI and leadership style	220
Table 37	Shows difference between Perfectionists of manufacturing and service organisation	221
Table 38	Shows difference between Peace-makers of manufacturing and service organisation	222
Table 39	Shows difference between Helpers of manufacturing and service organisation	223
Table 40	Shows difference between Romantics of manufacturing and service organisation	224
Table 41	Shows difference between Questioners of manufacturing and service organisation	225
Table 42	Shows F values for differences on Enneagram dimensions of manufacturing and service organisations	226
Table 43	Shows means, SDs, SEs, t values and significance levels for nine Enneagram types in manufacturing and service organisation	227
Table 44	Shows difference between manufacturing and service organisation on Feeling variable of MBTI types	229
Table 45	Shows difference between manufacturing and service organisation on Thinking variable of MBTI types	229
Table 46	Shows F values for differences on MBTI dimensions - E, I and S of manufacturing and service organisations	230
Table 47	Shows F values for differences on MBTI dimensions - N, J, and P of manufacturing and service organisations	231
Table 48	Shows means, SDs, SEs, t values and significance levels for eight MBTI types in manufacturing and service organisation	232

LIST OF TABLES

TABLE	DESCRIPTION	PAGE NO.
Table 49	Shows F values for differences on Leadership dimensions between manufacturing and service organisations	233
Table 50	Shows means, SDs, SEs, t values and significance levels for four Leadership styles in manufacturing and service organisation	234
Table 51	Shows differences between private and public manufacturing on Adventurer variabl of Enneagram	235
Table 52	Shows differences between private and public manufacturing on Asserter variabl of Enneagram	235
Table 53	Shows differences between private and public manufacturing on Achiever variabl of Enneagram	236
Table 54	Shows F values related to Enneagrams in private and public manufacturing organisation	237
Table 55	Shows F values related to Enneagrams in private and public manufacturing organisation	238
Table 56	Shows means, SDs, SEs, t values and significance levels for nine Enneagrams typēs in public and private manufacturing organisation	239
Table 57	Shows F values related to Extraversion dimension of MBTI in private and public manufacturing organisation	240
Table 58	Shows F values related to Introversion dimension of MBTI in private and public manufacturing organisation	240
Table 59	Shows F values related to MBTI dimension in private and public manufacturing organisation	241
Table 60	Shows F values related to MBTI dimension in private and public manufacturing organisation	242
Table 61	Shows means, SDs, SEs, t values and significance levels for eight MBTI types in private and public manufacturing organisation	243
Table 62	Shows F values related to four leadership dimensions in private and public manufacturing organisation	244
Table 63	Shows means, SDs, SEs, t values and significance levels for four leadership styles in private and public manufacturing organisation	245
Table 64	Shows F values for manufacturing and service organisation in public sector on Peacemakers dimension of Enneagram	246
Table 65	Shows F values for manufacturing and service organisation in public sector on Adventurers dimension of Enneagram	247
Table 66	Shows F values for manufacturing and service organisation in public sector on Questioners dimension of Enneagram	248
Table 67	Shows F values for manufacturing and service organisation in public sector on Achievers dimension of Enneagram	249
Table 68	Shows F values for manufacturing and service organisation in public sector on Perfectionists dimension of Enneagram	250
Table 69	Shows F values for manufacturing and service organisation in public sector on Romantics dimension of Enneagram	251

LIST OF TABLES

TABLE	DESCRIPTION	PAGE NO.
Table 70	Shows F values for two public sector manufacturing and service organisations on Enneagram dimensions	252
Table 71	Shows means, SDs, SEs, t values and significance levels for nine Enneagram dimensions in public manufacturing and service organisation	253
Table 72	Shows difference between public manufacturing and service organisation on Feeling dimension of MBTI types	255
Table 73	Shows difference between public manufacturing and service organisation on Thinking dimension of MBTI types	256
Table 74	Shows F values between public manufacturing and service organisation on MBTI types	257
Table 75	Shows F values between public manufacturing and service organisation on MBTI types	258
Table 76	Shows means, SDs, SEs, t values and significance levels for eight MBTI types in public manufacturing and service organisation	259
Table 77	Shows F values for public sector manufacturing and service organisations on leadership dimensions	260
Table 78	Shows means, SDs, SEs, t values and significance levels for four leadership styles in public manufacturing and service organisation	261
Table 79	Shows type of correlations (positive, negative or neutral) between Enneagram and MBTI types scores	271
