

List of Tables

Table No.	Title of the Table	Pg. No.
Table 1	EPIC components and their assumed properties	34
Table 2	Parameters for simulations with the SRD model	50
Table 3	Reaction times and constraints on SOA for the five alternative paths of processing in task 2 under SRD model	52
Table 4	Classification of styles	58
Table 5	Classification of styles	59
Table 8	Overall number of responses, deleted responses, included responses and keypress obtained from all subjects experimentwise	105
Table 9	Cross-tabulation of stimulus and participant keypress along with their frequency and percentage	107
Table 10	Percentage of correct answer choices for each stimulus and display time	109
Table 11	Percentage of errors in stimulus identification for each stimulus and display time	110
Table 12	Percentage of correct stimulus identification of all stimuli subjectwise	113
Table 13	Percentage of errors in stimulus identification for stimulus 4-5 subjectwise	115
Table 14	Percentage of errors in stimulus identification for stimulus Blank-D subjectwise	117
Table 15	Percentage of errors in stimulus identification for stimulus F subjectwise	119
Table 16	Percentage of errors in stimulus identification for all stimulus subjectwise	120
Table 17	Chi-square test for stimulus identification time for all stimuli	121
Table 18	Chi-square test for stimulus identification time for all stimuli	121
Table 19	Discriminability of stimuli for different display time	122
Table 20	Difficulty of discriminability of stimuli for different display time	122
Table 21	Univariate analysis of variance: Tests of Between-Subjects Effects for Repetitive Response Times	126
Table 22	Mean, SD and V repetitive responses for Total, hands, fingers, stimuli and subjects	127
Table 23	Frequency distribution of repetitive response times for Total, hands, fingers and stimuli	130
Table 24	Frequency distribution of repetitive response times for each subject	131
Table 25	Univariate analysis of variance: Tests of Between-Subjects Effects for Simple-Reaction Time - Single Response	137
Table 26	Mean, SD and V of simple reaction time - single response for Total, hands, fingers, stimuli and subjects	138
Table 27	Frequency distribution of simple reaction time - single response for Total, hands, fingers, and stimuli	141
Table 28	Frequency distribution of simple reaction time - single response for Total, hands, fingers and stimuli	142
Table 29	Univariate analysis of variance: Tests of Between-Subjects Effects for Simple-Reaction Time - Simple	148
Table 30	Mean, SD and V of simple reaction time - simple for Total, hands, fingers, stimuli and subjects	149
Table 31	Frequency distribution of simple reaction time - simple response for Total, hands, fingers, and stimuli	152

List of Tables

Table No.	Title of the Table	Pg. No.
Table 32	Frequency distribution of simple reaction time - simple response for each subject	153
Table 33	Frequency distribution of simple reaction time - simple response for each subject	154
Table 34	Univariate analysis of variance: Tests of Between-Subjects for Simple Reaction Time - Repeat	159
Table 35	Mean, SD and V of simple reaction time - repeat for Total, hands, fingers, stimuli and subjects	160
Table 36	Frequency distribution of simple reaction time - repeat response for Total, hands, fingers, and stimuli	163
Table 37	Frequency distribution of simple reaction time - repeat response for each subject	164
Table 38	Frequency distribution of simple reaction time - repeat response for each subject	165
Table 39	Paired sample t tests between Experiment 2: repetitive response time and Experiment 3: simple reaction time - repeat response time for Total, and stimuli	170
Table 40	Univariate analysis of variance: Tests of Between -Subjects Effects for Discrete Successive Choice Reaction Time - Short Serial	174
Table 41	Mean, SD and V of discreet successive choice reaction time - short serial responses for Total, hands, fingers, stimuli, and subjects	175
Table 42	Frequency distribution of discreet successive choice reaction time - short serial responses for Total, hands, fingers, and stimuli	178
Table 43	Univariate analysis of variance: Tests of Between -Subjects Effects for Discrete Successive Choice Reaction Time - Long Serial	180
Table 44	Mean, SD and V of discreet successive choice reaction time - long serial responses for Total, hands, fingers, stimuli, and subjects	181
Table 45	Frequency distribution of discreet successive choice reaction time - long serial responses for Total, hands, fingers, and stimuli	184
Table 46	Mean differences between discteeet successive choice reaction time - short serial responces and Experiment 3: simple reaction time - single responses	186
Table 47- 1	Univariate analysis of variance: Tests of Between-Subjects Effects for Discreet Successive Choice Reaction Time - Reverse - First Reaction	189
Table 47-2	Univariate analysis of variance: Tests of Between-Subjects Effects for Discreet Successive Choice Reaction Time - Reverse - Second Reaction	189
Table 48	Mean, SD and V of discreet successive choice reaction time - reverse first reaction & second reaction for Total, hands, fingers, stimuli and subjects	190
Table 49	Frequency distribution of discreet successive choice reaction time - first reaction, second reaction and serial for total	194
Table 50	Univariate analysis of variance: Tests of Between-Subjects Effects for discreet successive choice reaction time - Alternate - First Reaction	199
Table 51	Univariate analysis of variance: Tests of Between-Subjects Effects for discreet successive choice reaction time - Alternate - Second Reaction	199

List of Tables

Table No.	Title of the Table	Pg. No.
Table 52	Mean, SD and V of discreet successive choice reaction time - alternate first reaction & second reaction for Total, hands, fingers, stimuli and subjects	200
Table 53	Frequency distribution of discreet successive choice reaction time - alternate - first reaction, second reaction and serial for total	204
Table 54	Paired sample t test statistics between Experiment 4 reverse and alternate	207
Table 55	Reaction time of task 1 and task 2 in T1T2 response priority condition	209
Table 56	Reaction time of task 1 and task 2 in T1T2 response priority condition	210
Table 57	Reaction time of task 1 and task 2 in T1T2 response priority condition	211
Table 58	Reaction time of task 1 and task 2 in T2T1 response priority condition	211
Table 59	Reaction time of task 1, task 2, and task 3 in T1T2T3 response priority condition	219
Table 60	Reaction time of task 1, task 2, and task 3 in T1T3T2 response priority condition	220
Table 61	Reaction time of task 1, task 2 and task 3 in T2T1T3 response priority condition	221
Table 62	Reaction time of task 1, task 2 and task 3 in T2T3T1 response priority condition	222
Table 63- 1	Reaction time of task 1, task 2 and task 3 in T3T1T2 response priority condition	223
Table 63- 2	Reaction time of task 1, task 2 and task 3 in T3T1T2 response priority condition	224
Table 64	Mean test time and number of errors and the group assigned to each subject	227
Table 65	One - way ANOVA of reflective and impulsive group	228
Table 66	Mean and SD of reflective and impulsive group	228
Table 67	Reaction time of task 1 and task 2 in T1T2 response priority conditions for both impulsive and reflective group	229
Table 68	Reaction time of task 1, task 2 and task 3 in T1T2T3 response priority conditions for impulsive and reflective group	230
Table 69	Mean test time and number of errors and the group assigned to each subject	232
Table 70	One - way ANOVA of Field Dependent and Field Independent Group	233
Table 71	Mean and SD of Field Dependent and Field Independent Group	233
Table 72	Reaction time of task1 and task 2 in T1T2 response priority condition for both Field Independent Group	234
Table 73	Reaction time of task 1, task 2 and task 3 in T1T2T3 response priority conditions for Field Dependent and Field Independent Group	235
