

CONTENTS

	Page no.
INTRODUCTION.....	1-19
1.1 Definition of violence.....	2-4
1.2 Types of violence.....	4-5
1.3 Categorization of violence.....	5-8
1.4 Theoretical framework to understand aggression and Violence at the workplace.....	8-11
1.5 Conceptual framework.....	11-16
1.6 Emerging Research and Research Questions.....	16-17
PILOT STUDY.....	20-47
2.1 Introduction.....	20
2.2 Concept and Research Review.....	21-26
2.3 Objectives of the Pilot Study.....	26
2.4 Methods.....	26-27
2.4.1 <i>Sample of the Pilot Study</i>	26
2.4.2 <i>Procedure</i>	27-27
2.4.3 <i>Questions Asked in the Pilot Study</i>	28
2.5 Results and Findings of the Pilot Study.....	28-43
2.6 Discussions and Conclusions.....	43-47
DEVELOPMENT OF THE WORKPLACE VIOLENCE SCALE.....	48-76
3.1 Introduction.....	48-49
3.2 Review of Research.....	49-54
3.3 Objectives	55
3.4 Method.....	55
3.4.1 <i>Procedure</i>	55
3.5 Operational Definitions.....	56-63
3.6 Results	63-73
3.7 Discussions and Conclusions.....	73-76

MAIN STUDY	77-127
4.1 Introduction	77
4.2 Concept and Review of Research	77-83
4.3 Objectives of the Study	83-84
4.4 Hypotheses	84-86
4.5 Method	86-105
4.5.1 Study Setting	86
4.5.2 Participants	86-88
4.5.3 Sample Description	89-98
4.5.4 Tools and Measures	99-104
4.5.5 Procedures	104-105
4.6 Statistical Analysis	105
4.7 Results and Findings	105-210
4.7.1. Effects of gender on the perception of psychosocial parameters and workplace violence dimensions	109-112
4.7.1.1 Effect of male and female employees on the perception of psychosocial parameters	109-110
4.7.1.2 Mean differences of male and female employees on the perception of workplace violence dimensions	111-112
4.7.2. Effect of organizational sectors on the perception of psychosocial parameters and workplace violence dimensions	113-120
4.7.2.1 Effect of organizational sectors on the perception of psychosocial parameters	113-117
4.7.2.2 Effect of sectors on the perception of workplace violence dimensions	117-120
4.7.3 Two-way ANOVA for gender of the employees and organizational sectors on the perception of psychosocial parameters and workplace violence dimensions	121-128
4.7.3.1 Interaction effect of gender and organizational sectors on the perception of psychosocial parameters	121-125
4.7.3.2 Interaction effect of gender and organizational sectors on the perception of workplace violence dimensions	126-128
4.7.4. Effect of working experience of the employees on the perception of psychosocial parameters and workplace violence dimensions	128-128
4.7.4.1 Effect of working experience of the employees on the perception of psychosocial parameters	128-134
4.7.4.2 Effect of working experience of the employees on the perception of workplace violence dimensions	134-135

4.7.5 Effect of age of the employees on the perception of psychosocial parameters and workplace dimensions	135-140
4.7.5.1 Effect of age of the employees on the perception of psychosocial parameters.....	135-139
4.7.5.2 Effect of age of the employees on the perception of workplace violence dimensions.....	139-140
4.7.6 Effect of marital status on the perception of psychosocial parameters and workplace violence dimensions	140-144
4.7.6.1 Effect of marital status on the perception of psychosocial parameters.....	140-143
4.7.6.2 Effect of marital status on the perception of workplace violence dimensions.....	143-144
4.7.7 Effect of educational qualification on the perception of psychosocial parameters and workplace violence dimensions	144-150
4.7.7.1 Effect of educational qualification on the perception of psychosocial parameters.....	144-148
4.7.7.2 Effect of educational qualification on the perception of workplace violence dimensions.....	148-150
4.7.8 Effect of working hours in the perception of the psychosocial parameters and workplace violence dimensions	150-155
4.7.8.1 Effect of working hours in the perception of the psychosocial parameters.....	150-154
4.7.8.2 Effect of working hours in the perception of the workplace violence dimensions.....	154-155
4.7.9 Effect of hierarchical levels on the perception of psychosocial parameters and workplace violence dimensions	155-158
4.7.9.1 Effect of hierarchical levels on the perception of psychosocial parameters.....	155-157
4.7.9.2 Effect of hierarchical levels on the perception of workplace violence dimensions.....	157-158
4.7.10 Correlation	159- 171
4.7.10.1 Inter-correlation between psychosocial parameters and workplace violence dimensions.....	159-162
4.7.10.2 Inter-correlation between positive and negative psychosocial parameters.....	163-164
4.7.10.3 Inter-correlation between negative psychosocial parameters and workplace violence dimensions.....	164-166
4.7.10.4 Intra-correlation among the positive psychosocial parameters.....	166-168

4.7.10.5	Intra-correlation among the negative psychosocial parameters.....	168-169
4.7.10.6	Intra-correlation among the workplace violence dimensions.....	169-171
4.7.11	Regression analysis to identify an individual contribution of workplace violence.....	171-183
4.7.11.1	Psychosocial parameters (stress, work overload, conflict, job demands) as predictors of workplace violence dimensions.....	171-176
4.7.11.2	Psychosocial parameters (energy, general health, perceived health, superior support, subordinate support, organization support) as predictors of workplace violence dimensions.....	176-182
4.7.11.3	Counterproductive work behavior (CWB) as predictor of workplace violence dimensions.....	182-183
4.8	General Discussions.....	183-210
4.8.1	Mean differences on the perception of male and female employees on psychosocial parameters.....	184-187
4.8.2	Effect of organizational sectors on the perception of psychosocial parameters and workplace violence dimensions.....	187-189
4.8.3.	Interaction effect of gender and organizational sectors on the perception of psychosocial parameter and workplace violence dimensions.....	189-190
4.8.4	Effect of work experience of the employees on the perception of psychosocial parameters and workplace violence dimensions.....	190-192
4.8.4.1	Effect of work experience of the employees in the perception of psychosocial parameters.....	190-191
4.8.4.2	Effect of work experience of the employees in the perception of workplace violence dimensions.....	191-192
4.8.5	Effect of age of the employees on the perception of psychosocial parameters and workplace violence dimensions.....	192-194
4.8.5.1	Effect of age of the employees on the perception of psychosocial parameters.....	192-194
4.8.5.2	Effect of age of the employees on the perception of psychosocial parameters.....	194
4.8.6	Effect of marital status in the perception of psychosocial parameters and workplace violence dimensions.....	194-196
4.8.6.1	Effect of marital status in the perception of psychosocial parameters.....	194-196

4.8.6.2 Effect of marital status in the perception of psychosocial parameters.....	196
4.8.7 Effect of educational qualification on the perception of psychosocial parameters and workplace violence dimensions.....	196-200
4.8.7.1 Effect of educational qualification in the perception of psychosocial parameters.....	196-199
4.8.7.1 Effect of educational qualification in the perception of psychosocial parameters.....	199-200
4.8.8 Effect of working hours on the perception of psychosocial parameters and workplace violence dimensions.....	201-203
4.8.8.1 Effect of working hours in the perception of psychosocial parameters.....	201-203
4.8.8.1 Effect of working hours in the perception of psychosocial parameters.....	203
4.8.9 Effect of hierarchical levels in the perception of psychosocial parameters and workplace violence dimensions.....	203-204
4.8.9.1 Effect of hierarchical levels in the perception of psychosocial parameters.....	203-204
4.8.9.1 Effect of hierarchical levels in the perception of psychosocial parameters.....	204
4.8.10.1: Correlation between positive psychosocial parameters and workplace violence dimensions.....	204-206
4.8.10.2 Correlation between negative psychosocial parameters and workplace violence dimensions.....	207
4.8.10.3 Correlation between counterproductive work behavior and workplace violence dimensions.....	208
4.8.11.1 Psychosocial parameters (stress, work overload, conflict and job demands) as predictors of workplace dimensions.....	208-209
4.8.11.2 Psychosocial parameters (energy, general health, perceived health, superior support, subordinate support and organization support) as negative predictors of workplace violence	209-210
4.8.11.3 Counterproductive work behavior as predictor of violence at workplace.....	210

SUMMARY AND CONCLUSION.....	211-220
5.1 Major Findings.....	212-217
5.2 Conclusions.....	218
5.3 Implications.....	218-219
5.4 Limitations.....	219
5.5 Direction for Future Research.....	220
