

LIST OF TABLES

Table No.	Title	Page No.
2.1	Research design	59
2.1.1	Sample breakup	62
2.1.2	Sample breakup of children's age	63
2.1.3	Sample breakup of father's age	64
2.1.4	Sample breakup of father's education	65
2.1.5	Sample breakup of father's occupation	66
2.1.6	Sample breakup of mother's age	67
2.1.7	Sample breakup of mother's education	68
2.1.8	Sample breakup of mother's occupation	69
2.3.1	Dimensions of emotional intelligence scale	72
2.3.2	Details of school social behavior scale	75
3.1	Mean differences between the optimism and social competence of children of primary care givers with high and low emotional intelligence.	81
3.2	Mean difference between primary care givers emotional intelligence across high and low social competence.	82
3.3	Mean differences of the primary care givers emotional intelligence from Vadodara and Hyderabad.	83
3.4	Mean differences of residential mobile and local sample from Vadodara and Hyderabad.	85
3.2.1	Correlations between emotional intelligence, optimism and social competence.	89
3.3.1	Emotional intelligence as predictor of pro-social and interpersonal relation of children.	90
3.3.2	Emotional intelligence as a predictor of self- management skills of children .	90
3.3.3	Emotional Intelligence as a predictor of academic skills of children.	91

3.3.4	Emotional intelligence as a predictor of social competence subscale score of children.	91
3.3.5	Emotional intelligence as a predictor of hostile-irritable behavior of children.	92
3.3.6	Emotional intelligence as a predictor of antisocial-aggressive behavior of children.	92
3.3.7	Emotional intelligence as a predictor of destructive-demanding behavior of children.	93
3.3.8	Emotional intelligence as a predictor of antisocial subscale total.	93
3.3.9	Emotional intelligence as a predictor of social competence of children (SSBS total) .	94
3.3.10	Emotional intelligence as a predictor of good event dimension of optimism.	94
3.3.11	Emotional intelligence as a predictor of bad event dimension of optimism .	95
3.3.12	Emotional intelligence as a predictor of optimism of children (CASQ total) .	95
3.4.1	Table showing the division of parents according to their parent-child interaction.	97
