Dear Sister / Brother,

Let me introduce myself as a research student of the (Centre of Advanced Study in Education) M. S. University, Baroda. It is with the genuine hope of getting the esteemed co-operation of all of you in the matter of collection of data that I have chosen to study the pattern of adoption and diffusion of Innovative practices in a few of our leading secondary schools along with the associated factors like adopter categories and barriers. I have selected only a few well known schools for this purpose.

Please find a book-let of short and easy checking (✓) type of questions, requiring your responses.

May I earnestly request you to give your valuable responses to all of the items without omitting any of them enabling me to carryout my study successfully.

Thanking you and With sincere & warm regards,

Yours sincerely,

(S. PURUSHOTHAMAN)
