

ACKNOWLEDGEMENT

I take this opportunity to offer my deep sense of gratitude to my guide, Dr. Sunirmal Roy, Professor & Head - CASE; I have learnt many things and wish to learn many more from him; I am immeasurably grateful to him for his scholarly guidance and critical comments related to my study; I would definitely remain very grateful to him throughout my career and my life.

I am very grateful especially to Prof. N.S. Pathak - Dean, Fac. of Edu. & Psy., for his kind encouragement; I also recall the support given to me especially in the beginning of my study by former Dean & Head of CASE - Prof. M.S. Yadav and former Head of CASE, Retd. Prof. (Ku.) M.M. Shah, for whom I express my sincere gratitude; and I am also grateful to Prof. S.M. Joshi - Head, Dept. of Ednl. Admn. and Dr. R.K. In connection with the collection of data in this study, I am very much indebted to the following: Central Board of Secondary Education, Delhi; Kendriya Vidyalaya Sangathan, Regional Office, Bombay; the Principals, physics teachers & students of Snr. Sec. Schools in the Western region of India, who had kindly responded to my questionnaires and to the experts especially Dr. G.R. Pandya, Dr. (Ku.) M.S. Shah, Sri A. Rede, Dr. (Smt.) N. Vaishampayana - from the Dept. of Physics, M.S. Uni., Baroda, Sri P.N. Srivastava - M.S. Uni. Press, Baroda and Dr. A.S. Pillai - Bhavan's Public School, Baroda. Because of the very nature of this investigation, I owe a lot to many librarians; first of all, I am grateful to Smt. S.S. I humbly feel that I could climb up the educational ladder, because of the contributions made by many: words fail to express my feelings and immeasurable gratitude to the following: to my beloved parents, Late Sri.Y.Srinivasa Rao and Late Smt.Y.Laxmi S.Rao, who had struggled a lot to bring me up and the family; to all my respected teachers; to my aunt, Smt.Kalyani K.Bhat; to my uncles - Late Sri.K. Gopalakrishna Asranna & Brothers and Sri. A.Ramanna Bhat, for their affectionate support; to all my brothers and sisters - and especially to my elder brother Sri.Y.Dayananda Rao for the sincere trouble he took in looking after me after the sudden passing away of our beloved father during my childhood and for his kind encouragement and affectionate support for my education; to my younger brother Hayavadana for his affectionate willingness to understand my problems; to Late Sri.M.Vasudeva Mogeraya; to Sri.M.Bhoovaraha Puranik; to Smt. & Sri.T.Anantha Krishna Rao, who have been affectionately supporting me in all possible ways and who made it possible for me to leave my family at Bombay under their care while I am away from them; and to many other relatives, well wishers and friends. Words are inadequate to express my feelings for my wife Smt.Kusuma; she has suffered and sacrificed a lot to look after the kids during the past three years of my study; moreover I am thankful to her for her expertise in advanced mathematics, which has been found very useful in this investigation. Here I wish to express my appreciation also for my two kids, Krishna Chaitanya and Devi Nandana, who have been tolerating my absence in the family and showing a lot of anxiety regarding the completion of my thesis for which they too have been helping me in whatever possible way they could.

Last but not the least, I wish to sincerely thank Sri.M.R.Parmar, who has been more like an understanding friend than a typist, for his sincere and efficient technical help.
