

Appendix–IV

CO-CURRICULAR ACTIVITIES

In order to promote cohesiveness among pupils and to motivate the pupils to the learning task certain co- curricular activities were held parallel to the instructional programme. Each group was asked to present an activity of their choice prior to the beginning the class. Most of the time pupils presented dramas from the episodes based on their experiences. Along with this pupils also undertook thematic drawing where pupils drew drawing s related to the content area. The teacher encouraged the activities like free drawing, prayer and poetry.

Given here some still photographs of the pupils, while conducting certain co curricular activities.
