

LIST OF TABLES

Table 1.1 Ground Water Quality Scenario of India.....	38
Table 2.1 Seismicity Records of Kutch	62
Table 2.2 Rainfall & Temperature.....	64
Table 2.3 Demographic Status of Study Area	73
Table 2.4 Socio- Demographic Status of study area	75
Table 2.5 (a) Changes in Working Population within study area (Year 1961 to 2011)	76
Table 2.5 (b) Changes in Working Population within study area (Year 1961 to 2011).....	77
Table 2.6 Demographic Status of Worker Class in study area.....	78
Table 2.7 Village level population in the study area from 1971 to 2011	81
Table 2.8 Village Code of Study Area	88
Table 2.9 Population Category Code of Study Area	102
Table 2.10 Source of Irrigation.....	118
Table 2.11 Changes in Wells and Tubewells from 1995 to 2011.....	120
Table 2.12 Total Persons of SC Group holding the agriculture land	121
Table 2.13 Total Holding Areas of SC Group.....	123
Table 2.14 Total Persons of ST Group holding the agriculture land.....	124
Table 2.15 Total Holding Areas of ST Group.....	125

Table 2.16 Institutional Holdings of Agriculture Area	126
Table 2.17 Total Persons of Others Group Holding the Agriculture Land	127
Table 2.18 Total Holding Areas of Other Group.....	128
Table 2.19 Total Holding Persons of All social Groups (Institutional+SC+ST+Others).....	129
Table 2.20 Total Areas Holding of all Groups (Institutional+SC+ST+Others).....	131
Table 2.21 Template of KAP of RWH in Study Area.....	133
Table 2.22 Satellite Data Sets.....	143
Table 2.23 Change in Landuse from 1990 to 2015	145
Table 3.1 Mesozoic Lithostratigraphy of Kutch (Biswas, 1971).	162
Table 3.2 Tertiary Litho-Stratigraphy of Kutch (After Biswas, 1992).....	168
Table 4.1 Pre-monsoon (2009) Water Quality Parameters.....	227
Table 4.2 (a) Correlation Matrix of Pre Monsoon 2009.....	262
Table 4.2 (b) Correlation Matrix of Pre Monsoon 2009.....	263
Table 4.3 Post Monsoon (2009) Water Quality Parameters.....	266
Table 4.4 (a) Correlation Matrix of Post Monsoon 2009	284
Table 4.4 (b) Correlation Matrix of Post Monsoon 2009.....	285
Table 4.5 Pre-monsoon Water Quality Parameters (2015).....	288
Table 4.6 (a) Correlation Matrix of Pre Monsoon 2015.....	299

Table 4.6 (b) Correlation Matrix of Pre Monsoon 2015.....	299
Table 4.7 Post Monsoon Water Quality Parameters (2015).....	302
Table 4.8 (a) Correlation Matrix of Post Monsoon 2015	313
Table 4.8 (b) Correlation Matrix of Post Monsoon 2015	313
Table 4.9 Pre-monsoon Water Quality Parameters (2016).....	316
Table 4.10 (a) Correlation Matrix of Pre Monsoon 2016.....	327
Table 4.10 (b) Correlation Matrix of Pre Monsoon 2016.....	327
Table 5.1 Probability of Occurrence of Rainfall for Kutch District.....	347
Table 5.2 Criteria for analysis in CAZRI report.....	348
Table 5.3 Probability of Occurrence (Anjar).....	350
Table 5.4 Rainfall in Anjar	351
Table 5.5 Distribution of Rainfall for Anjar Taluka.....	352
Table 5.6 Probability of Occurrence (Bhuj)	359
Table 5.7 Rainfall in Bhuj	361
Table 5.8 Distribution of Rainfall for Bhuj Taluka	362
Table 5.9 Probability of Occurrence (Gandhidham)	365
Table 5.10 Rainfall in Gandhidham	367
Table 5.11 Distribution of Rainfall for Gandhidham Taluka	367

Table 5.12 Field Log of Infiltration rate (Sample)	377
Table 5.13 Standard Hydrologic Soil Group (HSG)	380
Table 5.14 Hydrologic Soil Group (HSG) for Soils in the study area.....	381
Table 5.15 Runoff Curve Number (CN) Values for Study Area.....	383
Table 5.16 Runoff Curve Number (CN) Values for Undeveloped Lands.....	385
Table 5.17 Runoff CN Values for Fully Developed & Developing Urban areas.....	386
Table 5.18 Run-off Based on SCS CN method	389
Table 6.1 DRASTIC parameters with the associated DRASTIC weights	422
Table 6.2 Depth to water table with the associated DRASTIC weights.....	425
Table 6.3 Net Recharge with associated DRASTIC Weightages.....	427
Table 6.4 Aquifer Media with associated DRASTIC Weightages.....	430
Table 6.5 Soil Media with associated DRASTIC Weightages.....	431
Table 6.6 Topography with associated DRASTIC Weightages	433
Table 6.7 Vadose Zone with associated DRASTIC Weightages	434
Table 6.8 Hydraulic Conductivity with associated DRASTIC Weightages.....	435
Table 6.9 Method of Calculating Morphometric Parameters of Drainage basin.....	441
Table 6.10 (a) Result of morphometric analysis	449
Table 6.10 (b) Result of Morphometric Analysis.....	449

Table- 6.11 Weightage Assigned to Geomorphological units.....	456
Table 6.12 Weightage Assigned to Geololgal units	458
Table 6.13 Weightage Assigned to Static Water Level in Mtr.....	459
Table 6.14 Weightage Assigned to Slope (in degree)	461
Table 6.15 Weightage Assigned to Landuse and Landcover	463
Table 6.16 Weightage Assigned to Drainage	465
Table 6.17 Weightage assigned to Rainfall Runoff Map	466
Table 6.18 Weightage assigned to Soil Map	467
Table 6.19 Rainfall	469
Table 6.20 Problem solving: Assignment of ranking to the spatial data:.....	470
Table 6.21 Weightages given to input themes.....	470
Table 6.22 Corellation Matrix	471
Table 6.23 Judgement Matrix	471
Table 6.24 Criteria for Suggesting Type of Well	476
Table 6.25 Type of well and its depth range	477
Table 6.26 Village Wise Proposed Recharge Structure and Area of Prospective Zone.....	481
Table 6.27 Groundwater Prospect Based on Hydro Geomorphic Unit	487
